***Mindful and Intentional Money Management*** Linda Simpson, PhD, 2024-03-26. Money impacts every facet of life. And constant money related concerns have a negative impact on a person's overall health and well being. While money does not buy happiness, financial security can reduce stress and make life much easier to navigate. *Mindful and Intentional Money Management* takes people to the root of their money management behavior that has been formed by their money scripts, long held beliefs and perspectives on money that one has learned throughout life, personality, habits, attitude and values. Dr. Simpson presents three action plans to build a solid financial foundation that include helping readers know where they're going, setting goals, know where they are, creating a financial snapshot and learn, play, execute, bridging the gap between their goals and financial snapshot. Part 1 introduces the SMARTER goal system to guide readers to set mindful and intentional financial goals. In Part 2, readers compare their income and expenses, assets and debt, and debt to income ratio to determine their current net worth. This provides their financial snapshot. Part 3 instructs readers on how to plan and execute strategies to make behavior changes that lead to lasting change and progress that support a secure financial future. Readers will identify and eliminate poor money management behaviors and replace them with new habits that are sustainable and aligned with their value system and goals. The power of habits and creating muscle memory will automate money management decisions and make the change in behavior much easier. The strategies offered here can be life changing when applied.

***The War Within - Between Good and Evil*** Bhimeswara Challa. The human has always prided himself as an exceptional moral species but has always been haunted by two questions: Why am I not good when I want to be? Why do I do bad when I don't want to? This is at the heart of what scriptures and sages have long alluded to as the eternal internal struggle between good and evil that wages in the human consciousness. The book posits that much of our confusion and angst stems from our inability to recognize the ramifications of this war between two sides of our own self. It is because we are ignoring this war between two sides of our own self. It is because we are ignoring this war that we are losing all other wars of the world. That ignorance is the primary source of all the horrors, malevolence and violence that fill us with so much dread. But a favorable outcome is possible only if the forces of goodness are aided to get an upper hand consistently and that calls for two cathartic changes: consciousness change by inducing a turn from the mind to the heart and contextual change by radically reconstructing the roles of morality, money and mortality in our everyday lives. The book offers a menu of insights and options we all can use to tilt the scales in
