

A MACROECONOMICS MODEL  
AND STABILISATION POLICIES  
FOR THE *OPEC* COUNTRIES

A. Khalik Salman

# Macroeconomics Model And Stabilization Policies For Opec Co

**Rose Arny**

## **Macroeconomics Model And Stabilization Policies For Opec Co:**

**Macroeconomic Theory and Stabilization Policy** Willem H. Buiter, 1989 Brings together Buiter's major papers on macroeconomic theory and policy    Long-Run Effects of Short-Run Stabilization Policy Lars Calmfors, 1983-06-18    An Islamic Model for Stabilization and Growth Adama Dieye, 2020-07-16 This book argues that the macroeconomic policy adjustment models recommended by the IMF and the World Bank for implementation in many Muslim countries with substantial donor financial support have not been effective Economic indicators show low economic growth persistent fiscal and external deficits and limited industrialization Also these countries are experiencing increases in unemployment poverty and substantial growth in income and wealth inequalities These facts underline an urgent need to produce an alternative to the failed conventional macroeconomic model in order to address the challenge of macroeconomic and social adjustment policies The project posits and investigates the idea that the Islamic economic model prescribed in the Quran and applied by the Prophet sawa could be the ideal model for Muslim as well as non Muslim countries    **A Macroeconomics Model and Stabilisation Policies for the OPEC Countries** A. Khalik Salman, 2019-06-26 First published in 1999 this book focuses on the macroeconomics issues which directly affect OPEC countries aiming to set them in the context of the overall development effort The most extant theoretical and empirical aspects in macroeconomics are integrated smoothly with institutional issues and policy questions The analysis is illustrated through examples to show how the theories relate to the real world especially to ongoing debates on developing economies as well as debates that encompass both developing and OPEC and developed countries    **Dynamic Modelling and Control of National Economies 1983** T. Basar, L. F. Pau, 2014-05-17 Dynamic Modelling and Control of National Economies 1983 contains the proceedings of the Fourth IFAC IFORS IIASA Conference and the 1983 SEDC Conference on Economic Dynamics and Control held at Washington D C USA on June 17 19 1983 Separating the 65 papers presented in the conference as chapters this book covers a broad class of problems or notions arising both in economic theory control applications to planning and implementation issues Some chapters discuss multi level interactions of government and private sectors in economic development inflation and economic policy in an open economy foreign debt and exchange rate stability in a developing country and expectations in numerical general equilibrium models This book also explains a rational decision making process for resource policymaking inference of the structure of economic reasoning from natural language analysis modeling and analysis of a national economy and methodological issues in global modeling Econometric analysis of the economic effects of population change aspects of optimal estimation control strategies in econometrics and optimal policies for interdependent economies are also discussed This book will be useful to those engaged in economic and control theory research    *Forthcoming Books* Rose Arny, 1998    A Guide to Modern Economics Michael Bleaney, Prof David Greenaway, 1996-07-04 This work provides a valuable review of the most important developments in economic theory and application over the last decade Comprising twenty seven specially commissioned

overviews the volume presents a comprehensive and student friendly guide to contemporary economics Previously published by Routledge as part of the Companion to Contemporary Economic Thought these essays are made available here for the first time in a concise paperback edition A Guide to Modern Economics will be a valuable guide to all those who wish to

familiarize themselves with the most recent developments in the discipline **Institutions and Macroeconomic Policies in Resource-Rich Arab Economies** Kamiar Mohaddes, Jeffrey B. Nugent, Hoda Selim, 2019-05-22 For over eighty years the Arab region has been deriving massive wealth from its natural resources Nevertheless its economic performance has been at the mercy of ebbs and flows of oil prices and its resources have been slowly depleting The two critical questions are why and how Arab countries might escape the oil curse Institutions and Macroeconomic Policies in Resource Rich Arab Economies focuses on the unique features of the Arab world to explain the disappointing outcomes of macroeconomic policy It explores the interaction between oil and institutions to draw policy recommendations on how Arab countries can best exploit their oil revenues to avoid the resource curse Case studies and contributions from experts provide an understanding of macroeconomic institutions including their underlying rules procedures and institutional arrangements in oil rich Arab economies and of their political economy environment which has largely been overlooked in previous research Institutions and Macroeconomic Policies in Resource Rich Arab Economies offers novel macroeconomic policy propositions for exchange rate regimes fiscal policy and oil wealth distribution that is more consistent with macroeconomic stability and fiscal sustainability These policy reforms if implemented successfully could go a long way in helping the resource rich countries of the Arab region and elsewhere to avoid the oil curse **Transition** ,2006 **Government-sponsored Research on Foreign Affairs** ,1979 **Essays in Economics** James Tobin, 1996 This fourth volume in the series of Nobel laureate James Tobin s classic papers represents his work since 1980 This fourth volume in the series of Nobel laureate James Tobin s classic papers represents his work since 1980 Both national and international views are intermingled among the 36 chapters on macroeconomics and fiscal policy savings stabilization policy international coordination of macroeconomic policy monetary policy and exchange rates Several tributes to colleagues including Walter Heller and Seymour Harris round out the collection

