**"One Country, Two Systems" in Taiwan** Xin Ji, 2006

One Country Two Systems is an idea originally proposed by Deng Xiaoping for the reunification of the Chinese mainland and Taiwan After the return of Hong Kong and Macao to Chinese sovereignty in 1997 and 1999 respectively these two regions have carried out the one country two systems policy successfully The policy simply stated is that despite the practice of socialism in Chinese mainland Hong Kong and Macao can continue to practice capitalism under a high degree of autonomy for fifty years after reunification Hsing Chi knew that as long as the political and economic trend continues pointing toward a decline in Taiwan while there is sustained growth in Chinese mainland the need for reunification of the two sides will increase Time is thus not at all on Taiwan's side Since no better alternative has yet been proposed one country two systems is the only peaceful method that can succeed in giving Taiwan a high degree of autonomy while allowing the Taiwanese people to govern the Taiwanese people The Taiwan issue viewed superficially is a China U S Taiwan triangular relationship But in reality it is a China U S issue or more precisely just an American issue Sooner or later the U S has to decide how it wants to deal with this issue Only after the Taiwan issue is resolved the core hindrance of Sino U S relations can be eliminated
