Religion and Family in a Changing Society Penny Edgell, 2013-12-03 The 1950s religious boom was organized around the male breadwinner lifestyle in the burgeoning postwar suburbs But since the 1950s family life has been fundamentally reconfigured in the United States How do religion and family fit together today This book examines how religious congregations in America have responded to changes in family structure and how families participate in local religious life Based on a study of congregations and community residents in upstate New York sociologist Penny Edgell argues that while some religious groups may be nostalgic for the Ozzie and Harriet days others are changing knowing that fewer and fewer families fit this traditional pattern In order to keep members with nontraditional family arrangements within the congregation these innovators have sought to emphasize individual freedom and personal spirituality and actively to welcome single adults and those from nontraditional families Edgell shows that mothers and fathers seek involvement in congregations for different reasons Men tend to think of congregations as social support structures and to get involved as a means of participating in the lives of their children Women by contrast are more often motivated by the quest for religious experience and can adapt more readily to pluralist ideas about family structure This Edgell concludes may explain the attraction of men to more conservative congregations and women to nontraditional religious groups Lisa Pearce, Melinda Lundguist Denton, 2011-01-07 Adding to the contributions made by Soul Searching and Souls in Transition two books which revolutionized our understanding of the religious lives of young Americans Lisa Pearce and Melinda Lundguist Denton here offer a new portrait of teenage faith Drawing on the massive National Study of Youth and Religion s telephone surveys and in depth interviews with more than 120 youth at two points in time the authors chart the spiritual trajectory of American adolescents and young adults over a period of three years Turning conventional wisdom on its head the authors find that religion is an important force in the lives of most though their involvement with religion changes over time just as teenagers themselves do Pearce and Denton weave in fascinating portraits of actual youth to give depth to mere numerical rankings of religiosity which tend to prevail in large studies One teenager might rarely attend a service yet count herself profoundly religious another might be deeply involved in a church's social world yet claim to be not like deep into the faith They provide a new set of qualitative categories Abiders Assenters Adapters Avoiders and Atheists quoting from interviews to illuminate the shading between them And with their three year study they offer a rich understanding of the dynamic nature of faith in young people's lives during a period of rapid change in biology personality and social interaction Not only do degrees of religiosity change but so does its nature whether expressed in institutional practices or personal belief By presenting a new model of religious development and change illustrated with compelling personal accounts of real teenagers Pearce and Denton offer parents scholars and religious leaders a new guide for understanding religious development in teens The SAGE Handbook of Cultural Sociology David Inglis, Anna-Mari

Almila, 2016-05-09 Cultural sociology or the sociology of culture has grown from a minority interest in the 1970s to become one of the largest and most vibrant areas within sociology globally In The SAGE Handbook of Cultural Sociology a global range of experts explore the theory methodology and innovations that make up this ever expanding field The Handbook s 40 original chapters have been organised into five thematic sections Theoretical Paradigms Major Methodological Perspectives Domains of Inquiry Cultural Sociology in Contexts Cultural Sociology and Other Analytical Approaches Both comprehensive and current The SAGE Handbook of Cultural Sociology will be an essential reference tool for both advanced students and scholars across sociology cultural studies and media studies **Religion and Organization Theory** Paul Tracey, Nelson Phillips, Michael Lounsbury, 2014-04-02 Despite the profound influence that religious organizations exert religion occupies a curiously marginal place in organization theory This volume aims to make available in one place existing knowledge on religion and organizations encouraging more organization theorists to include religion as part of their research activities and agenda Not by Faith Alone Julie Adkins, Laurie A. Occhipinti, Tara Hefferan, 2010-01-01 This volume builds on the existing ethnographic literature on faith based development internationally to offer a fresh and sophisticated analysis of faith based organizations in the United States The case studies included offer starting points for expanded discussions on the meaning of faith based development the differences between faith based and secular development approaches the influence of faith orientation on program formulation and delivery and whether faith based organizations can offer more efficient and effective solutions to structural inequality and poverty alleviation Values, Religion, and Culture in Adolescent Development Gisela Trommsdorff, Xinvin Chen, 2012-08-27 Cultural values and religious beliefs play a substantial role in adolescent development Developmental scientists have shown increasing interest in how culture and religion are involved in the processes through which adolescents adapt to environments This volume constitutes a timely and unique addition to the literature on human development from a cultural contextual perspective Editors Gisela Trommsdorff and Xinyin Chen present systematic and in depth discussions of theoretical perspectives landmark studies and strategies for further