Zivkovic**

Reinventing Revolution:

Reinventing Revolution Tim Jordan, 1994 This text discusses social movements and socialist politics It looks at the changing face of socialist politics examining the concepts of difference value and emancipatory political processes

Revolution in the Making of the Modern World John Foran, David Lane, Andreja Zivkovic, 2007-11-05 Featuring contributions from leading thinkers on revolution it combines theoretical concerns with case studies of individual revolutions to question whether ideas of revolution are still relevant in the postmodern and globalized world of the twenty first century

Social Movements in India Raka Ray, Mary Fainsod Katzenstein, 2005-03-25 Social movements have played a vital role in Indian politics since well before the inception of India as a new nation in 1947 During the Nehruvian era poverty alleviation was a foundational standard against which policy proposals and political claims were measured at this time movement activism was directly accountable to this state discourse In the first volume to focus on poverty and class in its analysis of social movements a group of leading India scholars shows how social movements have had to change because poverty reduction no longer serves its earlier role as a political template With distinctive chapters on gender lower castes environment the Hindu Right Kerala labor farmers and biotechnology *Social Movements in India* will be attractive to students and researchers in many different disciplines

Decolonizing Anarchism Maia Ramnath, 2012-01-01 *Decolonizing Anarchism* examines the history of South Asian struggles against colonialism and neocolonialism highlighting lesser known dissidents as well as iconic figures What emerges is an alternate narrative of decolonization in which liberation is not defined by the achievement of a nation state Author Maia Ramnath suggests that the anarchist vision of an alternate society closely echoes the concept of total decolonization on the political economic social cultural and psychological planes *Decolonizing Anarchism* facilitates more than a reinterpretation of the history of anticolonialism it also supplies insight into the meaning of anarchism itself Praise for *Decolonizing Anarchism* Maia Ramnath offers a refreshingly different perspective on anticolonial movements in India not only by focusing on little remembered anarchist exiles such as Har Dayal Mukerji and Acharya but more important highlighting the persistent trend that sought to strengthen autonomous local communities against the modern nation state A superbly original book Partha Chatterjee author of *Lineages of Political Society* *Studies in Post colonial Democracy* Ramnath audaciously reframes the dominant narrative of Indian radicalism by detailing its explosive and ongoing symbiosis with decolonial anarchism Dylan Rodr guez author of *Suspended Apocalypse* *White Supremacy Genocide and the Filipino Condition*

Reinventing Revolution Gail Omvedt, 1993 **New Critical Theory** William S. Wilkerson, Jeffrey Paris, 2001-11-19 *New Critical Theory* surveys contemporary leftist thought while introducing the tenets of this new form of critical theory Beginning with an exploration of the relationship between Marxism Habermas and the politics of identity William S Wilkerson and Jeffrey R Paris present a collection that critiques the globalization of capital The development of personality appears as subject to socialized standards in an age of global capitalism Only after scrutinizing

the effects of such a system can liberation be found The essays within join Critical Theory with postmodern insights on language and subjectivity to provide a more comprehensive view of emancipatory social theory Through this and other reflections on critical race gender and queer theories Wilkerson and Paris emerge with an encompassing volume defining New Critical Theory **Mexico's Rebellious Afterlives** Olof Kjell Oscar Ohlson, 2022-07-12 Mexico's Rebellious Afterlives Armed Uprisings and Activism in the Narco War examines nonviolent activism and armed uprisings in the narco war Olof Kjell Oscar Ohlson argues that relatives of Mexico's many victims of violence often without earlier experiences of human rights advocacy become activists protesting violence or form self armed citizens police to resist state capitalist and criminal violence Ohlson develops innovative theories on political afterlives and rituals of rebellion demonstrating how political street protests transform over time to become annual commemorative events at new memorial sites for the disappeared

