Neofotistos, 2020-12-29 This book explores issues of national identity history and language in light of the 2018 Prespa Agreement Designed to resolve a protracted and bitter dispute the agreement signed by the Macedonian and Greek foreign ministers on the banks of the Prespa lake stipulated that the Republic of Macedonia change its name to the Republic of North Macedonia The chapters examine the social political and economic conditions and events that led to the agreement and the implications and consequences for identity politics in the region Consideration is given to the ways in which and the reasons why identity identities difference differences modes of belonging and experiences of injustice and discrimination have been mobilized By focusing on the Prespa Agreement the collection also offers valuable insight into the processes involved in re making boundaries re defining ethnic and national identities re inventing citizenship and re writing national histories Bringing together expert contributors with intimate knowledge of and long term engagement with the region this volume will be of interest to scholars and students of anthropology Slavic and East European studies history and international relations Chapter 7 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license **Balkan Heritages** Maria Couroucli, Tchavdar Marinov, 2017-05-15 This volume deals with the relation between heritage history and politics in the Balkans Contributions examine diverse ways in which material and immaterial heritage has been articulated negotiated and manipulated since the nineteenth century The major question addressed here is how modern Balkan nations have voiced claims about their past by establishing proof of a long historical presence on their territories in order to legitimise national political narratives Focusing on claims constructed in

relation to tangible evidence of past presence especially architecture and townscape the contributors reveal the rich relations between material and immaterial conceptions of heritage This comparative take on Balkan public uses of the past also reveals many common trends in social and political practices ideas and fixations embedded in public and collective memories Balkan Heritages revisits some general truths about the Balkans as a region and a category in scholarship and in politics Contributions to the volume adopt a transnational and trans disciplinary perspective of Balkan identities and heritage s viewed here as symbolic resources deployed by diverse local actors with special emphasis on scholars and political leaders

The Usable Past Keith S. Brown, Yannis Hamilakis, 2003-01-01 In this volume K S Brown and Yannis Hamilakis bring together scholars of history archaeology and anthropology to explore the located and contextual nature of historical narratives The contributors analyze contested historic rituals building styles and traditions looking through the unique lens of twentieth century Greek identity paying particular attention to the ways these social phenomena and cultural artifacts manifest tension between official and unofficial narratives of the past Though focused on the changing historical basis of Greek culture and identity this work further serves as an important theoretical contemplation of how our view of the past is shaped by our relationship with the present

The SAGE Handbook of Globalization Manfred Steger, Paul Battersby, Joseph Siracusa, 2014-05-22 Global studies is a fresh and dynamic discipline area that promises to reinvigorate undergraduate and postgraduate education in the social sciences and humanities In the Australian context the interdisciplinary pedagogy that defines global studies is gaining wider acceptance as a coherent and necessary approach to the study of global change Through the Global Studies Consortium GSC this new discipline is forming around an impressive body of international scholars who define their expertise in global terms The GSC paves the way for the expansion of global studies programs internationally and for the development of teaching and research collaboration on a global scale Mark Juergensmeyer and Helmut Anheier s forthcoming Encyclopaedia of Global Studies with SAGE is evidence of this growing international collaboration while the work of Professor Manfred Steger exemplifies the flourishing academic literature on globalization RMIT University s Global Cities Institute represents a substantial institutional investment in interdisciplinary research into the social and environmental implications of globalization in which it leads the way internationally Given these developments the time is right for a book series that draws together diverse scholarship in global studies This Handbook allows for extended treatment of critical issues that are of major interest to researchers and students in this emerging field The topics covered speak to an interdisciplinary approach to the study of global issues that reaches well beyond the confines of international relations and political science to encompass sociology anthropology history media and cultural studies economics and governance environmental sustainability international law and criminal justice Specially commissioned chapters explore diverse subjects from a global vantage point and all deliberately cohere around core global concerns of narrative praxis space and place This integrated approach sets the Handbook apart from its competitors and distinguishes

Global Studies as the most equipped academic discipline with which to address the scope and pace of global change in the 21st century

Handbook of Religion and Society David Yamane, 2016-07-15 The Handbook of Religion and Society is the most comprehensive and up to date treatment of a vital force in the world today It is an indispensable resource for scholars students policy makers and other professionals seeking to understand the role of religion in society This includes both the social forces that shape religion and the social consequences of religion This handbook captures the breadth and depth of contemporary work in the field and shows readers important future directions for scholarship Among the emerging topics covered in the handbook are biological functioning organizational innovation digital religion spirituality atheism and transnationalism The relationship of religion to other significant social institutions like work and entrepreneurship science and sport is also analyzed Specific attention is paid where appropriate to international issues as well as to race class sexuality and gender differences This handbook includes 27 chapters by a distinguished diverse and international collection of experts organized into 6 major sections religion and social institutions religious organization family life course and individual change difference and inequality political and legal processes and globalization and transnationalism

