

Religion vs Irreligion

Everything starts with "Questions" in mind, which leads us either towards religion or towards irreligion

Religion	Irreligion		
Judaism, Christianity, Islam ... there are estimated 10,000 religions in our world	Deism	Agnosticism	Atheism
Superstitions + Claim of Divine Guidance: It is a superstition about the UNKNOWN, which gives birth to different religions. Every religion claims only it is based upon direct Divine Guidance, while ALL others are based upon superstitions.	Human Rationale and Logic: It is human rationale and logic about the UNKNOWN, which gives birth to Deism, Agnosticism and Atheism		
"Religious System/laws" They are based only on the views of the founder of the religion. There is almost no space for reforms in the base of religion. Reforms are mostly made only in secondary issues.	"System/Laws based upon Freethinking" Non-religious freethinking does lead to non-religious systems. In ancient times, the teachings of Buddha and Confucius were the results of this free thinking. In the modern age Communism, Socialism, Secularism, and Democracy are also non-religious systems, while all of them are based upon free thinking. Even religious people limited religions to their private life only, while they followed non-religious and man-made systems/laws on the state level. These man-made non-religious systems may not be perfect, but they have the "ability" to "reform" themselves, which is mostly absent (or difficult) in the "religious systems" where only god/gods stipulate the laws.		
Morals They are limited & encircled within the boundaries of religion. Actually, religions make such things permissible in name of morality like spilling of the blood of others, taking their women & children as slaves etc.	Morals Due to freethinking, for the first-time women got equal rights, slaves were freed and given equal rights, and even animals are also given rights. Buddha and Ashoka abolished markets of slaves about 1000 years before Islam.
