fastest rising star But a jarring collision with the outfield wall in St Louis sent his season into a tailspin After spending the next three years in the Army he would come back to lead the league in stolen bases battling dizziness and headaches throughout the season Ten more collisions with the outfield wall each adding a shoulder separation muscle tear fracture contusion or concussion to his long list of injuries would make him a frequent visitor to the disabled list and keep Reiser from ever again playing a full season This biography provides the full story on Reiser with special emphasis given to the highlights of Reiser s playing days and the factors that kept him from fulfilling his enormous potential In addition the author discusses the broader situation of major league baseball including Jackie Robinson s entrance on the National League scene league jumping and the subsequent blackballing of players and the conditions under which big leaguers of the era lived worked and played

Self-Preservation at the Center of Personality Ralf-Peter Behrendt,2016-10-01 The book discusses personality as a unified set of evolved and culturally developed structures that serves a single and definable purpose to maintain the individual s safety in the context of dyadic relationships group processes and more abstract and fluid social configurations The infant mother relationship remains the blueprint for modes of relating to the social surround at whatever level of complexity and for approximating the sense of safety originally provided by the mother The personality is organized around the need to maintain self esteem thereby preserving the individual s sense of safety and warding off deep seated paranoid anxiety which signals the potential of annihilation of the self Paranoid anxiety is the counterpart of intraspecific aggression and the potential of the group as a whole to attack and annihilate the individual Paranoid anxiety which was recognized by Melanie Klein as playing a critical role in infant development is not overcome as development proceeds but remains latent buried under layers of

personality organization that are essentially concerned with sourcing recognition and approval from the social environment thereby inhibiting others aggression and guarding against annihilation of the self The book adds to self psychology Kohut by showing how the principle of self preservation underpins all aspects of normal and abnormal character dynamics It integrates self psychology with other branches psychoanalytic theory and revives the link between psychoanalysis and ethology Ethology Lorenz Hass Eibl Eibesfeldt has provided insights into how interrelated intraspecific aggression and appeasement gestures are critically important for the evolution of social behavior in higher animals as well as for cultural evolution in humans insights that allow more generally for a bridging of the gap between psychoanalysis and the biology of social behavior Furthermore an evolutionary approach to character dynamics and related social phenomena will have important implications for understanding psychopathological vulnerabilities and self perpetuating processes in mental illness

Jesus in Solidarity with His People William E. Reiser, 2000 Many men and women have already made the prayerful discovery that the experience of solidarity with one another and the search for God are mysteriously linked Reiser states that the word solidarity provides a contemporary key to understanding Mark's message about Jesus life and mission The Bible repeatedly demonstrates that the story of God entails the story of God's people especially the poor and defenseless ones among them and the history of God's people becomes the story of Israel's God One cannot adequately understand the interior life of Jesus without taking into account the life of the people of God in its social cultural political and religious dimensions Jesus lived and died in solidarity with his people He died for them because he had lived for them In *Jesus in Solidarity with His People* Reiser examines important questions that Mark raises questions that bear heavily on adult Christian spirituality He demonstrates that what is of importance in reading and understanding Mark's Gospel is not our mindfulness of how much God loves the people but our knowledge of how deeply we love the people of God It is our love for the world that is required to bring this gospel this good news of Christ risen this Easter story to life Chapters are The Theological Matters A Believer from the Beginning Of Calling and Following The Authority to Forgive What God Ordains A Kingdom of Throwaways Paying the Emperor's Tax A World of Parables Does Mark Encourage a Cult of Suffering In the Company of Prophets Can God Be Trusted What Sort of God Would Raise the Dead and The Futility of Secrets William Reiser SJ PhD is professor of theology at Holy Cross College