Ethnic Conflict Karl Cordell, Stefan Wolff, 2009 Investigating the causes and consequences of ethnic conflict the authors argue that the most effective responses are those that take into account factors at the local state regional and global level and that avoid seeking simplistic explanations and solutions to what is a truly complex phenomenon Ethnic conflicts are man made not natural disasters and as such they can be understood prevented and settled However it takes skilful committed and principled leaders to achieve durable settlements that are supported by their followers and it takes the long term commitment of the international community to enable and sustain such settlements Book Jacket

A History of Modern Political Thought in East Central Europe Balázs Trencsényi, Michal Kopeček, Luka Lisjak Gabrijelčić, Maria Falina, Mónika Baár, Maciej Janowski, 2018-11-10 A History of Modern Political Thought in East Central Europe is a synthetic work authored by an international team of researchers covering twenty national cultures and 250 years It goes beyond the conventional nation centered narratives and presents a novel vision especially sensitive to the cross cultural entanglement of political ideas and discourses Its principal aim is to make these cultures available for the global market of ideas and revisit some of the basic assumptions about the history of modern political thought and modernity as such The present volume is a sequel to Volume I Negotiating Modernity in the Long Nineteenth Century It begins with the end of the Great War depicting the colorful intellectual landscape of the interwar period and the increasing political and ideological radicalization culminating in the Second World War Taking the war experience both as a breaking point but in many ways also a transmitter of previous intellectual traditions it maps the intellectual paradigms and debates of the immediate postwar years marked by a negotiation between the democratic and communist agendas as well as the subsequent processes of political and cultural Stalinization Subsequently the post Stalinist period is analyzed with a special focus on the various attempts of de

Stalinization and the rise of revisionist Marxism and other critical projects culminating in the carnivalesque but also extremely dramatic year of 1968 This volume is followed by Volume II Negotiating Modernity in the Short Twentieth Century and Beyond Part II 1968 2018 Balkan Historiographical Wars Diana Mishkova,Roumen Daskalov,2025-09-13 The studies in this volume present some of the major historiographical wars over the medieval Balkan past fought by the historians of competing nation states in the region thnic origins and national makeup of medieval states and disputed regions ownership of the historical heritage located in or associated with that territory provenance or national consciousness of important historical personalities the boundaries of a certain medieval state and its political religious and cultural influence on others these are some of the issues around which major clashes between the modern Balkan historiographies recurred The book is valuable to all those interested in how the medieval past becomes instrumentalized by the national historians in the service of constructing the national canons of history **The Oxford History of Historical Writing** Axel Schneider,Daniel Woolf,2011-05-05 The fifth volume of The Oxford History of Historical Writing offers essays by leading scholars on the writing of history globally since 1945 Divided into two parts part one selects and surveys theoretical and interdisciplinary approaches to history and part two examines select national and regional historiographies throughout the world It aims at once to provide an authoritative survey of the field and to provoke cross cultural comparisons This is chronologically the last of five volumes in a series that explores representations of the past across the globe from the beginning of writing to the present day *Glocalization* Victor Roudometof,2016-06-10 This book seeks to provide a critical introduction to the under theorized concept of Glocalization While the term has been slowly diffused into social scientific vocabulary to date there is no book in circulation that specifically discusses this concept Historically theorists have intertwined the concepts of the global and the glocal or have subsumed the glocal under other concepts such as cosmopolitanization Moreover theorists have failed to give local due attention in their theorizing The book argues that the terms global the local and the glocal are in need of unambiguous and theoretically and methodologically sound definitions This is a prerequisite for their effective operationalization and application into social research Glocalization is structured in two parts Part I introduces the term seeking to provide a history and critical assessment of theorists past use of glocalization and offering an alternative perspective and a clear effective and applicable definition of the term explaining the limitations of the term globalization and the value of defining glocalization Part II then moves on to illustrate how the concept of glocalization can be used to broaden our understanding and analysis of a wide range of issues in world politics including the 21st century culture of consumption transnationalism cosmopolitanism nationalism and religious traditions Utilizing a wide range of historical ethnographic and real life examples from various domains this work will be essential reading for students and scholars of Globalization and will be of great interest to those in the field of Global Transnational and Cosmopolitan Studies Communities Across Borders Paul Kennedy,Victor Roudometof,2003-08-27 Communities across Borders examines the many ways in which national ethnic

or religious groups professions businesses and cultures are becoming increasingly tangled together It show how this entanglement is the result of the vast flows of people meanings goods and money that now migrate between countries and world regions Now the effectiveness and significance of electronic technologies for interpersonal communication including cyber communities and the interconnectedness of the global world economy simultaneously empowers even the poorest people to forge effective cultures stretching national borders and compels many to do so to escape injustice and deprivation

