Reimagination Of The World A Critique Of The New Age Science And Popular Culture:

Reimagination of the World David Spangler, William Irwin Thompson, 1991 **New Age Religion and Western Culture** Wouter J. Hanegraaff, 2018-09-24 Recent years have seen a spectacular rise of the New Age movement and an ever increasing interest in its beliefs and manifestations This fascinating work presents the first ever comprehensive analysis of New Age Religion and its historical backgrounds thus providing the reader with a means of orientation in the bewildering variety of the movement Making extensive use of primary sources the author thematically analyses New Age beliefs from the perspective of the study of religions While looking at the historical backgrounds of the movement he convincingly argues that its foundations were laid by so called western esoteric traditions during the Renaissance Hanegraaff finally shows how the modern New Age movement emerged from the increasing secularization of those esoteric traditions during the 19th century This ground breaking publication is compulsive reading for all those involved or interested in the New Age movement

Popular Spiritualities Lynne Hume, Kathleen McPhillips, 2006 In our contemporary post modern world popular forms of spirituality are increasingly engaging with notions of re enchantment of self and community Drawing on case studies of particular groups including pagans witches radical faeries post modern tourists and queer and goddess groups contributors from Australia the UK and North America discuss various forms of spirituality and how they contribute to self knowledge identity and community life The book documents an emerging engagement between new quasi religious groups and political action eco paganism post colonial youth culture and alternative health movements to explore how social change emerges

The New Age in the Modern West Nicholas Campion, 2015-11-19 New Age culture is generally regarded as a modern manifestation of Western millenarianism a concept built around the expectation of an imminent historical crisis followed by the inauguration of a golden age which occupies a key place in the history of Western ideas The New Age in the Modern West argues that New Age culture is part of a family of ideas including utopianism which construct alternative futures and drive revolutionary change Nicholas Campion traces New Age ideas back to ancient cosmology and questions the concepts of the Enlightenment and the theory of progress He considers the contributions of the key figures of the 18th century the legacy of the astronomer Isaac Newton and the Swedish visionary Emanuel Swedenborg as well as the theosophist H P Blavatsky the psychologist C G Jung and the writer and artist Jose Arguelles He also pays particular attention to the beat writers of the 1950s the counterculture of the 1960s concepts of the Aquarian Age and prophecies of the end of the Maya Calendar in 2012 Lastly he examines neoconservatism as both a reaction against the 1960s and as a utopian phenomenon The New Age in the Modern West is an important book for anyone interested in countercultural and revolutionary ideas in the modern West

New Age Spirituality Steven J. Sutcliffe, Ingvid Saelid Gilhus, 2014-09-11 New Age and holistic beliefs and practices sometimes called the new spirituality are widely distributed across modern global society The fluid and popular nature of new age makes these movements a very challenging field to understand using traditional models of religious analysis Rather