Revolutionary Cuba Luis Martínez-Fernández, 2014-09-16 This is the first book in more than three decades to offer a complete and chronological history of revolutionary Cuba including the years of rebellion that led to the revolution Beginning with Batista's coup in 1952 which catalyzed the rebels and bringing the reader to the present day transformations initiated by Raúl Castro Luis Martínez Fernández provides a balanced interpretive synthesis of the major topics of contemporary Cuban history Expertly weaving the myriad historic social and political forces that shaped the island nation during this period Martínez Fernández examines the circumstances that allowed the revolution to consolidate in the early 1960s the Soviet influence throughout the latter part of the Cold War and the struggle to survive the catastrophic Special Period of the 1990s after the collapse of the U S S R He tackles the island's chronic dependence on sugar production which started with the plantations centuries ago and continues to shape culture and society He analyzes the revolutionary pendulum that continues to swing between idealism and pragmatism focusing on its effects on the everyday lives of the Cuban people and bucking established trends in Cuban scholarship Martínez Fernández systematically integrates the Cuban diaspora into the larger discourse of the revolution Concise well written and accessible this book is an indispensable survey of the history and themes of the socialist revolution that forever changed Cuba and the world **Marxism and Social Movements**, 2013-06-20 Marxism and Social Movements is the first sustained engagement between social movement theory and Marxist approaches to collective action The chapters collected here by leading figures in both fields discuss the potential for a Marxist theory of social movements explore the developmental processes and political tensions within movements set the question in a long historical perspective and analyse contemporary movements against neo liberalism and austerity Exploring struggles on six continents over 150 years this collection shows the power of Marxist analysis in relation not only to class politics labour movements and revolutions but also anti colonial and anti racist struggles community activism and environmental justice indigenous struggles and anti austerity protest It sets a new agenda both for Marxist theory and for movement research Contributors include Paul Blackledge Marc Blecher Patrick Bond Chik Collins Ralph Darlington Neil Davidson Ashwin Desai Jeff Goodwin

Chris Hesketh Gabriel Hetland Elizabeth Humphrys Christian H gsbjerg David McNally Trevor Ngwane Heike Schaumberg and Hira Singh Mobilizing Religion and Gender in India Nandini Deo, 2015-10-30 Religious nationalists and women s activists have transformed India over the past century They debated the idea of India under colonial rule shaped the constitutional structure of Indian democracy and questioned the legitimacy of the postcolonial consensus as they politicized one dimension of identity Using a historical comparative approach the book argues that external events activist agency in strategizing and the political economy of transnational networks explain the relative success and failure of Hindu nationalism and the Indian women s movement rather than the ideological claims each movement makes By focusing on how particular activist strategies lead to increased levels of public support it shows how it is these strategies rather than the ideologies of Hindutva and feminism that mobilize people Both of these social movements have had decades of great power and influence and decades of relative irrelevance and both challenge postcolonial India s secular settlement its division of public and private The book goes on to highlight new insights into the inner dynamics of each movement by showing how the same strategies grassroots education electoral mobilization media management donor cultivation lead to similarly positive results Bringing together the study of Hindu nationalism and the Indian women s movement the book will be of interest to students and scholars of South Asian Religion Gender Studies and South Asian Politics *Rural Chiapas Ten Years after the Zapatista Uprising* Sarah Washbrook, 2020-10-28 Considered the most significant recent agrarian movement in Mexico the 1994 EZLN uprising by the indigenous peasantry of Chiapas attracted world attention Timed to coincide with the signing of the NAFTA agreement the Zapatista Army of National Liberation reasserted the value of indigenous culture and opposed the spread of neo liberalism associated with globalization The essays in this collection examine the background to the 1994 uprising together with the reasons for this and also the developments in Chiapas and Mexico in the years since Among the issues covered are the history of land reform in the region the role of peasant and religious organizations in constructing a new politics of identity the participation in the rebellion of indigenous women and changing gender relations plus the impact of the Zapatistas on Mexican democracy The international group of scholars contributing to the volume include Sarah Washbrook George and Jane Collier Antonio Garc a de Le n Daniel Villafuerte Sol s Gemma van der Haar Mercedes Olivera Marco Estrada Saavedra Heidi Moksnes Neil Harvey and Tom Brass This book was previously published as a special issue of *The Journal of Peasant Studies* *Human Rights and Social Movements* Neil Stammers, 2009-04-20 This book champions social movements as one of the most influential agents that shape our conceptions of human rights It argues that human rights cannot be understood outside of the context of social movement struggles It explains how much of the literature on human rights has systematically obscured this link consequently distorting our understandings of human rights Neil Stammers shows how human rights can be understood He suggests that what he calls the paradox of institutionalisation can only be addressed through a recognition of the importance of human rights arising out of grassroots activism and through

