Made In New Zealand The Story Of Jim Fletcher:

Made in New Zealand Selwyn Parker, 1994 A biography of Jim Fletcher which follows his life to 1994 showing how his work and the company he directed influenced the economy of New Zealand There is a section of 13 black and white photographs in the middle and an index Selwyn Parker is a writer on commercial affairs His other books include *Winners and Losers Investment in New Zealand* **Made in New Zealand** Selwyn Parker, 2009 For thirty seven years JC Fletcher was at the forefront of the developing New Zealand economy Here is a unique insight into the man and the growth of his company

The Nationbuilders Brian Easton, 2013-10-01 This is a collection of linked essays on individuals and companies from 1931 to 1984 who contributed in major ways to building the New Zealand nation It captures the intertwining of the lives of politicians their advisers and those influence them as well as the ideas and experiences that drove them While it focuses on economic strategy the book also looks at the cultural social union business and foreign policy strands of nationbuilding An original and provocative book it is backed by powerful nationalistic emotions and by a deep distaste for the kind of country that has been fashioned in New Zealand since 1984 **The State in New Zealand, 1840-198** Michael Bassett, 2013-11-01

In this innovative study Michael Bassett historian and former politician explores how and why the state became such an active and interventionist player in New Zealand life developing subsidising and regulating the economy and protecting citizens from the cradle to the grave He looks in detail at the many schemes in which a paternalistic government became involved especially the extensive social programmes These were taken for granted by the people but from the 1960s were increasingly difficult to sustain economically By 1984 he concludes this process of intervention had to be slowed Drawing on departmental archives many not previously consulted by historians *The State in New Zealand* covers in a new way and with clarity and style a subject of great contemporary interest *Kiwi Keith* Barry Gustafson, 2013-10-01 The definitive life story of New Zealand Prime Minister Kiwi Keith Holyoake is revealed in this deftly composed exploration of how one man was able to weather complex changes in society to stay in power for more than 11 years Through his leadership in the 1960s to his position as Governor General in the late 1970s Holyoake was often derided as pompous and unprincipled but this biography demonstrates the astute understanding of people and political issues that allowed him to defuse division and preserve order while encouraging gradual and incremental progress Holyoake s performance as Minister of Foreign Affairs is also examined including his opposition to nuclear testing and his reluctant commitment to assisting the United States in Vietnam

Technological Transformation in the Global Pulp and Paper Industry 1800-2018 Timo Särkkä, Miquel Gutiérrez-Poch, Mark Kuhlberg, 2018-10-24 This contributed volume provides 11 illustrative case studies of technological transformation in the global pulp and paper industry from the inception of mechanical papermaking in early nineteenth century Europe until its recent developments in today s business environment with rapidly changing market dynamics and consumer behaviour It deals with the relationships between technology transfer technology leadership raw material

dependence and product variety on a global scale The study itemises the main drivers in technology transfer that affected this process including the availability of technology knowledge investments and raw materials on the one hand and demand characteristics on the other hand within regional national and transnational organisational frameworks The volume is intended as a basic introduction to the history of papermaking technology and it is aimed at students and teachers as course material and as a handbook for professionals working in either industry research centres or universities It caters to graduate audiences in forestry business technical sciences and history

Economic Relations Between Britain and Australia from the 1940s-196 J. Singleton, Paul Robertson, 2001-12-14 In the early postwar era Britain enjoyed a very close economic relationship with Australia and New Zealand through their common membership of the Sterling Area and the Commonwealth Preference Area This book examines the breakdown of this relationship in the 1950 and 1960s Britain and Australasia were driven apart by disputes over industrial protection agriculture capital supplies and relations with other countries Special emphasis is given to the implications for Australia and New Zealand of Britain's growing interest in European integration

New Zealand Brad Patterson, Kathryn Patterson, 1998 For many years New Zealand was stereotyped as a sleepy hollow of the South Pacific but more recently it has had an influence in international affairs which belies its size Noted more for its conservatism and stability its green fields and sheep than for its innovation and radicalism this most geographically isolated of English speaking countries took pride in its role as a provider of agricultural produce for Europe

Capitalist Networks and Social Power in Australia and New Zealand Georgina Murray, 2017-09-29 It is often asserted that the ruling elite in Western capitalist economies now consists of liberal intellectuals and their media sympathisers By contrast this book looks at the real elite in Australian and New Zealand society and shows that there is still a ruling class based upon economic dominance From an analysis of corporate and public records interviews and other primary and secondary data it develops a picture of networks of power that are changing but are as real as any network in the past

Treasury Malcolm McKinnon, 2013-10-01 Commissioned by the Ministry for Culture and Heritage this interpretive history tackles New Zealand's most important department of state the Treasury Department The history of the complex interplay between New Zealand's government economy and people is detailed McKinnon shows the perennial jousting of officials with ministers the rise and fall of the accountants the rise of the economists and the impact of changes in the political scene and of events in the world economy

The State in New Zealand, 1840-1984 Michael Bassett, 1998 In this study historian and former politician Michael Bassett explores how and why the state became such an active and interventionist player in New Zealand life developing subsidizing and regulating the economy and increasingly protecting citizens from the cradle to the grave It looks in detail at the many schemes in which a paternalistic government became involved especially the extensive social programmes taken for granted by the people but from the 1960s increasingly difficult to sustain economically Bassett makes heavy use of departmental archives and concludes that the continuing process of intervention had to be halted
