Thal,Judith S. Reilly,2014-10-13 This special issue represents the initial products of the first five years of a multi center project entitled Origins of Communicative Disorders As the title implies the common goal of investigators involved in this

project was to describe the development of communicative skills from their earliest measurable points so that factors characterizing the earliest stages of communicative disorders can be teased apart from those which lead to development of typical language ability in later childhood The papers in this volume provide a comprehensive picture of early language development and its neural correlates across a range of typical and atypical populations By looking at language abilities from their point of origin from the very first signs of word comprehension to the emergence of grammar the authors construct a foundation for future research on the nature and etiology of communication disorders **Library of Congress Subject Headings** Library of Congress,2012 *Essentials of Assessing Infants, Toddlers, and Pre-Schoolers* Brittany A Dale,Joseph R. Engler,Vincent C. Alfonso,2025-04-15 A practitioner oriented guide to the most important assessments and evaluation techniques for children ages 0 5 Many assessment professionals leave their graduate education programs without any formal training in assessing infants and young children Although there are assessment textbooks covering subsets of this age range Essentials of Assessing Infants Toddlers and Pre Schoolers is uniquely designed for busy practitioners and it covers the full range of assessments for 0 5 years old With medical advances and new treatments there is a higher prevalence of children with complex medical and psychological needs Additionally changing educational policies often affect assessment practices Assessment professionals must have current information to effectively assess young children and assist in planning interventions As with all volumes in the Essentials of Psychological Assessment series this book consists of concise chapters featuring callout boxes highlighting key concepts easy to learn bullet points and extensive illustrative material as well as test questions that help you gauge and reinforce your grasp of the information covered Understand the issues unique to assessing children aged 0 5 years Get expert advice on assessing children with extremely early preterm birth genetic conditions and other unique situations Consider the future directions in the assessment of infants toddlers and preschoolers Quickly and easily locate pertinent information and access resources and tools to aid in performing professional duties This straightforward manual includes thorough coverage on how assessment results guide effective interventions Essentials of Assessing Infants Toddlers and Pre Schoolers is a valuable addition to the libraries of developmental practitioners school and clinical psychologists pediatricians speech language pathologists and others responsible for the assessment of very young children Assessing Multilingual Children Sharon Armon-Lotem,Jan de Jong,Natalia Meir,2015-04-28 Second language learners often produce language forms resembling those of children with Specific Language Impairment SLI At present professionals working in language assessment and education have only limited diagnostic instruments to distinguish language impaired migrant children from those who will eventually catch up with their monolingual peers This book presents a comprehensive set of tools for assessing the linguistic abilities of bilingual children It aims to disentangle effects of bilingualism from those of SLI making use of both models of bilingualism and models of language impairment The book s methods oriented focus will make it an essential handbook for practitioners who look for measures which could be adapted to

a variety of languages in diverse communities as well as academic researchers *Nurturing Language and Learning* Patricia Elizabeth Spencer,Lynne Sanford Koester,2016 Using a developmental approach this book combines a review of up to date data with theory and first hand observations to provide guidelines for development of deaf and hard of hearing children birth to age 3 and ways professionals and parents can best support their learning and language development
