Lyric And Labour In The Romantic Tradition:

Lyric and Labour in the Romantic Tradition Anne F. Janowitz, 1998-08-06 *Lyric and Labour in the Romantic Tradition* first published in 1998 examines the legacy of Romantic poetics in the poetry produced in political movements during the nineteenth century It argues that a communitarian tradition of poetry extending from the 1790s to the 1890s learned from and incorporated elements of Romantic lyricism and produced an ongoing and self conscious tradition of radical poetics Showing how romantic lyricism arose as an engagement between the forces of reason and custom Anne Janowitz examines the ways in which this Romantic dialectic infected the writings of political poets from Thomas Spence to William Morris The book includes new readings of familiar Romantic poets including Wordsworth and Shelley and investigates the range of poetic genres in the 1790s In the case studies which follow it examines relatively unknown Chartist and Republican poets such as Ernest Jones and W J Linton showing their affiliation to the Romantic tradition and making the case for the persistence of Romantic problematics in radical political culture [The Oxford Handbook of Victorian Literary Culture](#) Juliet John, 2016-07-14 *The Oxford Handbook of Victorian Literary Culture* is a major contribution to the dynamic field of Victorian studies This collection of 37 original chapters by leading international Victorian scholars offers new approaches to familiar themes including science religion and gender and gives space to newer and emerging topics including old age fair play and economics Structured around three broad sections Ways of Being Identity and Ideology Ways of Understanding Knowledge and Belief and Ways of Communicating Print and Other Cultures the volume is sub divided into nine sub sections each with its own lead essay on subjectivity politics gender and sexuality place and race religion science material and mass culture aesthetics and visual culture and theatrical culture The collection like today s Victorian studies is thoroughly interdisciplinary and yet its substantial Introduction explores a concern which is evident both implicitly and explicitly in the volume s essays that is the nature and status of literary culture and the literary from the Victorian period to the present The diverse and wide ranging essays present original scholarship framed accessibly for a mixed readership of advanced undergraduates graduate students and established scholars **Chartist Fiction** Ian Haywood, 2018-01-29 First published in 2001 When the Chartist leader Ernest Jones emerged from prison in 1850 he was determined to capture the public s attention with a controversial and topical novel The result of his endeavours was the remarkable *Woman s Wrongs* a series of five tales exploring women s oppression at every level of society from the working class to the aristocracy Each story presents a graphic often harrowing account of the social economic and emotional victimization of women and taken together the tales comprise a devastating indictment of Victorian patriarchal attitudes and sexual inequalities In his substantial Introduction Ian Haywood places the novel in the context of Jones s career as a Chartist author and editor and in the wider context of the woman question Some of the topics covered by the Introduction include the radical press and popular enlightenment Jones s rivalry with George W M Reynolds and the needlewoman as radical icon This title will be of interest to students of history *Romanticism and*

Popular Culture in Britain and Ireland Philip Connell, Nigel Leask, 2009-04-09 An edited collection examining the construction of popular culture in the late eighteenth and early nineteenth centuries

Robert Bloomfield, Romanticism and the Poetry of Community Simon J. White, 2016-12-05 Robert Bloomfield whom John Clare described as the most original poet of the age was a widely read and critically acclaimed poet throughout the first decade of the nineteenth century and remained popular until the beginning of the twentieth century Yet until now no modern critic has undertaken a full length study of his poetry and its contexts Simon J White considers the relationship between Bloomfield's poetry and that of other Romantic poets For example he argues that Wordsworth's poetics of rural life was in some respects a response to Bloomfield's *The Farmer's Boy* White considers Bloomfield's emphasis on the importance of local tradition and community in the lives of labouring people In challenging the idea that the formal and rhetorical innovation of Wordsworth and Coleridge was principally responsible for the emergence of a new kind of poetry at the turn of the eighteenth century he also shows that it is impossible to understand how the lyric and the literary ballad evolved during the Romantic period without considering Bloomfield's poetry White's authoritative study demonstrates that on the contrary Bloomfield's poetry was pivotal in the development of Romanticism

Sonnet Sequences and Social Distinction in Renaissance England Christopher Warley, 2005-07-28 Since the 1970s there has been a broad and vital reinterpretation of the nature of literary texts a move away from formalism to a sense of literature as an aspect of social economic political and cultural history While the earliest New Historicist work was criticized for a narrow and anecdotal view of history it also served as an important stimulus for post structuralist feminist Marxist and psychoanalytical work which in turn has increasingly informed and redirected it Recent writing on the nature of representation the historical construction of gender and of the concept of identity itself on theatre as a political and economic phenomenon and on the ideologies of art generally reveals the breadth of the field Cambridge Studies in Renaissance Literature and Culture is designed to offer historically oriented studies of Renaissance literature and theatre which make use of the insights afforded by theoretical perspectives The view of history envisioned is above all a view of our history a reading of the Renaissance for and from our own time Book jacket

James Hogg and the Literary Marketplace Sharon-Ruth Alker,Holly Faith Nelson,2009 Responding to the resurgence of interest in the Scottish working class writer James Hogg Alker and Nelson offer the first edited collection devoted to a critical examination of his writings The essays explore the varied and experimental works of Hogg to establish that they deserve a central place in Romantic studies and to demonstrate that they anticipate and address many recent concerns voiced in contemporary discussions of literature Idleness and Aesthetic Consciousness, 1815-1900 Richard Adelman,2018-08-02 Charting the failure of the Romantic critique of political economy Richard Adelman explores the changing significances and the developing concepts of idleness and aesthetic consciousness during the nineteenth century Through careful analysis of some of the period s most influential thinkers including John Stuart Mill George Eliot John Ruskin and Karl Marx Adelman weaves together evolving ideas across a range of intellectual discourses political economy meditative poetry the ideology of the gospel of work cultural theory the Gothic and psychoanalysis In doing so he reconstructs debates over passivity and repose and demonstrates their centrality to the cultural politics of the age Arguing that hardened conceptions of aesthetic consciousness come into being at moments of civic unrest concerning political representation and that the fin de si cle witnesses the demonization of the once revolutionary category of aesthetic consciousness the book demonstrates that late eighteenth century positivity around human spirituality is comprehensively dismantled by the beginning of the twentieth century Labouring Muses William J. formation and resource distribution. In this innovative book demonstrating the important role of eighteenth century literary treatments of policing and vagrancy Nicolazzo offers a prehistory of police legitimacy in a period that predates the establishment of the modern police force. She argues that narrative textual and rhetorical practices shaped not only police and legal activity of the period but also public conceptions of police power. Her extensive research delves into law and literature on both sides of the Atlantic tracking the centrality of vagrancy in establishing police power as a form of sovereignty crucial to settler colonialism, slavery and racial capitalism. The first book in several generations to address policing and vagrancy in the eighteenth century and the first in the field to center race and empire in its account of literary vagrancy, Nicolazzo's work is a significant contribution to the field of eighteenth century literary and cultural studies.

Intellectual Politics and Cultural Conflict in the Romantic Period Alex Benchimol, 2010. Building on recent studies of the Romantic public sphere, Alex Benchimol provides a new reading of the period's intellectual politics based on a historically informed examination of its spaces of cultural production and modes of intellectual practice. Benchimol traces the development of social criticism produced for the liberal bourgeois and radical plebeian publics in key periodicals while highlighting their cultural origins in the Scottish Enlightenment and the English radical movements of the long eighteenth century.
