Reliable Software Technologies - Ada-Europe 2008 Fabrice Kordon, Tullio Vardanega, 2008-06-11 The 13th edition of the International Conference on Reliable Software Technologies Ada Europe 2008 marked its arrival in Italy by selecting the splendid venue of Venice It did so after having been hosted twice in Switzerland Spain and the UK Montreux for its inauguration in 1996 and Geneva in 2007 Santander in 1999 and Palma de Mallorca in 2004 London in 1997 and York in 2005 and having visited Sweden Uppsala 1998 Germany Potsdam 2000 Belgium Leuven 2001 Austria Vienna 2002 France Toulouse 2003 and Portugal Porto 2006 It was certainly high time that the conference came to Italy The conference series which is run and sponsored by Ada Europe chooses its yearly venue following two driving criteria to celebrate the activity of one of its national member societies in a particular country and or to facilitate the formation or the growth of a national community around all aspects of reliable software technologies The success of this year's conference beside the richness of its technical and social program will thus

be measured by its lasting effects We can only hope that the latter will be as good and vast as the former Owing to the absence of a national society associated with Ada Europe in Italy the organization of the conference was technically sustained by selected members of the Board of Ada Europe its governing body with some invaluable local support **Reliable**
