Rejecting The Da Vinci Code:

Rejecting the Da Vinci Code, 2005 The Da Vinci Deception Erwin W. Lutzer, 2006 In this book respected bible teacher Erwin Lutzer gives you the facts behind the fiction in his reader friendly accessible style He exposes the myths behind these and other legends uncovers the historical distortions presented in the novel and equips you with the real story behind the story Outsider Theory Jonathan Eburne, 2018-09-18 A vital and timely reminder that modern life owes as much to outlandish thinking as to dominant ideologies What do the Nag Hammadi library Dan Brown's The Da Vinci Code speculative feminist historiography Marcus Garvey's finances and maps drawn by asylum patients have in common Jonathan P Eburne explores this question as never before in Outsider Theory a timely book about outlandish ideas Eburne brings readers on an adventure in intellectual history that stresses the urgency of taking seriously especially in an era of fake news ideas that might otherwise be discarded or regarded as errant unfashionable or even unreasonable Examining the role of such thinking in contemporary intellectual history Eburne challenges the categorical demarcation of good ideas from flawed wild or bad ones addressing the surprising extent to which speculative inquiry extends beyond the work of professional intellectuals to include that of nonprofessionals as well whether amateurs unfashionable observers or the clinically insane Considering the work of a variety of such figures from popular occult writers and gnostics to so called outsider artists and pseudoscientists Eburne argues that an understanding of its circulation and recirculation is indispensable to the history of ideas He devotes close attention to ideas and texts usually omitted from or marginalized within orthodox histories of literary modernism critical theory and continental philosophy yet which have long garnered the critical attention of specialists in religion science studies critical race theory and the history of the occult In doing so he not only sheds new light on a fascinating body of creative thought but also proposes new approaches for situating contemporary humanities scholarship within the history of ideas However important it might be to protect ourselves from bad ideas Outsider Theory shows how crucial it is for us to know how and why such ideas have left their impression on modern day thinking and continue to shape its evolution **The Da Vinci Code in the Academy** Bradley Bowers, 2009-03-26 As millions of readers worldwide react to Dan Brown's The Da Vinci Code so do many scholars The novel has become a proxy debate for two compelling scholarly and social issues of our time the feminist post feminist challenge to patriarchal authority and the textual construction of meaning and value Presenting the feminine as both dominant and sacred brings attention to every text which argues for dominance or divinity Traditional scholars are being challenged to defend their disciplines and practices to reassert the authority of their knowledge base Postmodern scholars are finding an opportunity to explain to the world at large how texts construct meaning and maintain power structures These essays examine resistance to the sacred feminine in religious cultural and literary histories Robert Davis explores the return of the goddess to academic and popular discussions Deanna Thompson examines the apocryphal evidence brought into the debate by the novel Rachel Wagner looks at the larger issue of postmodern textual

authority and how Brown's novel has brought Biblical interpretation to popular awareness Arlette Poland reviews current feminist and academic thinking on textual versus spiritual authority regarding the feminine divine Other essays identify the elusive and misunderstood sacred feminine in religion and literature in church teachings and practices in the variant Grail stories in the mystery genre itself Together these essays place the reaction to these issues into broader social and contemporary contexts
