Regions Of Silence Studies On The Difficulty Of Communicating London Studies In Clabical Philology:

The Regions of Silence M.G. Ciani, 2024-11-25 In this collection of essays the authors study from different angles the attitude of the ancient towards silence in various contexts religious social medical and mythological The underlying principle common to all the essays is a rigorously historical approach whereby the starting point of each investigation is an analysis of the ancient texts themselves

Architecture of the Sacred Bonna D. Wescoat, Robert G. Ousterhout, 2014-10-13 In this book a distinguished team of authors explores the way space place architecture and ritual interact to construct sacred experience in the historical cultures of the eastern Mediterranean Essays address fundamental issues and features that enable buildings to perform as spiritually transformative spaces in ancient Greek Roman Jewish early Christian and Byzantine civilizations Collectively they demonstrate the multiple ways in which works of architecture and their settings were active agents in the ritual process Architecture did not merely host events rather it magnified and elevated them interacting with rituals facilitating the construction of ceremony This book examines comparatively the ways in which ideas and situations generated by the interaction of place built environment ritual action and memory contributed to the cultural formulation of the sacred experience in different religious faiths

It's Silence, Soundly John McGreal, 2016-04-21 It's Silence Soundly It's Nothing Seriously and It's Absence Presently continue The It Series published by Matador since The Book of It 2010 They constitute another stage in an artistic journey exploring the visual and audial dialectic of mark word and image that began over 25 years ago In their aesthetic form the books are a decentred trilogy united together in a new concept of The Bibliograph All three present this new aesthetic object which transcends the narrow limits of the academic bibliography The alphabetical works also share a tripartite structure and identical length The Bibliograph itself is characterised by its strategic place within each book as a whole as well as by the complex variations in meaning of the dominant motifs nothingness absence and silence which recur throughout the alphabetical entries that constitute the elements of each text It's Nothing Seriously for example addresses the amusing paradox that so much continues to be written today about nothing The aleatory character of the entries in the texts encourage the modern reader to reflect on each theme and to read them in a new way The reader is invited as well to examine their various inter textual relations across given conventional boundaries in the arts and sciences at several levels of physical psychical social reproduction

Philosophic Silence and the 'One' in Plotinus Nicholas Banner, 2018-03-29 Plotinus the greatest philosopher of Late Antiquity discusses at length a first principle of reality the One which he tells us cannot be expressed in words or grasped in thought How and why then does Plotinus write about it at all This book explores this act of writing the unwritable Seeking to explain what seems to be an insoluble paradox in the very practice of late Platonist writing it examines not only the philosophical concerns involved but the cultural and rhetorical aspects of the question The discussion outlines an ancient practice of philosophical silence which determined the themes and tropes of public secrecy appropriate to Late Platonist philosophy Through philosophic silence public secrecy and silence flow

into one another and the unsaid space of the text becomes an initiatory secret Understanding this mode of discourse allows us to resolve many apparent contradictions in Plotinus thought *The Region of Silence* Maria Grazia Ciani,1987
