The Memoirs of Napoleon Bonaparte is a biography of Napoleon Bonaparte written by his personal secretary Louis Antoine Fauvelet de Bourrienne. The book was published in four volumes between 1829 and 1831. The Memoirs cover Napoleon's life from his early days in Corsica to his exile on Saint Helena. Bourrienne was a close confidante of Napoleon and had access to a wealth of information about his life and career. He provides detailed accounts of Napoleon's military campaigns, political alliances, and personal relationships. The Memoirs also shed light on the personality of Napoleon, his ambition, his love affairs, and his relationships with his family members and advisors. Bourrienne portrays Napoleon as a complex and often contradictory figure with both strengths and weaknesses. The Memoirs were widely read and praised for their detailed and intimate portrayal of Napoleon, but they were also criticized for their partiality and lack of objectivity. Bourrienne was often accused of whitewashing Napoleon's actions and motives, and the accuracy of some of his accounts has been disputed. Despite these criticisms, the Memoirs of Napoleon Bonaparte remains an important source of information about one of the most influential figures in European history and provides a fascinating glimpse into the life and career of Napoleon Bonaparte.

Memoirs of Napoleon Bonaparte: Complete & Illustrated L. A. Fauvelet De Bourrienne, 2024-01-23

The Memoirs of the time of Napoleon may be divided into two classes: those by marshals and officers

of which Suchet's is a good example chiefly devoted to military movements and those by persons employed in the administration and in the Court giving us not only materials for history but also valuable details of the personal and inner life of the great Emperor and of his immediate surroundings. Of this latter class the Memoirs of Bourrienne are among the most important. Long the intimate and personal friend of Napoleon both at school and from the end of the Italian campaigns in 1797 till 1802 working in the same room with him using the same purse the confidant of most of his schemes and as his secretary having the largest part of all the official and private correspondence of the time passed through his hands Bourrienne occupied an invaluable position for storing and recording materials for history. The Memoirs of his successor Meneval are more those of an esteemed private secretary yet valuable and interesting as they are they want the peculiarity of position which marks those of Bourrienne who was a compound of secretary minister and friend. The accounts of such men as Miot de Melito Raederer etc are most valuable but these writers were not in that close contact with Napoleon enjoyed by Bourrienne. Bourrienne's position was simply unique and we can only regret that he did not occupy it till the end of the Empire. Thus it is natural that his Memoirs should have been largely used by historians and to properly understand the history of the time they must be read by all students. They are indeed full of interest for every one. But they also require to be read with great caution. When we meet with praise of Napoleon we may generally believe it for as Thiers *Consulat* ii 279 says Bourrienne need be little suspected on this side for although he owed everything to Napoleon he has not seemed to remember it. But very often in passages in which blame is thrown on Napoleon Bourrienne speaks partly with much of the natural bitterness of a former and discarded friend and partly with the curious mixed feeling which even the brothers of Napoleon display in their Memoirs pride in the wonderful abilities evinced by the man with whom he was allied and jealousy at the way in which he was outshone by the man he had in youth regarded as inferior to himself. Sometimes also we may even suspect the praise. Thus when Bourrienne defends Napoleon for giving as he alleges poison to the sick at Jaffa a doubt arises whether his object was to really defend what to most Englishmen of this day with remembrances of the deeds and resolutions of the Indian Mutiny will seem an act to be pardoned if not approved or whether he was more anxious to fix the committal of the act on Napoleon at a time when public opinion loudly blamed it. The same may be said of his defence of the massacre of the prisoners of Jaffa.
