Living with Honor Salvatore Giunta, Joe Layden, 2012-12-04 There was the sound of a single bullet and then a deafening barrage of gunfire and explosions There were literally thousands of bullets in the air at once and more tracers streaking across the sky than there were stars overhead It was a miracle that most of us weren't killed instantly Staff Sergeant Salvatore Sal Giunta was the first living person to receive the Medal of Honor the highest honor presented by the US military since the conclusion of the Vietnam War In Living with Honor this hero who maintains he is just a soldier tells us the story of the fateful day in Afghanistan that led to his receiving the unique honor With candor insight and humility Giunta not only recounts the harrowing events leading up to when he and his company fell under siege but also illustrates the empowering invaluable lessons he learned As a seventeen year old teen working at Subway Giunta was like any other kid trying to figure out which step to take next with his life after graduating from high school When Giunta walked into the local Army recruiting center in his hometown he just wanted a free T shirt But when he walked out his curiosity had been piqued and he enlisted in the Army Deployed to Afghanistan Giunta soon learned from the more seasoned soldiers how different this war was compared to others that America had fought Stationed with the 173rd Airborne Brigade near the Afghanistan Pakistan border in the Korengal Valley also known as the Valley of Death Giunta and his company were ambushed by Taliban insurgents Giunta went into action after seeing that his squad leader had fallen Exposing himself to blistering enemy fire

Giunta charged toward his squad leader and administered first aid while he covered him with his own body. Though Giunta was struck by the relentless barrage of bullets, he engaged the enemy and then attempted to reach additional wounded soldiers. When he realized that yet another soldier was separated from his unit, he advanced forward. Discovering two rebels carrying away a U.S. soldier, Giunta killed one insurgent and wounded the other and immediately provided aid to the injured soldier. More than just a remarkable memoir by a remarkable person, *Living with Honor* is a powerful testament to the human spirit and all that one can achieve when faced with seemingly impossible obstacles. The President clasps the medal around my neck. Applause fills the room. But I know it's not for me alone. I look at my mom and dad. I look at Brennan's parents and I look at Mendoza's. And I try to communicate to Brennan and Mendoza wordlessly: This is for you and for everyone who has fought and died. For everyone who has made the ultimate sacrifice, I am not a hero. I'm just a soldier.

Salvatore A. Giunta from *Living with Honor: Always Faithful, Always Forward* Dick Couch, 2015-06-02. Established in 1986, the U.S. Special Operations Command was set up to bring the special operational disciplines of all branches of the military under a single unified command to act on missions involving unconventional warfare, special reconnaissance, foreign internal defense, and direct action. The Marine Special Operations Command (MARSOC) is the newest component of the military's shift toward a fully integrated Special Operations Command structure. At first, the Marines were strongly against any Marines serving under anyone other than another Marine. Then 9/11 happened. In the years following, Marine forces found themselves growing more agreeable to inter-branch operational command, finally forming the Marine Special Operations Command in 2006. *Always Faithful, Always Forward* follows the journey of a class of Marine candidates from their recruitment through assessment and selection to their qualification as Marines Special Operators. Retired Navy Captain Dick Couch has been given unprecedented access to this new command and to the individual Marines of this exceptional special operations unit, allowing him to chronicle the history and development of the Marine Special Operations Command and how they find, recruit, and train their special operators.

Weapons of the Modern Marines Michael Green, 2004. *Victory Point* Ed Darack, 2009. Examines the story of Operation Red Wings and Operation Whalers involving the Marines in Afghanistan. In June 2005, the deaths of nineteen U.S. military soldiers, the demise of Ahmad Shah, and the impact this incident had on the War on Terror.

Army of None: Autonomous Weapons and the Future of War Paul Scharre, 2018-04-24. Winner of the 2019 William E. Colby Award. The book I had been waiting for. I can't recommend it highly enough. Bill Gates: The era of autonomous weapons has arrived. Today around the globe, at least thirty nations have weapons that can search for and destroy enemy targets all on their own. Paul Scharre, a leading expert in next-generation warfare, describes these and other high-tech weapons systems from Israel's Harpy drone to the American submarine hunting robot ship Sea Hunter and examines the legal and ethical issues surrounding their use. A smart primer to what's to come in warfare. Bruce Schneier: *Army of None* engages military history, global policy, and cutting-edge science to explore the implications of giving weapons the freedom to make life and death

decisions A former soldier himself Scharre argues that we must embrace technology where it can make war more precise and humane but when the choice is life or death there is no replacement for the human heart *Urban Warfare* Richard Skiba,2024-12-02 This book takes a comprehensive and analytical approach to the multifaceted subject of urban warfare aiming to inform rather than glorify the complex realities of combat in urban environments It offers a critical examination of the what why how and where of urban warfare making it an essential resource for military professionals policymakers academics and humanitarian workers alike By delving into the historical strategic and sociopolitical dimensions of urban combat the book equips readers with a nuanced understanding of its challenges impacts and implications Urban warfare is a defining feature of modern conflict shaped by the unique dynamics of densely populated cities The book begins by exploring its historical context and the distinct characteristics that differentiate it from other forms of combat including its tactical and ethical complexities Through in depth analysis it examines the motivations that drive conflicts into urban areas the methods used to navigate these environments and the lessons learned from past and ongoing battles The narrative extends to explore cutting edge technologies and evolving tactics that are transforming the landscape of urban warfare Topics include the integration of drones AI and virtual reality in training and operations the use of counter insurgency strategies and the application of psychological and humanitarian principles to minimize harm and foster post conflict recovery Real world case studies provide insights into the successes failures and innovations that have shaped urban combat offering valuable lessons for future conflicts For military personnel the book provides actionable strategies for offensive and defensive operations logistics and small unit tactics tailored to urban terrains Policymakers will find guidance on creating frameworks to address the ethical legal and strategic dimensions of urban warfare Humanitarian workers and NGOs will benefit from insights into civilian protection and post conflict reconstruction while academics and analysts will appreciate the detailed exploration of the broader implications of urban conflict on global security and human rights By bridging the gap between historical analysis modern innovations and future implications this book serves as a vital resource for understanding the challenges and complexities of urban warfare It emphasizes the importance of minimizing harm protecting civilian populations and fostering stability in conflict prone areas ensuring that the lessons of the past inform a more humane and effective approach to modern warfare Whether preparing for operational readiness shaping policy or contributing to humanitarian efforts readers will find this book an invaluable tool for navigating the evolving realities of urban combat *On Two Fronts* Lance Taubold,Adam Fenner,2013 Silver Medal Winner of the Independent Book Publishers Association s Bill Fisher Award for Best First Book Nonfiction *On Two Fronts* fearlessly brings the reader deep into the thoughts emotions and experiences that are captured often just hours after occurring Two friends share their conversations e mails and experiences with one another and the reader capturing the true essence fears and camaraderie of a combat deployment in its entirety *On Two Fronts* Sgt Adam Fenner and Lance Taubold are thrown into the emotional reality of coping with the upcoming deployment Lance was living
