The Palgrave International Handbook of Marxism and Education Richard Hall,Inny Accioly,Krystian Szadkowski,2023-11-07

The Palgrave International Handbook of Marxism and Education is an international and interdisciplinary volume which provides a thorough and precise engagement with emergent developments in Marxist theory in both the global South and North Drawing on the work of authoritative scholars and practitioners the handbook explicitly shows how these developments enable a rich historical and material understanding of the full range of education sectors and contexts The handbook proceeds in a spirit of openness and dialogue within and between various conceptions and traditions of Marxism and brings those conceptions into dialogue with their critics and other anti capitalist traditions As such it contributes to the development of Marxist analyses that push beyond established limits by engaging with fresh perspectives and views that disrupt established perspectives

El bolsillo del pan. Caballos en la ventana. La araña en la herida Matéi Visniec,2021-11-23 Matei Visniec se dio a conocer al gran público con su teatro escrito en francés unos a os

después de su exilio voluntario en 1987. No obstante desde muy pronto durante los años de la dictadura de Ceaușescu había escrito en rumano otras obras que en su inmensa mayoría no se representaron entonces en Rumanía lo que no es de extrañar por los dardos críticos que lanzaba al régimen a menudo falsamente disimulados en lo irónico o lo sugerido. Las tres obras que aparecen en este volumen pertenecen a ese periodo y comparten además dos rasgos son relativamente cortas y el animal tiene un papel importante en ellas el perro el caballo y la araña respectivamente. El bolsillo del pan pone en escena a dos hombres que discuten intensamente sobre cómo salvar a un perro abandonado en un pozo. Caballos en la ventana muestra la inquietante conducta de unos caballos mientras asistimos a tres diálogos sobre la guerra vivida o por vivir. La araña en la herida nos traslada a la escena de la crucifixión lo que permite al autor indagar sobre los seres humanos en una situación extrema. En las tres obras se despliega el genio artístico de Matei Visniec para hacernos esbozar una amarga sonrisa. Y una inquietud vital nacida de la angustia de vivir en un régimen autoritario pero también de la propia condición humana.

Tratado de Historia de Las Religiones Mircea Eliade, 2007-03-28 [El pensamiento de las aguas de las montañas Coconucos, guambianos, paeces, yanaconas](#) Portela Guarín, Hugo, 2019-11-22. El tema central de la segunda edición de este libro es la interpretación de los territorios de gran riqueza acuática y la importancia del agua en el pensamiento y la comprensión del mundo de cuatro grupos indígenas del suroccidente de Colombia: coconucos, guambianos, paeces y yanaconas. El autor hace una construcción discursiva caracterizando los territorios con un eje ordenador común: la existencia de tres mundos en las cosmografías de esos grupos. Cada uno de estos mundos se resume asegurando sus cualidades virtudes, pobladores, mitos, restricciones y usos, poniendo de relieve una normatividad sociocultural que de ser cumplida por los habitantes les asegura la sobrevivencia en los agrestes territorios del Macizo Colombiano. En el libro se analizan las clasificaciones del agua y las relaciones entre seres humanos y agua y entre seres humanos y medio acuático que posibilitan la armonía, el equilibrio y el bienestar individual y colectivo. Estas reflexiones permiten al autor sugerir que en las comunidades indígenas estudiadas existe una disposición cultural para la salud a manera de una cultura de la salud entrelazada con la etnicidad en ella los conjuntos de recursos curativos prácticas y dicas, sistemas clasificatorios, pensamientos y concepciones hacen parte de los proyectos de vida que necesariamente pasan por una concepción del territorio que incluye la preservación y manejo del agua y de los ecosistemas en que nace y vive.

Monthly Bulletin Philippines. Weather Bureau, 1908 *Monthly Bulletins* Philippines. Weather Bureau, 1908 **Women and Water in Global Fiction** Emma Staniland, 2023-01-27. Symbols and tropes of liquidity have long been connected to notions of the feminine and therefore with orthodox constructions of femininity and womanhood. Underpinning these ideas is the vital importance of water as life force which has given it a central place in cultural vocabularies worldwide. These symbolic economies in turn inform the discourses through which positive or negative associations of women with water come to bear impact on the social positioning of female gendered identities. Women and Water in Global Fiction brings together an array of studies of this phenomenon as seen in writing by and about women from around the world. The literature explored in this

volume works to make visible decode celebrate and challenge the cultural associations made between female gendered identities and all kinds of watery tropes as well as their consequences for key issues connected to women society and the environment The collection investigates the roots of such symbolisms examines how they inform women s place in the socio cultural orders of diverse global cultures and shows how the female authors in question use these tropes in their work as ways of re articulating female identities and their correlative roles
