Religion And Legitimation Of Power In Thailand Laos And Burma:

Religion and Legitimation of Power in Thailand, Laos, and Burma Bardwell L. Smith, 1978 **Thailand's Theory of Monarchy** Patrick Jory, 2016-05-09 2016 CHOICE Outstanding Academic Title Since the 2006 coup d'état Thailand has been riven by two opposing political visions one which aspires to a modern democracy and the rule of law and another which holds to the traditional conception of a kingdom ruled by an exemplary Buddhist monarch Thailand has one of the world's largest populations of observant Buddhists and one of its last politically active monarchies This book examines the Theravada Buddhist foundations of Thailand's longstanding institution of monarchy Patrick Jory states that the storehouse of monarchical ideology is to be found in the popular literary genre known as the Jtakas tales of the Buddha's past lives The best known of these the Vessantara Jataka disseminated an ideal of an infinitely generous prince as a bodhisatta or future Buddha an ideal which remains influential in Thailand today Using primary and secondary source materials largely unknown in Western scholarship Jory traces the history of the Vessantara Jataka and its political cultural importance from the ancient to the modern period Although pressures from European colonial powers and Buddhist reformers led eventually to a revised political conception of the monarchy the older Buddhist ideal of kingship has yet endured **Thailand's Buddhist**

Kingship in the 20th and 21st Centuries Marie-Sybille de Vienne, 2022-03-31 Based on two decades of fieldwork including over a hundred interviews with various political and economic actors at different social levels as well as documentary and media analysis this volume presents an account of the Buddhist monarchy in Thailand offering a sociology of elites an analysis of the economic influence of the Crown and an examination of the magic and ritual dimension of kingship An exploration of the role and status of the Palace over the last century whether as a guarantor of democracy a symbol of stability a source of power or an object of popular discontent Thailand's Buddhist Kingship in the 20th and 21st Centuries will appeal to scholars of sociology and anthropology with interests in material religion politics and Southeast Asian studies

Buddhism and Violence Vladimir Tikhonov, Torkel Brekke, 2012-09-10 It is generally accepted in the West that Buddhism is a peaceful religion The Western public tends to assume that the doctrinal rejection of violence in Buddhism would make Buddhist pacifists and often expects Buddhist societies or individual Asian Buddhists to conform to the modern Western standards of peaceful behavior This stereotype which may well be termed positive Orientalism since it is based on assumption that an Oriental religion would be more faithful to its original non violent teachings than Western Christianity has been periodically challenged by enthusiastic acquiescence by monastic Buddhism to the most brutal sorts of warfare This volume demolishes this stereotype and produces instead a coherent nuanced account on the modern Buddhist attitudes towards violence and warfare which take into consideration both doctrinal logic of Buddhism and the socio political situation in Asian Buddhist societies The chapters in this book offer a deeper analysis of Buddhist militarism and Buddhist attitudes towards violence than previous volumes grounded in an awareness of Buddhist doctrines and the recent history of

nationalism as well as the role Buddhism plays in constructions of national identity The international team of contributors includes scholars from Thailand Japan and Korea **Buddhism, Power and Political Order** Ian Harris,2007-06-11 This volume brings together the brightest minds in the study of Buddhism in Southeast Asia to create a more coherent account of the relations between Buddhism and political order in the late pre modern and modern period *Spreading the Dhamma* Daniel Veidlinger,2006-08-31 How did early Buddhists actually encounter the seminal texts of their religion What were the attitudes held by monks and laypeople toward the written and oral Pali traditions In this pioneering work Daniel Veidlinger explores these questions in the context of the northern Thai kingdom of Lan Na Drawing on a vast array of sources including indigenous chronicles reports by foreign visitors inscriptions and palm leaf manuscripts he traces the role of written Buddhist texts in the predominantly oral milieu of northern Thailand from the fifteenth to the nineteenth centuries Veidlinger examines how the written word was assimilated into existing Buddhist and monastic practice in the region considering the use of manuscripts for textual study and recitation as well as the place of writing in the cultic and ritual life of the faithful He shows how manuscripts fit into the economy describes how they were made and stored and highlights the understudied issue of the cult of the book in Theravada Buddhism Looking at the wider Theravada world Veidlinger argues that manuscripts in Burma and Sri Lanka played a more central role in the preservation and dissemination of Buddhist texts By offering a detailed examination of the motivations driving those who sponsored manuscript production this study draws attention to the vital role played by forest dwelling monastic orders introduced from Sri Lanka in the development of Lan Na's written Pali heritage It also considers the rivalry between those monks who wished to preserve the older oral tradition and monks rulers and laypeople who supported the expansion of the new medium of writing *Counterheritage* Denis Byrne,2014-04-16 The claim that heritage practice in Asia is Eurocentric may be well founded but the view that local people in Asia need to be educated by heritage practitioners and governments to properly conserve their heritage distracts from the responsibility of educating oneself about the local popular beliefs and practices which constitute the bedrock of most people's engagement with the material past Written by an archaeologist who has long had one foot in the field of heritage practice and another in the academic camp of archaeology and heritage studies Counterheritage is at once a forthright critique of current heritage practice in the Asian arena and a contribution to this project of self education Popular religion in Asia including popular Buddhism and Islam folk Catholicism and Chinese deity cults has a constituency that accounts for a majority of Asia's population making its exclusion from heritage processes an issue of social justice but more pragmatically it explains why many heritage conservation programs fail to gain local traction This book describes how the tenets of popular religion affect building and renovation practices and describes how modernist attempts to suppress popular religion in Asia in the early and mid twentieth century impacted religious heritage Author Denis Byrne argues that the campaign by archaeologists and heritage professionals against the private collecting and looting of antiquities in Asia largely ignores the regimes of value

