Mademoiselle Irnois And Other Stories:

The Modern Origins of the Early Middle Ages Ian Wood, 2013-09-27 The Early Middle Ages which marked the end of the Roman Empire and the creation of the kingdoms of Western Europe was a period central to the formation of modern Europe. This period has often been drawn into a series of discourses that are more concerned with the eighteenth, nineteenth, and twentieth centuries than with the distant past. In *The Modern Origins of the Early Middle Ages*, Ian Wood explores how Western Europeans have looked back to the Middle Ages to discover their origins and the origins of their society. Using historical records and writings about the Fall of Rome and the Early Middle Ages, Wood reveals how these influenced modern Europe and the way in which the continent thought about itself. He asks and answers the important question: why is early medieval history or indeed any pre-modern history important? This volume promises to add to the debate on the significance of medieval history in the modern world.

Historical Dictionary of French Literature John Flower, 2013-01-17 Almost all of us know French literature even if we don't know French because it is probably the second largest and certainly the most translated into English. And even if we don't read, we would have seen film and television versions: think *Count of Monte Cristo* and even a musical rendition *Les Mis*. So this is a particularly interesting volume in the literature series since it covers French literature from the earliest times to the present. It is also a particularly rich literature espousing every genre from poetry to novel to biography to drama and adopting every style including realism and surrealism and expressing the views of all classes and political stands with recently strong feminist and gay strains. Obviously the core dictionary section includes among its panoply of often substantial and detailed entries hundreds of authors, dozens of significant works, the various styles mentioned above, and many other events that have impacted literature such as the Dreyfus Affair and the Algerian War and literary prizes. The chronology manages to cover about 1,200 years of literary output. And the introduction sets it all out neatly from one historical and literary period to the next. The bibliography, broken down by period and author, directs us to further reading in both French and English.

Dismantling Slavery Nilgun Anadolu-Okur, 2024-01-12 In her perceptive and instructive study of abolitionist discourse, Anadolu Okur revisits the formative ten years of the Frederick Douglass-William Lloyd Garrison collaboration and friendship that did much to shape their abolitionist witness and to encourage a more direct abolitionist rhetorical style among an ever-widening compass of men and women activists and writers in America and England. In *Anadolu Okur's* telling, the rhetorical relationships translated into radical thinking that transcended personal rivalries and reform priorities and transformed abolitionism. Anyone wanting to know the symbiosis of abolitionist style and substance will learn much from Anadolu Okur's insights. She shows why words mattered and still do. Randall M. Miller, Saint Joseph's University. In 1841, William Lloyd Garrison and Frederick Douglass formed a partnership that would last a decade and forever change the abolitionist movement. Throughout the stages of their extraordinary alliance, anti-slavery mobilization was accelerated, reaching its height between 1841 and 1851. Centering their arguments on emancipation, women's equality,

and suffrage the two men worked tirelessly to publicize and recruit for their cause Their work initiated a new discourse of social reform and critique positioning the abolition of slavery at the center of progressive social concerns throughout the first half of the nineteenth century Dismantling Slavery is the first book to address these two giants of abolition Douglass and Garrison simultaneously While underscoring the evolution of abolitionist discourse Dismantling Slavery unveils the true nature of the friendship between Douglass and Garrison a key ingredient often overlooked by scholars Drawing on the writings speeches and experiences that shaped the two as abolitionists Nilgu n Anadolu Okur s groundbreaking study is one account of the ways in which abolitionist discourse was shaped and put to the purposes of moral and democratic reforms In addition to turning a close eye on the relationship between Douglass and Garrison Anadolu Okur also details significant developments that occurred in tandem among other abolitionists and activists of the era making for a compelling account of this pivotal decade in American history up until the dissolution of Garrison and Douglass s partnership Dismantling Slavery represents a significant interdisciplinary contribution to the study of abolitionist discourse and will appeal to a wide range of nineteenth century scholars NILG N ANADOLU OKUR is an associate professor of African American Studies at Temple University in Philadelphia where she specializes in African American literature theater and the history of Underground Railroad She is the author of Contemporary African American Theater Afrocentricity in the Works of Amiri Baraka Larry Neal and Charles Fuller and the editor of Essays Interpreting Writings of Novelist Orhan Pamuk and Women Islam and Globalization in the Twenty First Century

Orientalism Revisited Ian Richard Netton, 2012 The publication of Edward Said s Orientalism in 1978 marks the inception of orientalism as a discourse Since then Orientalism has remained highly polemical and has become a widely employed epistemological tool Three decades on this volume sets out to survey analyse and revisit the state of the Orientalist debate both past and present The leitmotiv of this book is its emphasis on an intimate connection between art land and voyage Orientalist art of all kinds frequently derives from a consideration of the land which is encountered on a voyage or pilgrimage a relationship which until now has received little attention Through adopting a thematic and prosopographical approach and attempting to locate the fundamentals of the debate in the historical and cultural contexts in which they arose this book brings together a diversity of opinions analyses and arguments

Manufacturing Middle Ages , 2013-08-22 Across the nineteenth century European history philology archaeology art and architecture turned from a common classical vocabulary and ideology to images of pasts and origins drawn primarily from the Middle Ages The result was a paradox as scholars and artists schooled in the same pan European vocabularies and methodologies nevertheless sought to discover through them unique and frequently oppositional national identities These essays edited by Patrick J Geary and G bor Klaniczay focus on this all European phenomenon with a special focus on Scandinavia and East Central Europe bearing witness to the inextricable links between cultural and scientific engagement the search for national identity and political agendas in the long nineteenth century that made the search for archaic origins
