## **Reinventing The University:**

**Reinventing the University** Jan D. Reinventing The University Christopher Schroeder, 2001-03 Christopher Schroeder spends almost no time disputing David Bartholomae's famous essay but throughout ReInventing the University he elaborates an approach to teaching composition that is at odds with the tradition that essay has come to represent On the other hand his approach is also at odds with elements of the pedagogies of such theorists as Berlin Bizzell and Shor Schroeder argues that for students postmodern instability in literacy and meaning has become a question of the legitimacy of current discourse of education Schroeder is committed then to constructing literacies jointly with students and by so doing to bringing students to engage more deeply with education and society **Reinventing the Research University** Weber L. *Psychosocial Pathways Towards Reinventing the South African University* Sabrina Liccardo,2020-11-02 This book proposes a conceptual empirical framework for exploring forms of continuity and change along psychosocial pathways in South African universities It illustrates how the psychosocial pathways are grounded in the symbolic narratives and knowledges of young scientists engineers and architects all interlocutors in the research from which this book is based Alala Mamoratwa Welile Odirile Kaiya Amirah Takalani Nosakhele Naila Ambani Khanyisile Itumeleng Ethwasa and Kgnaya provide collective standpoints in the multiplicities within and between the lived lives and told stories of young Black South African women in Science Technology Engineering and Mathematics STEM fields In doing so this compelling work advances possibilities for demythologising scientific endeavour as a white male achievement and shifting knowledge communities across gendered racialised class and national divides This book presents an innovative narrative methodology utilising the myth of the Minotaur to examine the state of the university at the heart of the hierarchical labyrinth in post apartheid South Africa Throughout the work the author wrestles with and

self reflexively highlights her own positionality as a white middle class South African woman to examine how this affects the production of this research in ways which serve to preserve the colonial knowledge system With the rise of the Rhodes Must Fall and Fees Must Fall student movement in South Africa demanding for the fall of institutionalised racial hierarchies the author uses the cover image of narrative formations in the spirit of exploration to think with and through undulating networked forms that could possibly forge new psychosocial pathways towards decolonising and reinventing South African universities This work offers a unique conceptual and methodological resource for students and scholars of psychosocial and narrative theory as well as those who are concerned about the politics of higher education both in South Africa and in other contexts around the world

Conceptualising the Digital University Bill Johnston, Sheila MacNeill, Keith Smyth, 2019-01-16 Despite the increasing ubiquity of the term the concept of the digital university remains diffuse and indeterminate This book examines what the term digital university should encapsulate and the resulting challenges possibilities and implications that digital technology and practice brings to higher education Critiquing the current state of definition of the digital university construct the authors propose a more holistic integrated account that acknowledges the inherent diffuseness of the concept The authors also question the extent to which digital technologies and practices can allow us to re think the location of universities and curricula and how they can extend higher education as a public good within the current wider political context Framed inside a critical pedagogy perspective this volume debates the role of the university in fostering the learning environments skills and capabilities needed for critical engagement active

open participation and reflection in the digital age This pioneering volume will be of interest and value to students and scholars of digital education as well as policy makers and practitioners Prefiguring the Idea of the University for a Post-Capitalist Society Gary Saunders,2023-12-06 Using an Open Marxist theoretical framework this book provides a critique of the neoliberal reforms made to higher education since the late 1970s and the impact this has had on the sector Rather than arguing for a return to the idea of the public university the book argues that public and private models of higher education are both forms of capitalist accumulation and have historically perpetuated forms of oppression exploitation and discrimination thus a more radical solution that addresses both the current crisis of higher education and the contradictory and exploitative nature of late capitalism is required This book critically examines the autonomous learning spaces that emerged out of the UK student protests 2009 2010 and documents what can be learned from them to prefigure the idea of the university for a post capitalist society **The Search for New Governance of Higher Education in Asia K.**

**Reinventing Richard Nixon** Daniel E. Frick, 2008 Examining Nixon's autobiographies and political memorabilia Frick offers far reaching perceptions not only of the man but of Nixon's version of himself contrasted with those who would interpret him differently He cites reinventions of Nixon from the late 1980s particularly the museum at the Richard Nixon Library and Birthplace to

demonstrate the resilience of certain national mythic narratives in the face of liberal critiques And he recounts how celebrants at Nixon s state funeral at which Bob Dole s eulogy depicted a God fearing American hero attempted to bury the sources of our divisions over him rendering in some minds the judgment of redeemed statesman to erase his status as disgraced president With dozens of illustrations Nixon posing with Elvis the National Archives most requested photo Nixonian cultural artifacts classic editorial cartoons no other book collects in one place such varied images of Nixon from so many diverse media These reinforce Frick s probing analysis to help us understand why we disagree about Nixon and why it matters how we resolve our disagreements **BOOK JACKET**      **Inventing the World Grant University** Steven