**Business Cycle Economics** Todd A. Knoop, 2015-02-17 Presents the empirical data of business cycles and the theories that economists have developed to explain and prevent them and considers case studies of recessions and depressions in the United States and internationally Despite more than two centuries of debate a definitive explanation of the causes of economic cycles still does not exist Economists politicians and policymakers have argued many well known theories as to why these peaks and slumps occur and cyclical recessions and depressions continue in spite of the enormous intellectual reserves working to prevent them This timely analysis presents a comprehensive overview of global economics assessing older theories alongside of new ways of thinking to reveal the empirical methods needed to evaluate forecast and prevent future crises Educator and economist Todd Knoop provides explanations of influential macroeconomic theories that have shaped

modern economics such as Keynesian economics Neoclassical economics Austrian economics and New Keynesian economics In addition he considers case studies of specific recessions and depressions beginning with the Great Depression through the East Asian crisis and Great Recession in Japan and culminating with a detailed examination of the European debt crisis and the 2008 global financial crisis The work concludes with a look at the insights gained from these fiscal events as well as the major questions that still remain unanswered as a result of these crises

**OPEC Bulletin** ,1995 *Optimal Stabilization Policy in a Fixprice-flexprice Model* Chun-Sang Cheung,1981

**Politics and Economics of Removing Subsidies on Petroleum Products in Nigeria** Jideofor Adibe,2013-12-17 Though the history of hikes in petroleum prices began in 1973 when the military government of Gen Yakubu Gowon increased the price of petrol to 9 kobo per litre from the equivalent of 8 kobo that had prevailed before then the politics and economics of removal of subsidies on premium petroleum products entered into the national lexicon in 1986 when the military administration of General Ibrahim Babangida announced that due to the devaluation of the Naira the domestic price of fuel had become unsustainable cheap and was becoming a burden on the national purse Ever since most regimes in the country have toyed with the idea of removing the subsidies with organised labour and the civil society usually vehemently opposed to the idea In late 2011 the Jonathan administration announced plans to completely remove the subsidies but gave no timeline amid threats by organised labour students and civil society groups to stoutly resist the move On January 1 2012 the regime announced the removal of the subsidies and subsequently reiterated that its decision on the issue was irreversible It however announced some measures including the provision of buses to help cushion the impact of the move This volume takes a critical look at the politics and economics of the pro and anti subsidisation lobbies It also examines the likely economic and social impacts of the move and its implications for the poor the overall economy and the country's democratic project

**Stabilization Policies and Labor Markets** Karl Brunner,Allan H. Meltzer,1988 *Essentials of Economics* Paul Krugman,Paul R. Krugman,Robin Wells,Kathryn Graddy,2010-10 Check out preview content for Essentials of Economics here Essentials of Economics brings the same captivating writing and innovative features of Krugman Wells to the one term economics course Adapted by Kathryn Graddy it is the ideal text for teaching basic economic principles with enough real world applications to help students see the applicability but not so much detail as to overwhelm them Watch a video interview of Paul Krugman here

**Companion to Contemporary Economic Thought** Michael Bleaney,David Greenaway,Dr Ian Stewart,Ian Stewart,1992-01-09 41 in depth essays cover current economic theory and applied economics in a single comprehensive volume Interfaces section considers economics as it relates to other disciplines Extensive notes bibliographies and suggestions for further reading detailed index of Topics and People A treasure house of stimulating argument and vast amounts of mostly well marshalled information The market for general survey volumes while already crowded should surely find room for this offering The World Economy The work under review scores very high marks The Economic Journal The chapters are written by people who are excellently qualified and frequently well

known in their field The book s strengths lie in the range of contributors the very high quality of most of the contributors and its emphasis on applied economics For these reasons alone it is an important book which will be invaluable both to students and to economists wishing to learn about developments in other branches of their discipline Economica Comprehensive Dissertation Index: Business & economics, L-Z ,1984      *State Trading in International Markets* M. M. Kostecki,1982-06-18
