Gaisie,2020-10-16 This book seeks to demonstrate the significance of Ancestor Christology in African Christianity for christological developments in World Christianity Ancestor Christology has developed in the process of an African conversion story of appropriating the mystery of Christ Eph 3 4 in the category of ancestors Logos Christology in early Christian history developed as an intricate byproduct in the conversion process of turning Hellenistic ideas towards the direction of Christ A F Walls Hellenistic Christian writers and modern African Christian writers thus share some things in common and when their efforts are examined within the conversion process framework there are discernible modes of engagement The mode of Logos Christology that one finds in Origen for example is an innovative application of the understanding of Jesus Christ as Logos incarnate a new key but not discontinuous with the Johannine suggestive mode or the clarificatory mode of Justin Martyr African Ancestor Christology is at the threshold of an innovative mode and the argument this book makes is that this strand of African Christology should be pursued in the indigenous languages aided by respective translated Bibles a suggested way is a Logos Ancestor Nanas m discourse in Akan Christianity      *Madagascar* Philip M. Allen,2019-04-02 The world s fourth largest island with a unique biological and physical endowment Madagascar is home to an extraordinary insular civilization that has struggled for more than a century against external domination In this sensitive introduction to the Indian Ocean s great island Philip Allen shows how family affinities and community loyalties at the foundation of Madagascar s culture have influenced Malagasy

nationalism and forged islandwide traditions These same principles have nonetheless engendered social cleavages and resistance to economic and political change In chapters on modern Madagascar Allen analyzes the inability of a series of regimes to maintain authority among a people deeply bound to rituals of communication with their spiritual environment He demonstrates how the first Malagasy Republic became stigmatized by its lingering identification with French colonialism and how the nationalist revolution in 1972 soon hardened into autocratic radicalism Allen explores the complex challenges facing Madagascar's resurgent democratic forces including a need to conserve the island's irreplaceable biodiversity and to facilitate authentic participation in public affairs without offending ancestral customs and local precedents Finally he discusses efforts to end Madagascar's economic and political dependence and to improve living conditions for its tragically impoverished population

Conservation and Environmental

Management in Madagascar Ivan R. Scales, 2014-03-14 Madagascar is one of the most biologically diverse places on the planet the result of 160 million years of isolation from the African mainland More than 80% of its species are not found anywhere else on Earth However this highly diverse flora and fauna is threatened by habitat loss and fragmentation and the island has been classified as one of the world's highest conservation priorities Drawing on insights from geography anthropology sustainable development political science and ecology this book provides a comprehensive assessment of the status of conservation and environmental management in Madagascar It describes how conservation organisations have been experimenting with new forms of protected areas community based resource management ecotourism and payments for ecosystem services But the country must also deal with pressing human needs The problems of poverty development environmental justice natural resource use and biodiversity conservation are shown to be interlinked in complex ways Authors address key questions such as who are the winners and losers in attempts to conserve biodiversity And what are the implications of new forms of conservation for rural livelihoods and environmental justice *Islands Magazine*, 1989-07

The Madagascar Youths Gwyn Campbell, 2022-06-30 Explores the history of the Madagascar Youths young people trained by the British and their impact on Malagasy British relations **The Ancestor's Tale** Richard Dawkins, 2004 A renowned biologist provides a sweeping chronicle of more than four billion years of life on Earth shedding new light on evolutionary theory and history sexual selection speciation extinction and genetics *The Sloth Lemur's Song* Alison Richard, 2024-05-31 A moving account of Madagascar told by a researcher who has spent over fifty years investigating the mysteries of this remarkable island Madagascar is a place of change A biodiversity hotspot and the fourth largest island on the planet it has been home to a spectacular parade of animals from giant flightless birds and giant tortoises on the ground to agile lemurs leaping through the treetops Some species live on many have vanished in the distant or recent past Over vast stretches of time Madagascar's forests have expanded and contracted in response to shifting climates and the hand of people is clear in changes during the last thousand years or so Today Madagascar is a microcosm of global trends What happens there in the decades ahead can perhaps suggest ways to help turn the tide on the environmental crisis now sweeping the world *The Sloth Lemur's Song* is a far reaching account of Madagascar's past and present led by an expert guide who has immersed herself in research and conservation activities with village communities on the island for nearly fifty years Alison Richard accompanies the reader on a journey through space and time from Madagascar's ancient origins as a landlocked region of Gondwana and its emergence as an island to the modern day developments that make the survival of its array of plants and animals increasingly uncertain Weaving together scientific evidence with Richard's own experiences and exploring the power of stories to shape our understanding of events this book captures the magic as well as the tensions that swirl around this island nation *Lemuria* Justin McHenry, 2024-01-09 Is Lemuria a real place or the fever dream of crackpots mystics conspiracy theorists and Bigfoot hunters Below the waters where the Pacific and Indian Oceans lies a lost continent One of hopes and

