**Judeo-Christian Appraisal of Major Theories of Truth** Joseph B. Onyango Okello, 2025-05-22 What is truth How should we define it Should we define it christologically as Jesus did when he revealed himself to Thomas as the embodiment of truth or should we appeal to philosophy for help This book explores possible answers to these questions More specifically the book offers a brief survey of how different philosophical theories have attempted to define truth After finding them somewhat incomplete the book shows how an adequate account of truth is given by the Judeo Christian tradition's view of omniscience By drawing from the rich tradition of the church fathers the book notes how naturalistic views of truth fail to account for the existence of truth prior to the evolution of the human mind This problem however is a non issue for a theistic account of truth and makes a strong case for the existence of objective truth even before the human mind was designed **The Problem of**

**Relativism in the Sociology of (Scientific) Knowledge** Richard Schantz, Markus Seidel, 2013-05-02 This volume comprises original articles by leading authors from philosophy as well as sociology in the debate around relativism in the

sociology of scientific knowledge Its aim has been to bring together several threads from the relevant disciplines and to cover the discussion from historical and systematic points of view Among the contributors are Maria Baghramian Barry Barnes Martin Endre Hubert Knoblauch Richard Schantz and Harvey Siegel Two Different Worlds Charles E. Garrison,1988 Challenging the assumption that the biblical text is absolutist this study renders the wall of division between Christian absolutism and cultural relativism indefensible Its encouraging argument draws upon sociology anthropology and analysis of the biblical text **Religion and the Sociology of Knowledge** Barbara Hargrove,1984 This is a collection of 17 essays presented at a seminar on the sociology of knowledge and religion at Iliff School of Theology The central theme of the volume is that one's particular place in society shapes the ways in which one thinks learns and responds to religion as to other factors in life Reason Relativism And God Joseph Runzo,1986-05-19 **The Theory of Relativity and a Priori Knowledge** Hans Reichenbach,Maria Reichenbach, **The Spirit of American Liberal Theology** Gary Dorrien,2023-09-05 The Spirit of American Liberal Theology is an interpretation of the entire U S American tradition of liberal theology A highly condensed and far more accessible summary of Gary Dorrien's three volume trilogy The Making of American Liberal Theology Westminster John Knox Press 2001 2003 and 2006 Dorrien here presses the argument that the most abundant diverse and persistent tradition of liberal theology is the one that blossomed in the United States and is still refashioning itself While discussions of English and German liberalism persist new material includes expanded treatment of the Black social gospel the Universalists developments into early 2020s and a robust expression of the author's post Hegelian liberal liberationist perspective **In the Beginning-- Creativity** Gordon D. Kaufman, NAME *From Belief to Knowledge* Neil Douglas,Terry Wykowski,2010-09-08 Belief is not knowledge but we tend to hold our beliefs as if they represent knowledge selecting whatever evidence is required to justify them And because humans tend to cling to their beliefs as truths organizations often ignore the need for change no matter how urgent that need From Belief to Knowledge Achieving and Sustaining an Adaptive C Religious Discovery, Faith, and Knowledge James Kellenberger,1972 The purpose of this book is to raise the possibilities of religious knowledge and religious discovery By religious knowledge and discovery I mean knowledge and discovery of God and by possibility I mean a viable possibility the kind that a new look under a new light finds I do not mean a minimal or a logical possibility Introduction **Knowledge - Genetic Foundations and Epistemic Coherence** Birte Schelling,2013-05-02 Since the 1960s there is a controversial discussion about the correct explication of the concept of knowledge in epistemology but until today no generally accepted solution to the problem of defining this concept has been found This book contributes to the discussion in epistemology by proposing a new explication of the concept of knowledge which is spelled out in terms of coherence The main thesis of this book is that a belief can be considered knowledge only if first it is true and second it coheres with the rest of the beliefs of the person holding the belief in an appropriate manner The explication draws on the ideas of Donald Davidson Laurence Bonjour and Keith Lehrer and

offers a new perspective on the old project of analyzing the concept of knowledge

**The Making of American Liberal Theology** Gary J. Dorrien, 2006-01-01 In this first of three volumes Dorrien identifies the indigenous roots of American liberal theology and demonstrates a wider longer running tradition than has been thought The tradition took shape in the nineteenth century motivated by a desire to map a modernist third way between orthodoxy and rationalistic deism atheism It is defined by its openness to modern intellectual inquiry its commitment to the authority of individual reason and experience its conception of Christianity as an ethical way of life and its commitment to make Christianity credible and socially relevant to modern people Dorrien takes a narrative approach and provides a biographical reading of important religious thinkers of the time including William E Channing Ralph Waldo Emerson Horace Bushnell Henry Ward Beecher Elizabeth Cady Stanton and Charles Briggs Dorrien notes that although liberal theology moved into elite academic institutions its conceptual foundations were laid in the pulpit rather than the classroom

**Knowledge and Belief** Frederick F. Schmitt, 2006-11-22 Knowledge from Plato onwards has been considered in relation to justified belief Current debate has centred around the nature of the justification and whether justified belief can be considered an internal or external matter Epistemological internalists argue that the subject must be able to reflect upon a belief to complete the process of justification The externalists on the other hand claim that it is only necessary to consider whether the belief is reliably formed and argue that the ability to know by reflection is not required for a justified belief In the historical section of this book the three most important epistemologists Plato Descartes and Hume as well as the ancient epistemologies of the stoics Academics and Pyrrhonians are considered In reconsidering the history of epistemology the author is led to argue against the view that internalism is historically dominant His critique of internalism is then developed into a sustained argument against many of its forms and he goes on to defend an externalist reliabilist epistemology

**The Science of Religion: A Defence** Donald Wiebe, 2018-10-16 Donald Wiebe Professor of Philosophy of Religion at Trinity College University of Toronto has spent much of his academic career arguing for a clear demarcation between Theology and Religious Studies The Science of Religion A Defence offers a brilliant overview of Professor Wiebe's contributions on methodology in the academic study of religion of the development of his thinking over time and of his intellectual commitment to a science of religion The work is divided into three parts The first part identifies pertinent connections between religion religious studies and science and why reductionism in the academic study of religion when properly applied can bridge the explanatory gap between the sceptic and the devotee The second part treats conceptual debates in the academic study of religion with particular reference to the place of belief understanding and meaning in the modern study of religion The third part addresses the theological resistance to the scientific study of religion and how that resistance can be overcome Finally two new essays are included a critique on The Preconceptions of a Science of Religion by Anthony J Palma and an accompanying reply by Donald Wiebe The Science of Religion A Defence is an essential resource for both scholarly and non scholarly audiences alike and will be of particular interest to both defenders

and critics of a scientific study of religion      The Sociology of Belief (Routledge Revivals) Keith Dixon, 2013-12-19 First published in 1980 this book presents a study of knowledge and the patterns of social and scientific thought Keith Dixon argues that traditional and contemporary formulations of the sociology of knowledge involve a series of fallacies and the claim to reduce knowledge to ideology devalues the role of reasoned inquiry Chapters discuss such areas as the theories of Marx and Mannheim the sociology of science and of religious belief With a detailed conclusion analysing the foundations and limits of the sociology of knowledge this reissue will provide an interesting and useful analysis for students of Sociology
