Upton, 1986-10-15 Miller and Upton is by far the most cited macroeconomics text in front line academic research journals over the last ten years It has become a contemporary classic Roger C Kormendi University of Michigan The most innovative approach to introducing macroeconomics that I have seen A classic in the sense that every serious student of macroeconomics is likely to want it in his or her library John P Gould University of Chicago The task the authors set out to perform is ambitious to write a macroeconomics textbook structured around a neoclassical growth model And in this task they have succeeded Clifford W Smith Jr Journal of Finance This is a superb book As a vehicle for teaching economics I have to place it right behind Henderson and Quant Microeconomics and Dorfman Samuelson and Solow Linear Programming Moreover it is an exciting book both to read and to think about It is not just that these authors have something to say but their way of saying it is generally superior F E Banks Kyklos