dreams that housed a race of beings that arrived from foreign planets and from which sprang humanity religion civilization and our modern world It was called Lemuria and it was all fake What began as a theoretical land bridge to explain the mystery of lemurs on Madagascar quickly got hijacked to become the evolutionary home of humankind the cradle of spirituality and then the source of cosmological wonders Abandoned by science as hokum Lemuria morphed into a land filled with ancient advanced civilizations hollowed out mountains full of gold and crystals moon beings descending in baskets underground evil creatures and a breast feeding Bigfoot The history of Lemuria is populated with a dizzying array of people from early Darwinists to conspiracy spouting Congressmen globetrotting madams Rosicrucians Hollow Earthers sci fi writers UFO contactees sleeping prophets New Age channelers a Mother God and a tequila swigging conspiracy theorist Historian Justin McHenry provides a thoughtful exploration of how pseudo science hijacked the gentle Victorian era concept of Lemuria and in following decades twisted it into an all encompassing home for alternative ideas about race spirituality science politics and the paranormal

**Almanac of African Peoples and Nations** Mohamad Yakan, 2017-11-30 The peoples of Africa are neither ethnically culturally nor religiously homogeneous European colonial powers took little note of this reality in carving up the continent a fact reflected in the periodic outbreak of civil war since decolonialization Likewise Western European models of development whether in their liberal or Marxist manifestations have so far failed to meet African development needs The path to stability in Africa is through its people s character and goals Almanac of African Peoples and Nations provides an essential guide to the major ethnic groups of the African continent highlighting the major contributions and basic features of each The Almanac reviews Africa s language families and their respective national and geographic concentrations explaining ethnic classification based on linguistic difference and including language groups that are not indigenous to Africa The major African peoples are then listed by country with a statistical breakdown on their respective shares in the total population of each country and maps indicating their concentration The major section of the volume includes a comprehensive listing and descriptive profile of each ethnic national and tribal group detailing their history customs economic systems and political and social organizations The Almanac points out as well which groups support revisionist political aspirations and shows the internal and external pressures they are subject to Yakan notes that African societies are not highly integrated and must support multitudes of influential sub cultures with conflicting agendas and loyalties Arguing that tribalism reflects Africa s historical experience and cultural heritage he sees the resolution of the continent s problems in consociational democracy proportional representation federalism or some form of autonomous rule

**The South African Archaeological Bulletin** ,1987 **Introduction to Madagascar** Gilad James, PhD, Madagascar is an island country located off the east coast of Africa in the Indian Ocean It is the fourth largest island in the world and has a land area of 587 041 square kilometers The capital and largest city of Madagascar is Antananarivo The country is home to a unique and diverse range of flora and fauna with over 80% of its wildlife being endemic species not found anywhere else in

the world The history of Madagascar has been shaped by its geographic isolation and the diverse groups of people who have settled on the island over the years The earliest known settlers were Austronesian peoples who arrived around 350 BC Later Arab and African traders established settlements and introduced Islam to the island In the 16th century Madagascar became a haven for pirates and in the 19th century the island was colonized by the French Today Madagascar is one of the poorest countries in the world with a GDP per capita of about 1 500 However the country s rich cultural heritage and natural resources make it a popular destination for tourists
