Regional and Global Multinationals Christoph Czychon, 2021-06-29 Based on their ability to facilitate interdependencies across the borders of national and regional markets multinationals enterprises MNEs act as the key drivers of world trade and investment activities While recent global challenges additionally highlight the need to explain and assess the status and progress of internationality regionality previous research renders the concept of firm level globalization as a special but not the general case Christoph Czychon dedicates specific attention to the research on regional and global MNEs based on an extensive and rigorous review of the existing academic literature as well as the analysis of 2005 2015 empirical data from the European context with a focus on CAC40 and DAX30 listed firms In doing so the author offers insights and results that stand in contrast to the original narrative of the debate and presents a comprehensive and updated

perspective on regional and global MNEs **Currency and Contest in East Asia** William M. Grimes, 2011-03-15 Since the Asian Financial Crisis of 1997-98 East Asian economies have sought to make themselves less vulnerable to global financial markets by transforming the regional financial architecture With Japan as a leading actor they have introduced initiatives to provide emergency financing to crisis economies support the development of local currency bond markets and better coordinate currency policies In *Currency and Contest in East Asia* William W Grimes builds on years of primary research and scores of interviews with participants and policy analysts to provide the most accurate complete and detailed description available of attempts to build financial cooperation among East Asian countries Adapting realist political economy theory to the realities of contemporary global finance Grimes places regional issues firmly in the wider context of great power rivalries He argues that financial regionalism can best be understood as one arena for competition among Japan the United States and China Despite their mutual desire for regional prosperity and economic stability these three powers have conflicting political interests Their struggles for regional leadership raise questions about the long term feasibility of regional financial cooperation the possible effects of Sino Japanese rivalry on regional financial stability and the potential for East Asian financial regionalism to undermine the long established albeit waning global and regional dominance of the United States and the dollar **Political Economy Of The Brics Countries, The (In 3 Volumes)** , 2020-03-03 Over the past 20 years social scientists government officials and investors have expressed mounting interest in the BRICS countries which include Brazil Russia India China and South Africa These countries are widely viewed as both key actors in the global economy and important regional powers The *Political Economy of the BRICS Countries* is a three volume set that aims to address various crucial issues regarding these countries Volume 1 analyzes whether economic growth in the BRICS countries has been broad based and promoted equitable economic and social outcomes The authors examine specific dimensions of growth in these five economies that constrain their ability to act effectively and cohesively in international affairs Volume 2 considers how the BRICS have affected global economic governance and the international political economy Volume 3 provides various approaches to economic informality in the BRICS Moreover the chapters deal with several connections between informality and important political economic and institutional phenomena such as economic globalization and international aid economic development political regimes social capital political networks and political participation labor market rules and social policy preferences The BRICS countries have attracted rising attention over the past two decades The volumes provide an in depth analysis of various key issues regarding these countries and chart a course for future research *Preferential Trading Agreements in Asia* Amita Batra, 2008 Papers presented at a workshop held by the Indian Council for Research on International Economic Relations New Delhi in March 2006 **Asia-Pacific Economic and Security Co-operation** C. Dent, 2003-10-24 This collection examines new developments in economic and security co operation in the Asia Pacific in relation to two recent shock events that have significantly impacted upon the region these being the 1997-98 East Asian

financial crisis and the September 11 attacks on the United States These are examined through three prime dimensions of analysis namely the tension between the post shock forces of imperative co operation and the counter forces of Asia Pacific complex diversity the growing conflation between economic and security issues or the economics security nexus in Asia Pacific international relations the relationship between the Asia Pacific s new economic and security bilateralism and regional level forms of co operation integration and governance
