Regulation By Municipal Licensing:

Regulation by Municipal Licensing John Bossons, S.M. Makuch, John Palmer, 1984-12-15 Municipal licensing serves a variety of regulatory purposes such as consumer protection and public health and safety The municipal licensing power is delegated from the provincial government up to the present municipalities have been restricted to enumerated specific powers and the result has been the growth of a disorganized and unwieldy accumulation of bylaws many of which conflict or are obsolete The development of a two tier system of municipal government exemplified by Metropolitan Toronto adds to the complexity of the issues Basing their analysis upon municipal experience in Ontario the authors envisage a reorganized system in which provincial and municipal powers will be exercised more rationally to deal with problems at the level at which they tend to occur Municipal licensing in practice is the topic of a study of the cartage and taxicab industries in a number of Canadian and American cities Comparisons of industry structure in differing regulatory environments lead to the conclusion that entry controls are not justified by their results "Code of Massachusetts regulations, 2001" ,2001 Archival snapshot of entire looseleaf Code of Massachusetts Regulations held by the Social Law Library of Massachusetts as of January 2020

Regulation by Municipal Licensing John D. Bossons, Ontario Economic Council, John Palmer, Stanley M. Makuch, 1983 Basing their analysis upon municipal experience in Ontario the authors envisage a reorganized system in which provincial and municipal powers will be exercised more rationally to deal with problems at the level at which they tend to occur

Public discourses around migrant sex workers are often more confident about what migrant sex workers signify morally but are less clear about who the migrant is Based on interviews with immigrant migrant and racialized sex workers in Vancouver Canada and Melbourne Australia Sex Work Immigration and Social Difference challenges the migrant sex worker category by investigating the experiences of women who are often assumed to be migrant sex workers in Australia and Canada Many migrant sex workers in Melbourne and Vancouver are in fact naturalized citizens or permanent residents whose involvement in the sex industry intersects with diverse ideas and experiences of citizenship in Australia and Canada This book examines how immigrant migrant and racialized sex workers in Vancouver and Melbourne wield or negotiate ideas of illegality and legality to obtain desired outcomes in their day to day work Sex work continues to be the subject of fierce debate in the public sphere at the policy level and within research discourses This study interrogates these perceptions of the migrant sex worker by presenting the lived realities of women who embody or experience dimensions of this category This book is interdisciplinary and will appeal to those engaged in criminology sociology law and women s studies **The Laws of**

Wisconsin Wisconsin,1961 Includes some separate vols for special sessions International Differences in Entrepreneurship Josh Lerner,Antoinette Schoar,2010-06-15 Often considered one of the major forces behind economic growth and development the entrepreneurial firm can accelerate the speed of innovation and dissemination of new technologies thus increasing a country s competitive edge in the global market As a result cultivating a strong culture of entrepreneurial thinking has become a primary goal throughout the world Surprisingly there has been little systematic research or comparative analysis to show how the growth of entrepreneurship differs among countries in various stages of development International Differences in Entrepreneurship fills this void by explaining how a country s institutional differences cultural considerations and personal characteristics can affect the role that entrepreneurs play in its economy Developing an understanding of the origins of entrepreneurs as well as the choices they make and the complexity of their

activities across countries and industries are of central importance to this volume. In addition, contributors consider how environmental factors of individual economies, such as market regulation, government subsidies for banks, and support for entrepreneurial culture, affect the industry and the impact that entrepreneurs have on growth in developing nations.
