Reinventar la democracia Boaventura de Sousa Santos, 2004 *The Routledge Handbook to the Political Economy and Governance of the Americas* Olaf Kaltmeier, Anne Tittor, Daniel Hawkins, Eleonora Rohland, 2020-01-09 This handbook explores the political economy and governance of the Americas placing particular emphasis on collective and intertwined experiences Forty six chapters cover a range of Inter American key concepts and dynamics The flow of peoples goods resources knowledge and finances have on the one hand promoted interdependence and integration that cut across borders and link the countries of North and South America including the Caribbean together On the other hand they have contributed to profound asymmetries between different places The nature of this transversally related and multiply interconnected hemispheric region can only be captured through a transnational multidisciplinary and comprehensive approach This handbook examines the direct and indirect political interventions geopolitical imaginaries inequalities interlinked economic developments and the forms of appropriation of the vast natural resources in the Americas Expert contributors give a comprehensive overview of the theories practices and geographies that have shaped the economic dynamics of the region and their impact on both the political and natural landscape This multidisciplinary approach will be of interest to a broad array of academic scholars and students in history sociology geography economics and political science as well as cultural postcolonial environmental and globalization studies *Critical Geopolitics and Regional (Re)Configurations* Heriberto Cairo, Breno Bringel, 2019-05-31 This book seeks to develop our understanding of the contemporary geopolitical reconfigurations of two regions of the world system with high cultural affinity and traditional close relations Latin America and Europe Relations between Latin America and Europe have been interpreted generally in the social sciences as synonyms of interstate relations However although States remain the most important actor in the geopolitical scene they have been deeply reconfigured in recent decades impacted by transnational dynamics politics and spaces This book highlights interregional relations and transnational dynamics between Latin America and Europe from a critical geopolitics perspective promoting a new look for interregional relations which encompasses international cooperation and development global policies borders inequalities and social movements It brings attention to the relevance of interregionalism in the current geopolitical reconfiguration of the world system but also argues for systematic inclusion of relevant new social actors and imaginaries in this traditional sphere of states These social actors particularly social movements and practices of contestation are developing not only international bonds but a new transnational field where networks defy traditional territorial orders This volume seeks to generate a new discussion among scholars of geopolitics international relations social theory and social movement studies by encouraging a development of an interregional and transnational perspective of the two regions

Empire and Imperialism Atilio Borón, 2005-02 In 2001 the Harvard scholar Michael Hardt and the independent Italian left wing intellectual Toni Negri published a modern critique of imperialism The book was widely criticized by left wing

intellectuals who felt that the book posed unfortunate implications for political resistance to imperialism and that it ignored both the experience and intellectual analysis of thinkers from the South. Atilio Boron is one of those. He argues that Hardt and Negri's concept of imperialism without an address though well intentioned ignores most of the fundamental parameters of imperialism. The nation state far from weakening remains a crucial agent of capitalism deploying a large arsenal of economic weaponry to protect and extend its position and actively promoting globalization in its own interests.

Pedagogía de la elección Úcar Martínez, Xavier, 2016-10-15 Un pedagogo o educador es un conector un mediador que ayuda y acompaña a las personas y comunidades en sus procesos de articulación de prácticas y realidades. La tarea del educador es la de acompañar y ayudar al otro a ser. Pero siempre es el otro quien ha de ser quien ha de elegir quiénes quiere ser y quiénes quiere y puede hacer en el marco de sus particulares circunstancias. La elección no es sino una forma de acción que lleva la firma del sujeto y por eso mismo siempre retorna al sujeto. Si la elección es lo que más inequívocamente constituye a una persona concreta y las personas nos hacemos en la vida cualquier pedagogo ya sea individual o social es antes que nada una pedagogo de la elección y una pedagogo de la vida y para la vida.

Globalization and the Decolonial Option Walter D. Mignolo, Arturo Escobar, 2013-10-18 This is the first book in English profiling the work of a research collective that evolved around the notion of coloniality understood as the hidden agenda and the darker side of modernity and whose members are based in South America and the United States. The project called for an understanding of modernity not from modernity itself but from its darker side: coloniality and proposes the decolonization of knowledge as an epistemological restitution with political and ethical implications. Epistemic decolonization or decoloniality becomes the horizon to imagine and act toward global futures in which the notion of a political enemy is replaced by intercultural communication and towards an other rationality that puts life first and that places institutions at its service rather than the other way around. The volume is profoundly interdisciplinary with authors writing from many intellectual transdisciplinary and institutional spaces. This book was published as

Alexander, Anna Lund, Andrea Voyer, 2020-01-07 The civil sphere is a distinctively democratic field in modern societies one that sustains universalizing cultural aspirations and organizational structures and that has tense and uncertain boundaries

with other spheres of social life like the economy religion family and state Unlike the latter which are more particularistic and hierarchical in character the civil sphere defines itself in terms of solidarity the feeling of being connected with every other person in the collectivity The utopian ideals of democratic solidarity shape every modern society even if they are often compromised by the messy realities of social life This volume uses the theory of the civil sphere to shed new light on Nordic societies while at the same time drawing on the distinctive experiences of the Nordic nations to reflect on and advance the theory of the civil sphere Nordic societies have long been admired for creating a distinctive form of social democracy but this admirable achievement has not been well conceptualized theoretically Most attempts to explain Nordic social democracy focus on material and organizational factors This volume by contrast emphasizes the cultural foundations and characteristics of social democracy demonstrating how civil sensibilities are necessary for the creation of an egalitarian and democratic state Nordic civil spheres however are not only pro civil but also white in color European in ethnicity secular in character and gender equal in a subtly restrictive manner Such primordialization of state civility is vividly on display in the sometime tense relationships that develop among natives and foreigners in Nordic countries relationships that expose the primordial undersides of the social democratic codes and civil values that constitute the Nordic civil sphere A major contribution to the theory of the civil sphere and to our understanding of the cultural and normative underpinnings of social and political life this volume will be of particular interest to students and scholars of sociology and politics