which heritage discourse has helped erect and into which collectors and local diggers play Focussing on the Philippines Thailand and Taiwan but also referencing China and other parts of Southeast Asia richly detailed portraits are provided of the way people live with old things and are affected by them Narratives of the author s fieldwork are woven into arguments built upon an extensive and penetrating reading of the historical and anthropological literature The critical stance embodied in the title counterheritage is balanced by the optimism of the book s vision of a different practice of heritage advocating a view of heritage objects as vibrant agentic things enfolded in social practice rather than as inert and passive surfaces subject to conservation

share with the monastic community in Myanmar extending observations of this relationship into an understanding of wider Buddhist cultures It then examines how deeply the reciprocal transactions of giving and receiving in society or interdependent living are implicated in the Buddhist faith The Culture of Giving in Myanmar fills a gap in research on Buddhist offerings in Myanmar and is an important contribution to the growing field of Myanmar studies and anthropology of Buddhism

Living with the Vinaya Ryosuke Kuramoto,2024-11-30 Around the first century BCE Buddhist monks formed monasteries and established relationships with kings and lay people The rules monks live by the Vinaya are a pivotal source of meaning for them and their dealings with society and form the basis of multiple monasticisms across geographical regions and throughout history The ways in which the Vinaya is understood and practiced therefore must take into account the kind of monasticism that emerges from it In Living with the Vinaya Ryosuke Kuramoto examines the process of creating monasticism in contemporary Myanmar by focusing on how monks acquire possess and consume material goods To live as a monk means to obtain resources from society and to own and use these according to monastic rules Over the centuries as monks interacted more with the world beyond the monastery the question of what a monk should be became a concern for not only monks but also government authorities and lay people How monks interpreted and observed the Vinaya became a question of legitimacy and power Kuramoto s ethnographic analysis reveals the constant re creation of monasticism in Myanmar resulting from the interactions between monks and these groups in response to this question He identifies some of the key mechanisms by which monasticism and broader Buddhist institutions are created and transformed and concludes that monastic governance is inseparable from the Buddhist state and the society that surrounds it

Buddhist-Inflected Sovereignities across the Indian Ocean Anne M. Blackburn,2025-01-31 Buddhist Inflected Sovereignities across the Indian Ocean draws attention to the varied historically contingent and sometimes competing arguments for and about sovereignty

that operated in the Pali arena during the first half of the second millennium AD. It was a time of expanding interaction within the Indian Ocean just prior to Portuguese colonial presence in Southern Asia. Developing a linked series of case studies and examining territories now subsumed within the nation states of Sri Lanka, Burma, Myanmar, and Thailand, Blackburn examines sovereign arguments expressed textually as well as in the built environment by persons with an interest in the teachings and institutions associated with Gotama Buddha. These cases show that no single model of Buddhist-inflected sovereignty dominated the Pali arena during this time and that there was no stable vision of Buddhist kingship. Rather, over time, there was an accrual of possible models and pathways for argumentation about how sovereigns could and should relate to Buddha's *sana*. Taking inspiration from diverse sources transmitted through multiple forms and media, arguments for and about sovereignty in the Pali arena were contested and rapidly changing. As the Indian Ocean increasingly shaped the flow of people, objects, and ideas, more peoples and territories participated in the Pali arena, attracted by its intellectual and aesthetic resources. Drawing on extensive scholarship and a wide range of multilingual source materials from premodern Sri Lanka, Burma, Thailand, and Cambodia, Anne M. Blackburn develops innovative conclusions about the relationships between textuality, sovereignty, maritime connectivity, and material culture in each of these areas. The book contributes simultaneously to several fields of study: the intellectual history of Southern Asia, literary and historical scholarship on Buddhism, and historical studies of the Indian Ocean. By offering accessible yet in-depth analysis, *Buddhist-Inflected Sovereignities across the Indian Ocean* connects research fields and introduces new interpretive possibilities for the study of sovereignty, politics, premodern textual cultures, and Buddhism.

Buddhist-Muslim Relations in a Theravada World Iselin Frydenlund, Michael Jerryson, 2020-02-28

This book is the first to critically analyze Buddhist-Muslim relations in Theravada Buddhist majority states in South and Southeast Asia. Asia is home to the largest population of Buddhists and Muslims. In recent years, this interfaith communal living has incurred conflicts such as the ethnic religious conflicts in Myanmar, Sri Lanka, and Thailand. Experts from around the world collaborate to provide a comprehensive look into religious pluralism and religious violence. The book is divided into two sections. The first section provides historical background to the three countries with the largest Buddhist-Muslim relations. The second section has chapters that focus on specific encounters between Buddhists and Muslims, which includes anti-Buddhist sentiments in Bangladesh, the role of gender in Muslim-Buddhist relations, and the rise of anti-Muslim and anti-Rohingya sentiments in Myanmar. By exploring historical fluctuations over time, paying particular attention to how state formations condition Muslim-Buddhist entanglements, the book shows the processual and relational aspects of religious identity constructions and Buddhist-Muslim interactions in Theravada Buddhist majority states.