processes of institutional democratisation **Rethinking Latin America** R. Munck, 2015-12-24 In a subtle but powerful reading of the shifting relationships between development hegemony and social transformation in post independence Latin America Ronaldo Munck argues that Latin American subaltern knowledge makes a genuine contribution to the current search for a social order which is sustainable and equitable Art and Postcapitalism Dave Beech, 2019-10-20 Artistic labour was exemplary for Utopian Socialist theories of attractive labour and Marxist theories of nonalienated labour but the rise of the anti work movement and current theories of fully automated luxury communism have seen art topple from its privileged place within the left's political imaginary as the artist has been reconceived as a prototype of the precarious 24/7 worker Art and Postcapitalism argues that art remains essential for thinking about the intersection of labour capitalism and postcapitalism not insofar as it merges work and pleasure but as an example of noncapitalist production Reassessing the contemporary politics of work by revisiting debates about art technology and in the nineteenth and twentieth century Dave Beech challenges the aesthetics of labour in John Ruskin William Morris and Oscar Wilde with a value theory of the supersession of capitalism that sheds light on the anti work theory by Silvia Federici Andre Gorz Kathi Weeks and Maurizio Lazzarato as well as the technological Cockayne of Srnicek and Williams and Paul Mason Formulating a critique of contemporary postcapitalism and developing a new understanding of art and labour within the political project of the supersession of value production this book is essential for activists scholars and anyone interested in the real and imagined escape routes from capitalism **Global Geographies of Post-Socialist Transition** Tassilo Herrschel, 2006-09-27 Since the formal raising of the Iron Curtain there has been much interest in post socialism and the process of post socialist transition This timely book provides a systematic review and analysis of the process of transition Herrschel explores recent theories concepts and debates on post socialism and the notion of transition provides a systematic topical account of post socialist transitions around the world as evidence by social economic and political processes examines case studies of post socialist transition in east and Central Europe the former Soviet Union Asia and South East Asia and Africa and Latin America brings together theoretical and practical aspects by examining what lessons can be learned from recent experiences Global Geographies of Post Socialist Transition provides a truly global comparative account of the meaning and processes of post socialist transition and will be an invaluable resource for all those interested in this area Rescuing History from the Nation Prasenjit Duara, 1996-11-20 Prasenjit Duara offers the first systematic account of the relationship between the nation state nationalism and the concept of linear history Focusing primarily on China and including discussion of India Duara argues that many historians of postcolonial nation states have adopted a linear evolutionary history of the Enlightenment colonial model As a result they have written repressive exclusionary and incomplete accounts The backlash against such histories has resulted in a tendency to view the past as largely constructed imagined or invented In this book Duara offers a way out of the impasse between constructionism and the evolving nation he redefines history as a series of multiple often

conflicting narratives produced simultaneously at national local and transnational levels In a series of closely linked case studies he considers such examples as the very different histories produced by Chinese nationalist reformers and partisans of popular religions the conflicting narratives of statist nationalists and of advocates of federalism in early twentieth century China He demonstrates the necessity of incorporating contestation appropriation repression and the return of the repressed subject into any account of the past that will be meaningful to the present Duara demonstrates how to write histories that resist being pressed into the service of the national subject in its progress or stalled progress toward modernity **Toward**

