Practical Mysticism in Islam and Christianity Saeed Zarrabi-Zadeh,2016-01-29 Practical Mysticism in Islam and Christianity offers a comparative study of the works of the Sufi poet Jalal al Din Rumi 1207 1273 and the practical teachings of the German Dominican Meister Eckhart c1260 1327 8 Rumi has remained an influential figure in Islamic mystical discourse since the thirteenth century while also extending his impact to the Western spiritual arena However his ideas have frequently been interpreted within the framework of other mystical philosophical or religious systems Through its novel approach this book aims to reformulate Rumi s practical mysticism by employing four methodological principles a mysticism is a coherent structure with mutual interconnection between its parts b the imposition of alien structures to interpret any particular mysticism damages its inward coherency c practical mysticism consists of two main parts namely practices and stages and d the proper use of comparative methodology enables a deeper understanding of each juxtaposed system Eckhart s speculative mysticism which differs from and enjoys similarities with the love based mysticism of Rumi provides a mirror that highlights the special features of Rumi s practical mysticism Such comparison also allows a deeper comprehension of Eckhart s practical thought Offering a critical examination of practical mysticism this book is a valuable resource for students and scholars of Islamic

The introductory chapter which highlights key developments and introduces some of Islam's most famous protagonists paves the way for an extraordinarily varied collection of essays. The themes treated include religion and law, conversion, Islam's relationship with the natural world, governance and politics, caliphs and kings, philosophy, science, medicine, language, art, architecture, literature, music, and even cookery. What emerges from this rich collection, written by an international team of experts, is the diversity and dynamism of the societies which created this flourishing civilization. Volume four of *The New Cambridge History of Islam* serves as a thematic companion to the three preceding politically oriented volumes and in coverage extends across the pre-modern Islamic world.

Sufi Ritual Ian Richard Netton, 2014-03-18 This study reveals the world of Sufi ritual with particular reference to two major Sufi orders. It examines the ritual and practices of these orders and surveys their organisation and hierarchy, initiation ceremonies and aspects of their liturgy such as dhikr, litany and sama, mystical concert. Comparisons are made with the five pillars of Islam, arkan, and the Sufi rituals together with the arkan are examined from the perspective of theology, phenomenology, anthropology and semiotics. The work concludes with an examination of the Sufi in the context of alienation. This is a major work which highlights the importance of Sufi ritual and locates it within the broader domain of the Islamic world.

The Shaping Shaikh Dejan Aždajić, 2020-01-20 Islam is more than a system of rigid doctrines and normative principles. It is a diverse mosaic of subjective, often contradictory interpretations and discrepant applications that prohibit a narrow, one-dimensional approach. This book argues that to uncover this complex reality and achieve a more accurate understanding of Islam as a lived religion, it is imperative to consider Islam from the point of view of human beings who practice their faith. Consequently, this book provides an important contribution through a detailed ethnographic study of two contemporary Sufi communities. Although both groups shared much in common, there was a fundamental, almost perplexing range of theological convictions and ritual implementations. This book explores the mechanism that accounts for such diversity, arguing for a direct correlation between Sufi multiformity and the agency of the spiritual leader, the Shaikh. Empirical research regarding the authority by which Shaikhs subjectively generate legitimate adaptations that shape the contours of religious belief are lacking. This study is significant because it focuses on how leadership operates in Sufism, highlighting the primacy of the Shaikh in the selection and appropriation of inherited norms.
