The Ashgate Research Companion to Modern Imperial Histories John Marriott, 2016-03-23 Written by leading scholars this collection provides a comprehensive and authoritative overview of modern empires Spanning the era of modern imperial history from the early sixteenth century to the present it challenges both the rather insular focuses on specific experiences and gives due attention to imperial formations outside the West including the Russian Japanese Mughal Ottoman and Chinese The companion is divided into three broad sections Part I Times surveys the three main eras of modern imperialism The first was that dominated by the settlement impulse with migrants many voluntarily and many more by force making new lives in the colonies This impulse gave way most especially in the nineteenth century to a period of busy and rapid expansion which was less likely to promote new settlement and in which colonists more frequently saw their sojourn in colonial lands as temporary and related to the business mostly of governance and trade Lastly in the twentieth century in particular empires began to fail and to fall Part II Spaces studies the principal imperial formations of the modern world Each chapter charts the experience of a specific empire while at the same time placing it within the complex patterns of wider imperial constellations The individual chapters thus survey the broad dynamics of change within the empires themselves and their relationships with other imperial formations and reflect critically on the ways in which these topics have been approached in the literature In Part III Themes scholars think critically about some of the key features of imperial expansion and decline These chapters are brief and many are provocative They reflect the current state of the field and suggest new lines of inquiry which may follow from more comparative perspectives on empire The broad range of themes captures the vitality and diversity of contemporary scholarship on questions of empire and colonialism encompassing political economic and cultural processes central to the formation and maintenance of empires as well as institutions ideologies and social categories that shaped the lives both of those implementing and those experiencing the force of empire In these pages the reader will find the slave and the criminal the merchant and the maid the scientist and the artist alongside the structures which sustained their lives and their livelihoods Overall the companion emphasises the diversity of imperial experience and process Comprehensive in its scope it draws attention to the particularities of individual empires rather than over generalising as if all empires at all times and in all places behaved in a similar manner It is this contingent and historical specificity that enables us to explore in expansive ways precisely what constituted the modern empire

Empires and Gods Jörg Rüpke, Michal Biran, Yuri Pines, 2024-02-19 Interaction with religions was one of the most demanding tasks for imperial leaders Religions could be the glue that held an empire together bolstering the legitimacy of individual rulers and of the imperial enterprise as a whole Yet they could also challenge this

legitimacy and jeopardize an empire's cohesiveness. As empires by definition ruled heterogeneous populations they had to interact with a variety of religious cults, creeds and establishments. These interactions moved from accommodation and toleration to cooptation, control or suppression, from aligning with a single religion to celebrating religious diversity or even inventing a new transcendent civic religion and from lavish patronage to indifference. The volume's contributors investigate these dynamics in major Eurasian empires from those that functioned in a relatively tolerant religious landscape (Ashokan India, early China, Hellenistic and Roman empires) to those that allied with a single proselytizing or non proselytizing creed (Sassanian Iran, Christian and Islamic empires) to those that tried to accommodate different creeds through pay for pray policies (Tang China, the Mongols), exploring the advantages and disadvantages of each of these choices.

White Mughals William Dalrymple, 2004-04-27 White Mughals is the romantic and ultimately tragic tale of a passionate love affair that crossed and transcended all the cultural, religious and political boundaries of its time. James Achilles Kirkpatrick was the British Resident at the court of the Nizam of Hyderabad when in 1798 he glimpsed Kahir un Nissa. Most excellent among Women, the great niece of the Nizam's Prime Minister and a descendant of the Prophet. Kirkpatrick had gone out to India as an ambitious soldier in the army of the East India Company, eager to make his name in the conquest and subjection of the subcontinent. Instead he fell in love with Khair and overcame many obstacles to marry her, not least of which was the fact that she was locked away in purdah and engaged to a local nobleman. Eventually, while remaining Resident, Kirkpatrick converted to Islam and, according to Indian sources, even became a double agent working for the Hyderabadis against the East India Company. It is a remarkable story involving secret assignations, court intrigue, harem politics, religious and family disputes. But such things were not unknown from the early sixteenth century when the Inquisition banned the Portuguese in Goa from wearing the dhoti to the eve of the Indian mutiny. The white Mughals, who wore local dress and adopted Indian ways, were a source of embarrassments to successive colonial administrations. William Dalrymple unearths such colourful figures as Hindoo Stuart, who travelled with his own team of Brahmins to maintain his temple of idols, and who spent many years trying to persuade the memsahibs of Calcutta to adopt the sari, and Sir David Ochterlony, Kirkpatrick's counterpart in Delhi, who took all thirteen of his wives out for evening promenades, each on the back of their own elephant. In White Mughals, William Dalrymple discovers a world almost entirely unexplored by history and places at its centre a compelling tale of love, seduction and betrayal. It possesses all the sweep and resonance of a great nineteenth century novel set against a background of shifting alliances and the manoeuvring of the great powers, the mercantile ambitions of the British and the imperial dreams of Napoleon. White Mughals, the product of five years writing and
