Mabive Retaliation:

The Nuclear Seduction William A. Schwartz, Charles Derber, 2023-04-28 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1990 The Soviet View of U.S. Strategic Doctrine Jonathan Samuel Lockwood, 1983-01-01 Soviet perceptions of American strategic doctrine have influenced then use of military power in foreign policy An understanding of how those perceptions are being derived at and of their specific contents is therefore essential to any reflection on direction that American defense policy should take Particularly in the field of arms control and disarmament Soviet perceptions carry severe implications for U S proposals as well as general behavior Lockwood bases his examination on Soviet sources such as newspapers periodicals radio broadcasts and books He establishes that Soviet analysts tend to project their own notions of clear strategy onto U S doctrine and intentions Starting from the premise that the Soviets mean what they say Lockwood is able to give a historical account of Soviet perceptions starting from massive retaliation up to and including Presidential Directive 59 In his final chapter the author gives possible policy strategies to successfully counteract the Soviet military policy **Massive Retaliation** Paul Peeters, 1959 Foundation For Foreign Affairs Series No 2 *Pakistan's Tactical Nuclear Weapon: Conflict Redux* Brigadier Gurmeet Kanwal, Dr Monika Chansoria, 2013-10-15 Tactical Nuclear Weapons TNWs often referred to as battlefield sub strategic or non strategic nuclear weapons usually have a plutonium core and are typically distinct from strategic nuclear weapons Therefore they warrant a separate consideration in the realm of nuclear security The yield of such weapons is generally lower than that of strategic nuclear weapons and may range from the relatively low 0.1 kiloton to a few kilotons Pakistan's quest to acquire tactical nuclear weapons has added a dangerous dimension to the already precarious strategic equation in South Asia The security discourse in the subcontinent revolves around the perennial apprehension of a conventional or sub conventional conflict triggering a chain reaction eventually paving the way for a potential nuclear crisis haunting peace and stability in the region Pakistan believes that the successful testing of the 60 km nuclear capable short range missile Hatf 9 Nasr adds deterrence value to Pakistan's strategic weapons development programme at shorter ranges In paradox the fact remains that this step has further lowered Pakistan's nuclear threshold through the likely use of TNWs The introduction of TNWs into the tactical battle area further exacerbates credibility of their control Pakistan has not formally declared a nuclear doctrine but it is well known that nuclear weapons are its first line of defence The use of TNWs in the India Pakistan case will alter the strategic scenario completely as Pakistan would threaten India with the use of TNWs in the event of New Delhi responding against Islamabad with a conventional strike in reaction to a 26/11 style terrorist attack Pakistan forgets that given its offensive strategic posture and continuing involvement in terror strikes in India it is New Delhi

which is confronted with the problem of developing a strategy to counter Pakistan's first strike and proxy war in the light of its declared no first use policy This edited volume attempts to address and decipher complex issues including aspects such as China's WMD collaboration with Pakistan nuclear command and control dynamics within Pakistan overall rationale and implications of TNWs safety and security of nuclear weapons scenarios for nuclear usage India's potential response options and more specifically the technical aspects of the Nasr delivery system

Grand Expectations James T.

