Alternative Economic Systems Richard Westra, Robert Albritton, Seongjin Jeong, 2017-07-14 In this age of overlapping and mutually reinforcing deep global crises financial convulsions global warming mass migrations militarism inequality selfish nation states etc there needs to be more realistic dialogue about radical alternatives to the status quo Most literature produced heretofore has focused on the surface causes of these crises without much attention given to the sorts of major societal changes needed in order to deal with the crises we face This book moves the debate beyond the critiques and the false or not fully realised alternatives to focus on what can be termed practical utopias The contributors to this book outline a range of practical proposals for constructing pathways out of the global economic ecological and social crisis Varieties of Alternative Economic Systems eschews a single blueprint but insists on dealing directly with the deep structural problems and contradictions of contemporary global capitalism It provides a diverse array of complementary proposals and perspectives that can inform both theoretical thinking and practical action This volume will be of interest to academics and students who study political science ecological economics international politics and socialism **Southern Economic**

Journal , 1927 **AMS.** , 1960 *Feminist Policymaking in Turbulent Times* Hannah Partis-Jennings, Clara Eroukhmanoff, 2024-05-31 Feminist Policymaking in Turbulent Times offers a unique and timely reflection of the critical debates around the institutionalisation of feminist and gender focused ideas and norms into policy Many states and non governmental organisations are increasingly invested in feminist policymaking at the domestic and international levels Yet this liberal feminist agenda is also vastly disputed by critical intersectional and decolonial voices on the one hand and by anti gender movements around the world on the other hand Indeed while opposition to gender ideology is mounting from reactionary religious and secular forces feminist policymaking is also being challenged in important ways from within Thus this book situates feminist policymaking in a challenging and turbulent global context This book explores feminist policymaking in multiple areas of policy examining various gender focused programmes that states and international organisations have undertaken in the last decade offering critical interventions and rethinking the relationship between feminism and policy This book not only reflects on the advances of feminist policymaking globally but also critically assesses the intersectional challenges embedded within it and lying ahead It moves the field forward by creating opportunities based on lived experiences for re imagining the transformative potential of the nexus between feminism and policymaking Interdisciplinary in scope and bringing to the fore the voices of both academics and practitioners this book is the product of

an international collaboration forging links and dialogue that are increasingly necessary to question some of the exclusionary militaristic and hierarchical assumptions of policymaking which is labelled as feminist Feminist Policymaking in Turbulent Times will be of interest to all scholars students and practitioners interested in the role of gender in policymaking and concerned with contestations around gender focused projects Handbook of Alternative Theories of Economic Development Erik S.