research in the field The eminent contributors reflect diverse cultural perspectives transcending the Western emphasis of many previous works This volume will be of interest to scholars and professionals interested in basic developmental processes adolescent social psychology and the sociological and psychological dimensions of religion **Religion in America** Lisa D. Pearce, Claire Chipman Gilliland, 2020-08-04 Written in an engaging and accessible tone Religion in America probes the dynamics of recent American religious beliefs and behaviors Charting trends over time using demographic data this book examines how patterns of religious affiliation service attendance and prayer vary by race and ethnicity social class and gender The authors identify demographic processes such as birth death and migration as well as changes in education employment and families as central to why some individuals and congregations experience change in religious practices and beliefs while others hold steady Religion in America challenges students to examine the demographic data alongside

everyday accounts of how religion is experienced differently across social groups to better understand the role that religion plays in the lives of Americans today and how that is changing Religion Is Raced Grace Yukich, Penny Edgell, 2020-07-28 Demonstrates how race and power help to explain American religion in the twenty first century When White people of faith act in a particular way their motivations are almost always attributed to their religious orientation Yet when religious people of color act in a particular way their motivations are usually attributed to their racial positioning Religion Is Raced makes the case that religion in America has generally been understood in ways that center White Christian experiences of religion and argues that all religion must be acknowledged as a raced phenomenon When we overlook the role race plays in religious belief and action and how religion in turn spurs public and political action we lose sight of a key way in which race influences religiously based claims making in the public sphere With contributions exploring a variety of religious traditions from Buddhism and Islam to Judaism and Protestantism as well as pieces on atheists and humanists Religion Is Raced brings discussions about the racialized nature of religion from the margins of scholarly and religious debate to the center The volume offers a new model for thinking about religion that emphasizes how racial dynamics interact with religious identity and how we can in turn better understand the roles religion and Whiteness play in politics and public life especially in the United States It includes clear recommendations for researchers including pollsters on how to better recognize moving forward that religion is a raced phenomenon With contributions by Joseph O Baker Kelsy Burke James Clark Davidson Janine Giordano Drake Ashley Garner Edward Orozco Flores Sikivu Hutchinson Sarah Imhoff Russell Jeung John Jimenez Jaime Kucinskas Eric Mar Gerardo Mart Omar M McRoberts Besheer Mohamed Dawne Moon Jerry Z Park Z Fareen Parvez Theresa W Tobin and Rhys H Williams Handbook of Religion and Society David Yamane, 2016-07-15 The Handbook of Religion and Society is the most comprehensive and up to date treatment of a vital force in the world today It is an indispensable resource for scholars students policy makers and other professionals seeking to understand the role of religion in society This includes both the social forces that shape religion and the social consequences of religion This handbook captures the breadth and depth of contemporary work in the field and shows readers important future directions for scholarship Among the emerging topics covered in the handbook are biological functioning organizational innovation digital religion spirituality atheism and transnationalism The relationship of religion to other significant social institutions like work and entrepreneurship science and sport is also analyzed Specific attention is paid where appropriate to international issues as well as to race class sexuality and gender differences This handbook includes 27 chapters by a distinguished diverse and international collection of experts organized into 6 major sections religion and social institutions religious organization family life course and individual change difference and inequality political and legal processes and globalization and transnationalism The Politics of Evangelical Identity Lydia Bean, 2016-12-13 Drawing on her groundbreaking research at evangelical churches near the U S border with Canada two in Buffalo New York and two in Hamilton Ontario Lydia Bean

compares how American and Canadian evangelicals talk about politics incongregational settings **Korean American Evangelicals New Models for Civic Life** Elaine Howard Ecklund, 2006-11-09 Studies of religion among our nation's newest immigrants largely focus on how religion serves the immigrant community for example by creating job networks and helping retain ethnic identity in the second generation In this book Ecklund widens the inquiry to look at how Korean Americans use religion to negotiate civic responsibility as well as to create racial and ethnic identity. She compares the views and activities of second generation Korean Americans in two different congregational settings one ethnically Korean and the other multi ethnic She also conducted more than 100 in depth interviews with Korean American members of these and seven other churches around the country and draws extensively on the secondary literature on immigrant religion American civic life and Korean American religion Her book is a unique contribution to the literature on religion race and ethnicity and on immigration and civic life **Economists and Societies** Marion Fourcade, 2009-03-09 Economists and Societies is the first book to systematically compare the profession of