Patterson, 1996-04-18 Beginning in 1945 America rocketed through a quarter century of extraordinary economic growth experiencing an amazing boom that soared to unimaginable heights in the 1960s At one point in the late 1940s American workers produced 57 percent of the planet's steel 62 percent of the oil 80 percent of the automobiles The U S then had three fourths of the world's gold supplies English Prime Minister Edward Heath later said that the United States in the post War era enjoyed the greatest prosperity the world has ever known It was a boom that produced a national euphoria a buoyant time of grand expectations and an unprecedented faith in our government in our leaders and in the American dream an optimistic spirit which would be shaken by events in the 60s and 70s and particularly by the Vietnam War Now in *Grand Expectations* James T Patterson has written a highly readable and balanced work that weaves the major political cultural and economic events of the period into a superb portrait of America from 1945 through Watergate Here is an era teeming with memorable events from the bloody campaigns in Korea and the bitterness surrounding McCarthyism to the assassinations of the Kennedys and Martin Luther King to the Vietnam War Watergate and Nixon's resignation Patterson excels at portraying the amazing growth after World War II the great building boom epitomized by Levittown the largest such development in history and the baby boom which exploded literally nine months after V J Day as well as the resultant buoyancy of spirit reflected in everything from streamlined toasters to big flashy cars to the soaring butterfly roof of TWA's airline terminal in New York And he shows how this upbeat can do mood spurred grander and grander expectations as the era progressed Of course not all Americans shared in this economic growth and an important thread running through the book is an informed and gripping depiction of the civil rights movement from the electrifying *Brown v Board of Education* decision to the violent confrontations in Little Rock Birmingham and Selma to the landmark civil rights acts of 1964 and 1965 Patterson also shows how the Vietnam War which provoked LBJ's growing credibility gap vast defense spending that dangerously unsettled the economy and increasingly angry protests and a growing rights revolution including demands by women Hispanics the poor Native Americans and gays triggered a backlash that widened hidden rifts in our society rifts that divided along racial class and generational lines And by Nixon's resignation we find a national mood in stark contrast to the grand expectations of ten years earlier one in which faith in our leaders and in the attainability of the American dream was greatly shaken The *Oxford History of the United States* The *Oxford History of the United States* is the most respected multi volume history of our nation The series includes three Pulitzer Prize winners a New York Times bestseller and winners of the Bancroft and Parkman

Prizes The Atlantic Monthly has praised it as the most distinguished series in American historical scholarship a series that synthesizes a generation s worth of historical inquiry and knowledge into one literally state of the art book Conceived under the general editorship of C Vann Woodward and Richard Hofstadter and now under the editorship of David M Kennedy this renowned series blends social political economic cultural diplomatic and military history into coherent and vividly written narrative

The Russian View of U.S. Strategy Jonathan Samuel Lockwood,2017-09-04 Soviet perceptions of U S strategy remained remarkably consistent from the post Stalin period through the collapse of communism in Eastern Europe and the Soviet Union itself The consistency of the Soviet tendency to engage in the mirror image fallacy in their analyses of U S doctrine and strategic intentions has profound implications for the future relationship of the U S and the now independent republics This authoritative volume analyzes the Soviet Russian perspectives of U S strategic evolution from the declaration of the massive retaliation doctrine of 1954 through the Soviet collapse of 1991 The Soviets considered the growth of their strategic nuclear arsenal as the main factor giving them political leverage over U S foreign policy and predicted that a defense policy based on strategic defense would be the most effective deterrent from a Soviet perspective Now the Russian military and political leadership places a high value on strategic nuclear forces in terms of political leverage and prestige Building upon a wide variety of international sources the Lockwoods offer a penetrating assessment of how the present Russian perspective will affect political relationships not only with the U S and the West but also among the independent republics This factor will become ever more critical as they vie for decentralized versus unified control of what was the Soviet nuclear arsenal under the shadow of the collapsing economies The authors also introduce a new theory concerning the future impact of ballistic missile defense on operational warfare in light of the U S experience in Operation Desert Storm The Russian View of U S Strategy provides a comprehensive historical context and an up to date appraisal of an uncertain and potentially volatile development in U S Russian relations It will be of interest to historians policymakers and military analysts

Military Realism Peter Campbell,2019-05-08 After the Vietnam War the U S Army considered counterinsurgency COIN a mistake to be avoided Many found it surprising then when setbacks in recent conflicts led the same army to adopt a COIN doctrine Scholarly debates have primarily employed existing theories of military bureaucracy or culture to explain the army s re embrace of COIN but Peter Campbell advances a unique argument centering on military realism to explain the complex evolution of army doctrinal thinking from 1960 to 2008 In five case studies of U S Army doctrine Campbell pits military realism against bureaucratic and cultural perspectives in three key areas nuclear versus conventional warfare preferences for offense versus defense and COIN missions and finds that the army has been more doctrinally flexible than those perspectives would predict He demonstrates that decision makers while vowing in the wake of Vietnam to avoid COIN missions nonetheless found themselves adapting to the geopolitical realities of fighting low intensity conflicts In essence he demonstrates that pragmatism has won out over dogmatism At a time when American policymakers remain similarly