than treating new age as an exotic specimen on the margins of proper religion New Age Spirituality examines these movements as a form of everyday or lived religion The book brings together an international range of scholars to explore the key issues insight healing divination meditation gnosis extraordinary experiences and interactions with gods spirits and superhuman powers Combining discussion of contemporary beliefs and practices with cutting edge theoretical analysis the book repositions new age spirituality at the forefront of the contemporary study of religion *Encyclopedia of New Religious Movements* Peter Clarke, 2004-03-01 New Religious Movements NRMs can involve vast numbers of followers and in many cases are radically changing the way people understand and practice religion and spirituality Moreover many are having a profound impact on the form and content of mainstream religion The Encyclopedia of New Religious Movements provides uniquely global coverage of the phenomenon with entries on over three hundred movement from almost every country in the world Coverage includes movements that derive from the major religions of the world and to neo traditional movements movements often overlooked in the study of NRMs In addition to the coverage of particular movements there are also entries on topics themes key thinkers and key ideas for example the New Age Movement Neo Paganism New Religion and gender NRMs and cyberspace NRMs and the law the Anti Cult Movement Swedenborg Jung Teilhard de Chardin Lovelock Gurdjieff al Banna Qutb The marked global approach and comprehensiveness of the encyclopedia enable an appreciation of the innovative energy of NRMs of their extraordinary diversity and the often surprising ways in which they can propagate geographically The most ambitious publication of its sort the Encyclopedia of New Religious Movements is a major addition to the reference literature for students and researchers of the field in religious studies and the social sciences Entries are cross referenced with short bibliographies for further reading There is a full index **The A to Z of New Age Movements** Michael York, 2009-06-17 The decline of institutionalized religion in the increasingly secularized West has been offset by the contemporary spiritual development understood in the form of emerging New Age movements This reference presents the potpourri of spiritual and psycho physical therapeutic practices associated with this affirmation of the individual s spiritual freedom the expectation of a future golden age the emphasis on self development and the holistic pluralism that sets the dominant pulse for innovative spirituality in the twenty first century The A to Z of New Age Movements furnishes profiles and explanations of New Age spokespeople and leaders of a range of human potential and self help practices of countercultural spiritual developments and of different groups and organizations that identify as New Age The dictionary consists of over 240 individual entries along with an introduction that describes the historical foundations of the New Age orientation and its relation with contemporary Western paganism It also presents the sociological dimension of New Age expression as well as the kinds of criticism with which the New Age identity must contend There is both a New Age Chronology and a bibliography also included **Children of the New Age** Steven Sutcliffe, 2003 As the first true social history of New Age culture this presents an unrivalled overview of the diverse varieties of New Age belief and practise from

the 1930s to the present day **Astrology and Popular Religion in the Modern West** Nicholas Campion, 2016-04-15 This book explores an area of contemporary religion spirituality and popular culture which has not so far been investigated in depth the phenomenon of astrology in the modern west Locating modern astrology historically and sociologically in its religious New Age and millenarian contexts Nicholas Campion considers astrology's relation to modernity and draws on extensive fieldwork and interviews with leading modern astrologers to present an invaluable contribution to our understanding of the origins and nature of New Age ideology This book challenges the notion that astrology is either marginal or a feature of postmodernism Concluding that astrology is more popular than the usual figures suggest Campion argues that modern astrology is largely shaped by New Age thought influenced by the European Millenarian tradition that it can be seen as an heir to classical Gnosticism and is part of the vernacular religion of the modern west The Speech of the Grail Linda Sussman, 1995 Storyteller and ceremonialist Linda Sussman explores how to speak in a new way that is one that heals and transforms She takes the epic story of the grail as told by Wolfram von Eschenbach in Parzival as her guide This tale weaves together Celtic Oriental Christian Arthurian and alchemical sources Linda Sussman sees Parzival as depicting the path of initiation to healing speech to doing the truth in word and deed First she tells the story in a beautiful way allowing the reader to reproduce within themselves the potent inner pictures of the text Then she shows that it is not so much a path toward perfection as the recovery of a right relationship to our imperfections She shows too that it is a path in which male and female aspects work together in the overcoming of evil Re-Imagining Nature Alister E. McGrath, 2016-04-01 Reimagining Nature is a new introduction to the fast developing area of natural theology written by one of the world's leading theologians The text engages in serious theological dialogue whilst looking at how past developments might illuminate and inform theory and practice in the present This text sets out to explore what a properly Christian approach to natural theology might look like and how this relates to alternative interpretations of our experience of the natural world Alister McGrath is ideally placed to write the book as one of the world's best known theologians and a chief proponent of natural theology This new work offers an account of the development of natural theology throughout history and informs of its likely contribution in the present This feeds in current debates about the relationship between science and religion and religion and the humanities Engages in serious theological dialogue primarily with Augustine Aquinas Barth and Brunner and includes the work of natural scientists philosophers of science and poets **The Cambridge Companion to New Religious Movements** Olav Hammer, Mikael Rothstein, 2012-08-30 This volume addresses the key features of new religions such as Scientology the Moonies and Jihadist movements from a systematic comparative perspective **The Oxford Handbook of New Religious Movements** James R Lewis, 2008-07-17 The Oxford Handbook of New Religious Movements both covers the current state of the field and breaks new ground Its contributors drawn from both sociology and religious studies are leading figures in the study of NRMs The Kingdom of God and the Yellow Barn Church Doug