The Waffen-SS Jochen Böhrer,Robert Gerwarth,2017 This is the first systematic pan European study of the hundreds of thousands of non Germans who fought either voluntarily or under different kinds of pressures for the Waffen SS or auxiliary police formations operating in the occupied East Building on the findings of regional studies by other scholars many of them included in this volume The Waffen SS aims to arrive at a fuller picture of those non German citizens from Eastern as well as Western Europe who served under the SS flag Where did the non Germans in the SS come from socially geographically and culturally What motivated them What do we know about the practicalities of international collaboration in war and genocide in terms of everyday life language and ideological training Did a common transnational identity emerge as a result of shared ideological convictions or experiences of extreme violence In order to address these questions and others The Waffen SS adopts an approach that does justice to the complexity of the subject adding a more nuanced empirically sound

understanding of collaboration in Europe during World War II while also seeking to push the methodological boundaries of the historiographical genre of perpetrator studies by adopting a transnational approach *Balkan Dialogues* Maja Gori,Maria Ivanova,2017-02-17 Spatial variation and patterning in the distribution of artefacts are topics of fundamental significance in Balkan archaeology For decades archaeologists have classified spatial clusters of artefacts into discrete cultures which have been conventionally treated as bound entities and equated with past social or ethnic groups This timely volume fulfils the need for an up to date and theoretically informed dialogue on group identity in Balkan prehistory Thirteen case studies covering the beginning of the Neolithic to the Middle Bronze Age and written by archaeologists conducting fieldwork in the region as well as by ethnologists with a research focus on material culture and identity provide a robust foundation for exploring these issues Bringing together the latest research with a particular intentional focus on the central and western Balkans this collection offers original perspectives on Balkan prehistory with relevance to the neighbouring regions of Eastern and Central Europe the Mediterranean and Anatolia *Balkan Dialogues* challenges long established interpretations in the field and provides a new contextualised reading of the archaeological record of this region

Historical Dictionary of North Macedonia Dimitar Bechev,2019-09-03 Located in the middle of the Balkans North Macedonia reflects the turbulent history of the region The country emerged from former Yugoslavia in the 1990s without violence but struggled to achieve international recognition due to a dispute with neighboring Greece over its name and symbols The name issue was resolved only in 2018 with the signature of the Prespa Agreement reviving prospects for

membership in NATO and the European Union EU Yet North Macedonia's story goes centuries back to the Middle Ages the period of Ottoman Rule which lasted until 1912 and the various reincarnations of Yugoslavia The historical dictionary traces the country's past and present with a wealth of articles on issues events institutions personalities shaping political economic and cultural life It looks at the majority Macedonian as well as other ethnic communities such as the Albanians Turks and the Roma There are also entries on North Macedonia's relations with neighbors in history and today as well as with global powers This second edition of Historical Dictionary of North Macedonia contains a chronology an introduction and an extensive bibliography The dictionary section has over 500 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about North Macedonia

A History of the War in the Balkans R. Craig Nation, 2018-04-04 The Balkans is often described as a grim backwater a no man's land of world politics in the words of a post World War II study foredoomed to conflict springing from heterogeneity The stereotype is false but it has been distressingly influential in shaping perceptions of the Balkan conflict and its origin By encouraging pessimism about prospects for recovery it may also make it more difficult to sustain commitments to post conflict peace building This book seeks to refute simplistic ancient hatreds explanations by looking carefully at the sources and dynamics of the Balkan conflict in all of its dimensions

The Past in Question Keith Brown, 2018-06-05 This book examines the relationship between national history identity and politics in twentieth century Macedonia It focuses on the reverberating power of events surrounding an armed uprising in August 1903 when a revolutionary organization challenged the forces of the Ottoman Empire by seizing control of the mountain town of Krusevo A century later Krusevo is part of the Republic of Macedonia and a site for yearly commemorations of 1903 In the course of the intervening hundred years various communities have vied to establish an authoritative account of what happened in 1903 and to weave those events into a longer and wider narrative of social cultural and national evolution Keith Brown examines how Krusevo's residents refugees and exiles have participated along with scholars journalists artists bureaucrats and politicians in a conversation about their vexed past By tracing different approaches to understanding commemorating and narrating the events of 1903 he shows how in this small mountain town the magic of nationalism by which destiny is written into particular historical events has neither failed nor wholly succeeded Stories of heroism self sacrifice and unity still rub against tales of treachery score settling and disaster as people come to terms with the legacies of imperialism socialism and nationalism The efforts of Krusevo's successive generations to transcend a past of intercommunal violence reveal how rival claims to knowledge and truth acquire vital significance during rapid social economic and political change

Encyclopedia of the World's Minorities Carl Skutsch, 2013-11-07 This study of minorities involves the difficult issues of rights justice equality dignity identity autonomy political liberties and cultural freedoms The A Z Encyclopedia presents the facts arguments and areas of contention in over 560 entries in a clear objective manner For a full list of entries