conflicted about future defense strategies Campbell's work will undoubtedly shape and guide the debate The State, Society, and Limited Nuclear War Eric Mlyn, 1995-02-01 Drawing on theories of the state archives and interviews with top defense policymakers this book tells an important story of interest to any reader concerned with how security policy is fashioned in the United States Eisenhower and the Missile Gap Peter Roman, 2019-05-15 Uncertainty about Soviet intentions and capabilities after the launch of Sputnik required changes in U S strategic nuclear policy Peter J Roman draws from recently declassified archives to examine one of the most unstable periods in the Cold War Roman argues that presidential leadership from 1957 to 1960 was crucial to national security Dwight D Eisenhower was he argues actively involved in all nuclear policy making His responses to the extreme uncertainty of the late 1950s shaped American nuclear policy for decades and in its internal deliberations his administration anticipated much of the subsequent public debate Eisenhower and the Missile Gap investigates a variety of issues actors and institutions to explain how a government deals with high levels of technological uncertainty Several significant themes emerge the evolution of American perceptions of vulnerability problems in intelligence collection and analysis the integration of new weapons systems into strategy the influence of the armed forces the impact of organizational interests on policy and force decisions Eisenhower's internal and external leadership style and presidential management of defense and foreign policy *The Evolution of the US Air Force* Israel Guy, 2024-08-05 This book looks at the history of the US Air Force through the lens of its lack of preparedness for major wars which is shown to be a result of its organizational culture The U S Air Force is probably the most powerful military force in history both in its destructive firepower and in its ability to project it globally Yet despite its unparalleled power the Air Force entered its first three pivotal conflicts World War II the Korean War and the Vietnam War unprepared But surprisingly it was remarkably well prepared for its fourth major war the Gulf War of 1991 Could there be an underlying trait or characteristic which influenced the Air Force between the wars that historically caused the US Air Force to be unprepared for war or prepared for the wrong type of war Surprisingly there is such a factor which was quite prominent in the Air Force's complex identity its organizational culture Besides providing a historical description of the Air Force this book demonstrates clearly how its organizational culture evolved and how it caused the US Air Force to be prepared for the wrong war It also shows that when the organizational culture changed the Air Force changed its focus and arrived prepared for the following war the 1991 Gulf War This book will be of interest to students of air power strategic studies US public policy and security studies in general **Documents on Disarmament** ,1979 **Military Technology, Military Strategy and the Arms Race** Marek Thee, 2025-03-03 First published in 1986 Military Technology Military Strategy and the Arms Race argues that a principal factor contributing to the arms race is the military research and development R and D sector It traces the arms race since World War II and explores the relationship between the emergence of new weapon technology the development of new weapon systems and their impact on strategic thinking It considers the positions for both the United

States and its allies in NATO and for the erstwhile Soviet Union It argues that military R and D which consumes an increasing proportion of total funds spent on R and D has developed a self sustaining technological momentum which is backed by a powerful military industrial bureaucratic technological complex and is increasingly out of control of political leaders The book argues that negotiations to limit the numbers of weapons fail to address the main problem and that more emphasis should be given to considering ways of limiting and controlling military R and D It concludes by proposing a radical shift in policy to achieve this This historical reference work is important for scholars and researchers of military studies defence studies international relations diplomacy and international politics **Documents on Disarmament** United States.

Arms Control and Disarmament Agency,1979 **American Foreign Policy** Glenn P. Hastedt,2020-02-17 Hastedt introduces students to America s changing role in the world and provides them with the critical thinking skills needed to participate in the debate about the conduct and content of American foreign policy **Nuclear Deterrence** Roy E.

Jones,2025-04-01 Nuclear Deterrence 1968 examines the issue of nuclear armed powers deterring attacks upon themselves with the threats of devastating retaliatory responses It looks at the number of assumptions and conditions associated with the policy and the difficulties of national governments in maintaining these positions as part of their political platforms