Hickerson,2006 All his life author Doug Hickerson repeated Thy Kingdom come in the Lord s Prayer Yet God s kingdom seemed irrelevant to him even as a seminary student and a church layman Hickerson was a liberal Protestant active in a mainline denominational church and in community causes He became curious about spiritual paths to God beyond the Church While in his midfifties and still active in his church he started a spiritual journey that included exploring other religions and spirituality Steeped in the popular New Age spirituality of the 1990s he wrote about the coming new millennium He felt that humankind was evolving spiritually and was headed for an enlightened utopia the Age of Aquarius His humanistic visions ended abruptly when he met families who belonged to the yellow barn church in his village In their fellowship it became clear that God not man is in control and lovingly rules our destiny He awakened to the Kingdom of God present now on earth with its fulfillment yet to come At age sixty eight Hickerson s life changing experience in the evangelical Church and in God s kingdom is deeply personal and grounded in the Bible and solid theology The warm and at times humorous narrative in *The Kingdom of God and the Yellow Barn Church* details God s providence and promptings over Hickerson s lifetime

Historical Dictionary of New Age Movements Michael York,2004 The Historical Dictionary of New Age Movements examines various New Age concepts spokespeople and leaders a range of human potential and self help practices countercultural spiritual developments and different groups and organizations that identify themselves as New Age without judging or categorizing them More than 240 entries make this dictionary a valuable resource for students practitioners and serious academics

BOOK JACKET The Inner Life of Krishnamurti Aryel Sanat,2013-11-01 Aryel Sanat s meticulously researched and cogently argued exploration of Krishnamurti s inner life and experiences explodes a number of popular myths about Krishnamurti particularly that he denied the existence of the Theosophical Masters and disdained the esoteric side of the spiritual path Rather Sanat persuasively demonstrates Krishnamurti had a rich and intense esoteric life Moreover the truths of the Ancient Wisdom as revealed through the Masters were a reality to Krishnamurti every day of his life from his boyhood until his death The real story of Krishnamurti s inner life is shown to have critical implications for our understanding of Krishnamurti s life and ideas and for our views of Theosophy Buddhism the teachings of Gurdjieff indeed the entirety of contemporary spiritual thought

John Warwick Montgomery's Legal Apologetic Ross Clifford,2016-01-22 Dr Montgomery is one of our leading Christian apologists His writings have influenced several generations of apologists from around the globe His debates are legendary This book purports to break new ground apologetically as it assesses Dr Montgomery s work It focuses on his legal historical apologetic and in the process reframes it for both for the tough minded and the tender hearted It shows not only the rationality of Montgomery s work but also that his writings pave the way for an apologetic to New Age followers and to those who place experience before reason A special feature of this analysis concerns Montgomery s apologetic insights on the occult and paganism This book also breaks new ground as the legal apologetic model has not been previously assessed it illustrates that a juridical apologetic style has a rich

history dating back to the Gospels themselves The present work should thus be of particular interest to apologists theologians philosophers of religion pastors and all who are concerned to share the legal historical fact of the Resurrection of Jesus together with its relevance in a secular age **Wonder Shows** Fred Nadis,2005-01-13 In *Wonder Shows* Fred Nadis offers a colorful history of these traveling magicians inventors popular science lecturers and other presenters of miracle science who revealed science and technology to the public in awe inspiring fashion The book provides an innovative synthesis of the history of performance with a wider study of culture science and religion from the antebellum period to the present

Perils of the Soul John R. Haule,1999-01-01 In this text join Jungian analyst John Haule on a tour of New Age beliefs and practices to reach a comprehensive historical perspective that shows just how far from new the New Age actually is **An Ecology of Communication** William Homestead,2021-04-20 *An Ecology of Communication* addresses an ecological and communicative dilemma the universe earth and socio cultural life world are resoundingly dialogic yet we have created modern and postmodern cultures largely governed by monologue This book is indispensable reading for scholars and students of communication ecology and social sciences as it moves readers beyond the anthropocentric bias of communication study toward a listening based model of communication an essential move for discerning fitting responses and the call to responsibility in an age of ecocrisis
