Pearson,1963 **Planning Canadian Regions** Gerald Hodge,Ira M. Robinson,2007-10-01 Planning Canadian Regions is the first book to consolidate the history evolution current practice and future prospects for regional planning in Canada As planners grapple with challenges wrought by globalization the evolution of massive new city regions and the pressures of sustainable and community development a deeper understanding of Canada s approaches is invaluable Hodge and Robinson identify the conceptual and historical foundations of regional planning and propose a new planning paradigm that emphasizes regional governance and greater inclusiveness and integration of physical planning with planning for economic sustainability and natural ecosystems **Urban and Regional Planning in Canada** J. Barry Cullingworth,2015-01-08

Originally published in 1987 this book presents a wide ranging review of urban regional economic and environmental planning in Canada A comprehensive source of information on Canadian planning policies it addresses the wide variations between Canadian provinces While acknowledging similarities with programs and policies in the United States and Britain the author documents the distinctively Canadian character of planning in Canada Among the topics addressed in the book are

the agencies of planning on the nature of urban plans the instruments of planning land policies natural resources regional planning at the federal level regional planning and development in Ontario regional planning in other provinces environmental protection planning and people and reflections on the nature of planning in Canada The author documents how governmental agencies handle problems of population growth urban development exploitation of natural resources regional disparities and many other issues that fall within the scope of urban and regional planning But he goes beyond this to address matters of politics law economics social organization The book is pragmatic eclectic interpretive and critical It is a valuable contribution to international literature on planning in its political context     Regional and Resource Planning in Canada. Revised Edition. Senior Editor: Ralph R. Krueger ... Co-editors: Frederic O. Sargent ... Anthony de Vos ... Norman Pearson Resources for Tomorrow Conference (Canada),1970     Planning Canadian Regions, Second Edition Gerald Hodge, Heather M. Hall, Ira M. Robinson, 2017-01-05 Planning Canadian Regions was the first book to integrate the history contemporary practice and emergent issues of regional planning in Canada This much anticipated second edition brings the discussion up to date applying the same thorough analysis to illuminate the rapid changes now shaping our regional landscapes This new edition draws upon contemporary analyses projects and literature to address issues of spatial complexity now facing regional planners in Canada Special attention is paid to the regional planning dimensions of climate change adaptation and environmental sustainability across Canada the development inequities faced in peripheral resource regions the role that Aboriginal peoples must play in the planning of their regions and the distinctive planning needs of metropolitan regions across the country This book challenges planners educators and policy makers to engage with the latest thinking and strive for best practices in twenty first century regional planning     *Southeast Regional Resource Plan (RRP)*, Atlanta ,1984     **National Resources Development: Wartime planning for war and post war** United States. National Resources Planning Board,1943     **Rural and Urban Fringe Studies in Canada** Kenneth B. Beesley,1991     Taking Stands Maureen Gail Reed,2003 Environmental activism in rural places frequently pits residents whose livelihood depends on resource extraction against those who seek to protect natural spaces and species While many studies have focused on women who seek to protect the natural environment few have explored the perspectives of women who seek to maintain resource use This book goes beyond the dichotomies of pro and anti environmentalism to tell the stories of these women Maureen Reed uses participatory action research to explain the experiences of women who seek to protect forestry as an industry a livelihood a community and a culture She links their experiences to policy making by considering the effects of environmental policy changes on the social dynamics of workplaces households and communities in

forestry towns of British Columbia's temperate rainforest The result is a critical commentary about the social dimensions of sustainability in rural communities A powerful and challenging book Taking Stands provides a crucial understanding of community change in resource dependent regions and helps us to better tackle the complexities of gender and activism as they relate to rural sustainability Social and environmental geographers feminist scholars and those engaged in rural studies environmental sustainability and community planning will find it invaluable
