Lyrische Dramen:

Hugo Von Hofmannsthal and His Time Hermann Broch, 1984-08-15 Hermann Broch 1886 1951 is remembered among English speaking readers for his novels *The Sleepwalkers* and *The Death of Virgil* and among German speaking readers for his novels as well as his works on moral and political philosophy his aesthetic theory and his varied criticism This study reveals Broch as a major historian as well one who believes that true historical understanding requires the faculties of both poet and philosopher Through an analysis of the changing thought and career of the Austrian poet librettist and essayist Hugo von Hofmannsthal 1874 1929 Broch attempts to define and analyze the major intellectual issues of the European fin de siècle a period that he characterizes according to the Nietzschean concepts of the breakdown of rationality and the loss of a central value system The result is a major examination of European thought as well as a comparative study of political systems and artistic styles

The Twentieth Century 1890-1945 Raymond Furness, 2020-01-31 Originally published in 1978 this study presents a detailed analysis of the major literary movements in Austria and Germany from the end of the nineteenth century to the collapse of the Third Reich It examines the plethora of literary genres which marked the transition from the nineteenth to the twentieth century the short lived Naturalist movement rapidly giving way to various forms of symbolism and neo romanticism The situation in Vienna is studied in detail the concept of modernism vis vis expressionism with special regard to Rilke and Kafka The literature of the Weimar period is also analysed with emphasis on the symphonic novels of the time and the anti illusionist devices of Brecht It also draws a comparison between the literary situation in Nazi Germany and the literature of exile and the positions of Thomas and Heinrich Mann Brecht and Gottfried Benn are examined

The German Tradition in Literature 1871-1945 Ronald D. Gray, 1965 This book attempts to generalize and to link German literature since 1871 with the forces which move the society which produces it

The Garden and the Workshop Péter Hanák, 2014-07-14 A century ago Vienna and Budapest were the capital cities of the western and eastern halves of the increasingly unstable Austro Hungarian empire and scenes of intense cultural activity Vienna was home to such figures as Sigmund Freud Gustav Klimt and Hugo von Hofmannsthal Budapest produced such luminaries as Béla Bartók Georg Lukács and Michael and Karl Polanyi However as Péter Hanák shows in these vignettes of Fin de Siècle life the intellectual and artistic vibrancy common to the two cities emerged from deeply different civic cultures Hanák surveys the urban development of the two cities and reviews the effects of modernization on various aspects of their cultures He examines the process of physical change as rapid population growth industrialization and the rising middle class ushered in a new age of tenements suburbs and town planning He investigates how death and its rituals once the domain of church family and local community were transformed by the commercialization of burials and the growing bureaucratic control of graveyards He explores the mentality of common soldiers and their families mostly of peasant origin during World War I detecting in letters to and from the front a shift toward a revolutionary mood among Hungarians in particular He presents snapshots of such subjects as the

mentality of the nobility operettas and musical life and attitudes toward Germans and Jews and also reveals the striking relationship between social marginality and cultural creativity In comparing the two cities Han k notes that Vienna famed for its spacious parks and gardens was often characterized as a garden of esoteric culture Budapest however was a dense city surrounded by factories whose cultural leaders referred to the offices and caf s where they met as workshops These differences were reflected he argues in the contrast between Vienna s aesthetic and individualistic culture and Budapest s more moralistic and socially engaged approach Like Carl Schorske s famous *Fin de Si cle Vienna* Han k s book paints a remarkable portrait of turn of the century life in Central Europe Its particular focus on mass culture and everyday life offers important new insights into cultural currents that shaped the course of the twentieth century Originally published in 1998 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Melancholia's Dog** Alice A. The final part of the trilogy the Theo Logic will treat Christian revelation from the standpoint of the true In this first volume von Balthasar shows how many of the trends of modern theology e g event history orthopraxy dialogue political theology point to an understanding of human and cosmic reality as a divine drama He will then consider objections to such a theological dramatic theory and also the relationship between the Church and the theatre This volume assembles the materials and the themes that will make it possible in subsequent volumes to develop this theological dramatic theory meeting Balthasar was for me the beginning of a lifelong friendship I can only be thankful for Never again have I found anyone with such a comprehensive theological and humanistic education as Balthasar and de Lubac and I cannot even begin to say how much I owe to my encounter with them Joseph Ratzinger Pope Benedict XVI

Dilettantism and Its Values Richard Hibbitt,2017-12-02 The concept of dilettantism has not always been associated with amateurism or superficiality It played a significant role in French and German critical writing from the late eighteenth century until the fin de siecle embracing notions such as apprenticeship fruitful error parody aestheticism and scepticism Attempts to define dilettantism in a binary relationship with art have often been defeated by a fundamental ambivalence towards its values The major texts on the subject are Goethe and Schiller s unfinished dilettantism project 1799 and Paul Bourget s essay on Ernest Renan 1882 although the term was also used by writers including Wieland Baudelaire Laforgue Nietzsche Hofmannsthal and Thomas Mann In this wide ranging study Richard Hibbitt provides the first book length comparative analysis of the concept of dilettantism tracing its chronological development and proposing a synthesis of its diverse aspects and values