economics in the United States Britain and France and to explain why economics far from being a uniform science differs in important ways among these three countries Drawing on in depth interviews with economists institutional analysis and a wealth of scholarly evidence Marion Fourcade traces the history of economics in each country from the late nineteenth century to the present demonstrating how each political cultural and institutional context gave rise to a distinct professional and disciplinary configuration. She argues that because the substance of political life varied from country to country people s experience and understanding of the economy and their political and intellectual battles over it crystallized in different ways through scientific and mercantile professionalism in the United States public minded elitism in Britain and statist divisions in France Fourcade moves past old debates about the relationship between culture and institutions in the production of expert knowledge to show that scientific and practical claims over the economy in these three societies arose from different elites with different intellectual orientations institutional entanglements and social purposes Much more than a history of the economics profession Economists and Societies is a revealing exploration of American French and British society and culture as seen through the lens of their respective economic institutions and the distinctive character of their economic experts Handbook of the Sociology of Religion Michele Dillon, 2003-08-18 Table of contents Kinship and Cohort in an Aging Society Merril Silverstein, Roseann Giarrusso, 2013-09 According to family sociologist Vern Bengtson generations within families are important sources of influence change and development Kinship and Cohort in an Aging Society brings together scholars whose common link is their intellectual intersection with the work of Vern Bengtson an esteemed family sociologist whose accomplishments include foundational theoretical contributions to the study of families and intergenerational relations as well as the development of the widely used Longitudinal Study of Generations data set The study began in 1971 and is the basis for Bengtson's highly influential concept and measurement model the intergenerational solidarity conflict paradigm This book serves as an

excellent compendium of original research that examines how Bengtson's solidarity model a theory that informs nearly all intergenerational and gerontology sociology work performed today continues to be relevant to scholars and practitioners Written by internationally recognized scholars the book s fifteen chapters are mapped to five major thematic areas to which Bengtson's research contributed family connections grandparents in a changing demographic landscape generations and cohorts micro macro dialectics religion and families in the context of continuity change and conflict and global cross national and cross ethnic concerns Key strengths of the book include the diversity of foci and data sources and the strong attention given to global and international issues Kinship and Cohort in an Aging Society will appeal to scholars working in sociology psychology gerontology family studies and social work The Cultural and Political Economy of Recovery Emily Chamlee-Wright, 2010-03-03 How do societies achieve a level of complexity coordination and social intelligence that far surpasses the capacity of individual human intelligence Emily Chamlee Wright addresses this question in the context of civil society generally in which we cannot always rely on market prices to guide our way Religion and Inequality in America Lisa A. Keister, Darren E. Sherkat, 2014-07-10 Examines how social inequality is affected by religious beliefs and affiliation with contributions in the fields of religion and sociology A Fraught Embrace Ann Swidler, Susan Cotts Watkins, 2017-03-07 The complex relationships between altruists beneficiaries and brokers in the global effort to fight AIDS in Africa In the wake of the AIDS pandemic legions of organizations and compassionate individuals descended on Africa from faraway places to offer their help and save lives A Fraught Embrace shows how the dreams of these altruists became entangled with complex institutional and human relationships Ann Swidler and Susan Cotts Watkins vividly describe the often mismatched expectations and fantasies of those who seek to help of the villagers who desperately seek help and of the brokers on whom both Western altruists and impoverished villagers must rely Based on years of fieldwork in the heavily AIDS affected country of Malawi this powerful book digs into the sprawling AIDS enterprise and unravels the paradoxes of AIDS policy and practice All who want to do good from idealistic volunteers to world weary development professionals depend on brokers as guides fixers and cultural translators These irreplaceable but frequently unseen local middlemen are the human connection between altruists dreams and the realities of global philanthropy The mutual misunderstandings among donors brokers and villagers each with their own desires and moral imaginations create all the drama of a romance longing exhilaration disappointment heartache and sometimes an enduring connection Personal stories public scandals and intersecting sometimes clashing fantasies bring the lofty intentions of AIDS altruism firmly down to earth Swidler and Watkins ultimately argue that altruists could accomplish more good not by seeking to transform African lives but by helping Africans achieve their own goals A Fraught Embrace unveils the tangled relations of those involved in the collective struggle to contain an epidemic Spiritual Dimensions of Ageing Malcolm Johnson, Joanna Walker, 2016-11-24 Well known authors in the field of ageing and spirituality present their considered contributions to current understandings in this fast changing