a New Socialism Anatole Anton, Richard Schmitt, 2007-01-01 Toward a New Socialism offers a critical analysis of capitalism's failings and the imminent need for socialism as an alternative form of government This book demonstrates that capitalism is destructive and limiting to the many ongoing campaigns to increase freedom equality and security Dr Richard Schmitt joins with Dr Anatole Anton to compile a volume of essays exploring the benefits and consequences of a socialist system as an avenue of increased human solidarity and ethical principle The essays offer a new definition of socialism by investigating the theories and principles of socialism its influence on social institutions and its role in work dynamics Raising important and unavoidable questions for contemporary society Toward a New Socialism is a vital resource for scholars of political theory and the globalization movement as well as a necessary read for every citizen under capitalism **Contemporary Political**

Agency Bice Maiguashca, Raffaele Marchetti, 2013-08-21 This book explores and critically reflects on the theory and practice of political agency in contemporary global politics In light of the changing relationship between the state the market and the society it seeks to map both theoretically and empirically contemporary forms of global political agency This book reflects on the theory and practice of political agency in contemporary global politics More specifically it empirically analyses a range of different forms of political agency and explores their significance for understanding and enacting global politics Reflecting the efforts of scholars from a variety of disciplines from political theory and Sociology to Geography and International Relations it brings into conversation a wide spectrum of theoretical approaches including Marxism feminism post structuralism and historical institutionalism The contributors compare a range of forms of political agency exploring their significance for the theory and practice of global politics and reflect on the tensions and synergies generated by recent efforts to conceptualise them Demonstrating an innovative and interdisciplinary approach Contemporary Political Agency will be of interest to students and scholars of international relations sociology political economy and political theory

Globalization and Postmodern Politics Roger Burbach, 2001-01-20 The book shows how wealth and power are concentrated in the hands of a transnational elite while ever increasing numbers of people are being marginalised Institutions such as the World Trade Organisation and the International Monetary Fund are intent upon exercising a new hegemony over individuals as the role of the traditional nation state is transformed At the centre of this power shift is a group of high tech robber barons who dominate the Information Age and exploit the technologies of globalisation for their

own narrow interests Roger Burbach explores the rise of the new grass roots oppositional movements around the world Manifest in such diverse struggles as the uprising of the Zapatistas in Mexico and the battle of Seattle against the World Trade Organisation this new postmodern politics is de centred and has little interest in the old ideologies that dominated much of the twentieth century The final section of the book contextualises postmodern politics by drawing on contemporary examples The authors discuss the demise of socialist and protosocialist experiments in Chile Grenada Nicaragua and Cuba and the emergence of postmodern movements in Latin America The final two chapters take a specific look at the Zapatista movement and its significance for revolutionary struggles around the world Chicanx Utopias Luis Alvarez, 2022-02-22

Amid the rise of neoliberalism globalization and movements for civil rights and global justice in the post World War II era Chicanxs in film music television and art weaponized culture to combat often oppressive economic and political conditions They envisioned utopias that even if never fully realized reimaged the world and linked seemingly disparate people and places In the latter half of the twentieth century Chicanx popular culture forged a politics of the possible and gave rise to utopian dreams that sprang from everyday experiences In Chicanx Utopias Luis Alvarez offers a broad study of these utopian visions from the 1950s to the 2000s Probing the film *Salt of the Earth* brown eyed soul music sitcoms poster art and borderlands reggae music he examines how Chicanx pop culture capable of both liberation and exploitation fostered interracial and transnational identities engaged social movements and produced varied utopian visions with divergent possibilities and limits Grounded in the theoretical frameworks of Walter Benjamin Stuart Hall and the Zapatista movement this book reveals how Chicanxs articulated pop cultural utopias to make sense of challenge and improve the worlds they inhabited

Reinventing Revolution Book Review: Unveiling the Power of Words

In a global driven by information and connectivity, the power of words has be evident than ever. They have the capacity to inspire, provoke, and ignite change.
