

An aerial photograph of a coastal landscape. At the top, there is a strip of green vegetation. Below it is a wide, light-colored sandy beach. A dark, reddish-brown object, possibly a log or a piece of driftwood, lies horizontally across the middle of the beach. The bottom half of the image shows the ocean with greenish waves breaking onto the shore, creating white foam.

Lex Populi William P. MacNeil, 2007 This is a book about jurisprudence or legal philosophy The legal philosophical texts under consideration are to say the least unorthodox Tolkien Buffy the Vampire Slayer Harry Potter Million Dollar Baby and other cultural products are all referenced as exemplary instances of what the author calls *lex populi* people s or pop law

There more than anywhere else will one find the leading issues of legal philosophy These issues however are heavily coded for few of these pop cultural texts announce themselves as expressly legal Nonetheless Lex Populi reads these texts jurisprudentially that is with an eye to their hidden legal philosophical meanings enabling connections such as Tolkien s Ring as Kelsen s grundnorm vampire slaying as legal language s semiosis Hogwarts as substantively unjust and a seriously injured young woman as termination s rights bearer In so doing Lex Populi attempts not only a jurisprudential reading of popular culture but a popular rereading of jurisprudence removing it from the legal experts in order to restore it to the public at large a lex populi by and for the people

Boundary Writing Lynette Russell, 2006-06-30 Have globalization and the emergence of virtual cultures reduced cultural diversity Will the world become homogenized or Americanized Boundary Writing sets out to demonstrate that this oversimplification denies the reality that today there is greater space for cultural diversity than ever before It explores the desire to categorize individuals and collectivities into racial ethnic gender and sexuality categories black and white men and women gay and straight which is a feature of most Western societies More specifically it analyzes the boundaries and edges of these categories and concepts Across nine chapters contributors reveal that such binaries are often too restrictive Through a series of case studies they consider how these various concepts overlap coincide and at times conflict They investigate the tension between these classifications that in turn produce individual speaking positions Many people indigenous native Anglo settler recent migrants of diverse ethnic backgrounds gay transgender queer occupy an in between position that is strategically shifting with the social political and economic circumstances of the individual In Boundary Writing the reader will journey through various complex permutations of identity and in particular the ways in which indigeneity race sex and gender interact and even counter act one another Contributors Erez Cohen Aaron Corn Bruno David Neparrna Gumbula Michele Grossman Myfanwy McDonald Clive Moore Stephen Pritchard Liz Reed Lynette Russell
