

The Religious Communication Approach and Political Behavior

Paul A. Djupe

Denison University

Jacob R. Nelheisel

SUNY Buffalo

The religious communication approach concerns the identification of causal explanations of political behavior through the explicit measurement of exposure to communication and the variable reception and adoption of the messages in a religious context. The approach requires more questions or different research designs than those on omnibus surveys, which focus on religious affiliation and religiosity. It is particularly amenable to experimentation, where exposure is manipulated by the researcher and adoption can be measured precisely. However, experimental research, such as about religious elite influence, often returns different results than those from observational research wherein histories between clergy and congregants may overwhelm the delicate mechanisms of persuasion. Research from congregations points toward credibility and salience as important conditions for religious influence, which help reconcile experimental and observational results. This review article covers how organizational forces shape communication strategies, especially concerning when and how politics and democratic norms are engaged by clergy. Contrary to simple survey evidence that Americans oppose politics in churches, this approach suggests that politics is an important piece of congregational affairs that attracts and retains people, though there are clearly conditions when it repels. In this way, the religious communication approach is essential to understanding religious engagement with politics.

KEY WORDS: religious communication, religious influence, congregations, clergy, political behavior

The religious communication approach considers communication dynamics essential in order to understand the strengths and weaknesses of religious organizations in American society. Taking organizations seriously helps us understand when clergy and congregations engage with politics, how they tend to engage with politics, as well as what their influence is likely to be on followers. That is, the religious communication approach includes a theory of religious influence. Drawing on cues from studies of public opinion and the experimental method, religious influence necessitates two things: People are *exposed* to cues that they can then *adopt* or not. Without exposure, it is unclear whether religion is having any influence at all or whether the patterns we see in the data are actually the result of some other unmeasured, but shared, feature (e.g., living in the community or partisanship). We cannot take adoption of those cues for granted; there are many reasons why followers may not adopt frames, arguments, or information

Religion And Political Behavior In The United States

Ted G. Jelen

Religion And Political Behavior In The United States:

Religion and Political Behavior in the United States Ted G. Jelen, 1989-06-26 The 1988 Election year showcasing two ordained ministers seeking presidential nomination made it apparent that religion is an important force on the U S political landscape The result of such visible roles by religious elites raises many questions including the boundaries between the sacred and the secular the size and importance of various politico religious constituencies and the effectiveness of religiously based elite mass communications In response political scientists are devoting an increasing amount of time to studying the interaction of religion and politics Taking the first step toward answering these questions Religion and American Political Behavior is a collection of 15 articles written by prominent political scientists Reflecting the current state of research the articles are diverse and eclectic They are all written from a behavioral perspective and are based on a careful collection of empirical data This collection contains a variety of substantive findings that will be of particular value to students and scholars in the social sciences religion and political science The book is divided into three parts The first part deals directly with the methodological difficulties of measuring religious phenomena This section also serves as an introduction to students or scholars with little background in this field The second part constituting the body of the work confronts the question of how religion affects the political attitudes and beliefs of ordinary citizens The final part is unique to this collection Entitled Elite Perspectives it consists of seven articles with a common theme the impact of religion on the political behavior of elite members of society including journalists lobbyists public officials political contributors and clergy

Religion and Politics in the United States Kenneth D. Wald, Allison Calhoun-Brown, 2014-03-04 From marriage equality to gun control to immigration reform and the threat of war religion plays a fascinating and crucial part in our nation s political process and in our culture at large Now in its seventh edition Religion and Politics in the United States includes analyses of the nation s most pressing political matters regarding religious freedom and the ways in which that essential constitutional freedom situates itself within modern America The book also explores the ways that religion has affected the orientation of partisan politics in the United States Through a detailed review of the political attitudes and behaviors of major religious and minority faith traditions the book establishes that religion continues to be a major part of the American cultural and political milieu while explaining that it must interact with many other factors to influence political outcomes in the United States

Politics and Religion In The United States Michael Corbett, Julia Mitchell Corbett, 2013-01-11 This text examines the interaction between politics and religion in the United States from the days of the early colonial period through the 1990s It sets the contemporary discussion of politics and religion in the larger context of the entire scope of US history and traces significant themes over time showing students how the events of the 1990s have their roots in a long process of development

Religion and Political Tolerance in America Paul Djupe, 2015-06-30 Religious institutions are often engaged in influencing the beliefs and values that individuals hold But religious groups can also challenge how people think about democracy

including the extension of equal rights and liberties regardless of viewpoint or what is commonly called political tolerance. The essays in *Religion and Political Tolerance in America* seek to understand how these elements interrelate. The editor and contributors to this important volume present new and innovative research that wrestles with the fundamental question of the place of religion in democratic society. They address topics ranging from religious contributions to social identity to the political tolerance that religious elites/clergy hold and advocate to others and how religion shapes responses to intolerance. The conclusion by Ted Jelen emphasizes that religion's take on political tolerance is nuanced and that they are not incompatible; religion can sometimes enhance the tolerance of ordinary citizens.

The Oxford Handbook of Religion and American Politics Corwin E. Smidt, Lyman A. Kellstedt, James L. Guth, 2017. Over the past three decades the study of religion and politics has gone from being ignored by the scholarly community to being a major focus of research. Yet because this important research is not easily accessible to nonspecialists, much of the analysis of religion's role in the political arena that we read in the media is greatly oversimplified. This Handbook seeks to bridge that gap by examining the considerable research that has been conducted to this point and assessing what has been learned, what remains unsettled due to conflicting research findings, and what important questions remain largely unaddressed by current research endeavors. The Handbook is unique to the field of religion and American politics and should be of wide interest to scholars, students, journalists, and others interested in the American political scene.

The Diminishing Divide Andrew Kohut, John C. Green, Scott Keeter, 2001-09-19. The First Amendment of the U.S. Constitution forbids the creation of an official state church, and we hear the phrase "separation of church and state" so frequently that it may surprise us to note that no such barrier exists between religion and politics. Religion is and always has been woven into the fabric of American political life. In the last two decades, however, the role of religion in politics has become more direct, almost a blunt, self-conscious force in the political process. The national consequences of this diminishing divide between religion and politics have brought new groups into politics, altered party coalitions, and influenced campaigns and election results. Churches and other religious institutions have become more actively engaged in the political process, and religious people have increased the level and broadened the range of their political participation. While the public is more accepting of the role of religion in shaping today's political landscape, the issue of how much political power certain religious groups enjoy continues to provoke concern. Drawing on extensive survey data from the Pew Research Center, the National Election Studies, and other sources, *The Diminishing Divide* illuminates the historical relationship between religion and politics in the United States and explores the ways in which religion will continue to alter the political landscape in the century before us. A historical overview of religion in U.S. politics sets the tone as the book examines the patchwork quilt of American religion and the changing role of religious institutions in American political life since the 1960s. The book explores the complex relations between religion and political attitudes as well as that of religion and political behavior, particularly with respect to party affiliation and voting habits. Finally, The

Diminishing Divide offers a look at the future As candidates and elected officials increasingly air their personal faith in pub

Faith, Morality, and Civil Society Dale McConkey, Peter Augustine Lawler, 2003-06-05 In this rich collection of essays editors Dale McConkey and Peter Augustine Lawler explore the contributions that religious faith and morality can make to a civil society Though the level of religious expression has remained high in the United States the shift from traditional religious beliefs to a far more individualized style of faith has led many to contend that no faith commitment collective or personal should contribute to the vibrancy of a civil democratic society Challenging those who believe that the private realm is the only appropriate locus of religious belief the contributors to this volume believe that religion can inform and invigorate the secular institutions of society such as education economics and politics Drawn from a wide variety of religious and moral traditions these diverse essays show from many perspectives the important contribution religion has to make in the public square that is civil society

The SAGE Encyclopedia of Political Behavior Fathali M. Moghaddam, 2017-05-03 The SAGE Encyclopedia of Political Behavior explores the intersection of psychology political science sociology and human behavior This encyclopedia integrates theories research and case studies from a variety of disciplines that inform this established area of study

Religion Matters William A. Mirola, Michael O. Emerson, Susanne C Monahan, 2016-01-08 Religion Matters What Sociology Teaches Us About Religion in Our World is organized around the biggest questions that arise in the field of sociology of religion This is a new text for the sociology of religion course Instead of surveying this field systematically the text focuses on the major questions that generate the most discussion and debate in the sociology of religion field

U. S. An Index to the United States of America, 1890

Religion in Contemporary America Charles H. Lippy, Eric Tranby, 2013 This book provides a fresh engaging multi disciplinary introduction to religion in contemporary America Students and instructors will find the combination of historical and sociological perspectives an invaluable aid to understanding this fascinating but complex field

Catholics and Politics Kristin E. Heyer, Mark J. Rozell, Michael A. Genovese, 2008-10-29 Catholic political identity and engagement defy categorization The complexities of political realities and the human nature of such institutions as church and government often produce a more fractured reality than the pure unity depicted in doctrine Yet in 2003 under the leadership of then prefect Joseph Cardinal Ratzinger now Pope Benedict XVI the Congregation for the Doctrine of the Faith issued a Doctrinal Note on Some Questions Regarding the Participation of Catholics in Political Life The note explicitly asserts The Christian faith is an integral unity and thus it is incoherent to isolate some particular element to the detriment of the whole of Catholic doctrine A political commitment to a single isolated aspect of the Church's social doctrine does not exhaust one's responsibility toward the common good Catholics and Politics takes up the political and theological significance of this integral unity the universal scope of Catholic concern that can make for strange political bedfellows confound predictable voting patterns and leave the church poised to critique narrowly partisan agendas across the spectrum Catholics and Politics depicts the ambivalent character of Catholics mainstream arrival in the U S over the past

forty years integrating social scientific historical and moral accounts of persistent tensions between faith and power Divided into four parts Catholic Leaders in U S Politics The Catholic Public Catholics and the Federal Government and International Policy and the Vatican it describes the implications of Catholic universalism for voting patterns international policymaking and partisan alliances The book reveals complex intersections of Catholicism and politics and the new opportunities for influence and risks of cooptation of political power produced by these shifts Contributors include political scientists ethicists and theologians The book will be of interest to scholars in political science religious studies and Christian ethics and all lay Catholics interested in gaining a deeper understanding of the tensions that can exist between church doctrine and partisan politics

Religion, Politics, and American Identity David S. Gutterman, Andrew R. Murphy, 2008-03-01 Scholarship on the role of religion in American public life has taken on a new urgency in the increasingly contentious wake of the attacks of September 11 2001 This volume brings together an impressive group of scholars to build on past work and broaden the scope of this crucial inquiry in two respects by exploring aspects of the religion politics nexus in the United States that have been neglected in the past and by examining traditional questions concerning the religious tincture of American political discourse in provocative new ways Essays include examinations of religious rhetoric in American political and cultural discourse after September 11th the impact of religious ideas on environmental ethics religion and American law beyond the First Amendment religious responses to questions of gay and lesbian rights the Church of Jesus Christ of Latter Day Saints and issues of free speech and public space in Utah and the role of religious institutions and ideas on the political priorities of African American and Latino communities In addition Religion Politics and American Identity includes introductory and concluding essays by leading scholars in the field of religion and politics that assess present and future directions for study

Social Cleavages and Political Change Jeff Manza, Clem Brooks, 1999-09-23 What social groups support which political party and how that support has changed over time are central questions in the sociology of political behaviour This study provides the first systematic book length reassessment and restatement of the sociological approach to American politics in more than 20 years It challenges widespread arguments that the importance of social cleavages have declined precipitously in recent years in the face of post industrial social and economic changes The book reconceptualizes the concept of social cleavages and focus on four major cleavages in American society class religion gender and race arguing a that a number of important changes in the alignments of the groups making up these four cleavages have occurred The book examines the implications of these changes for the Democratic and Republican Parties The findings of the book are examined in light of the central dilemmas facing the two major parties in the contemporary political environment

Oxford Handbook of Political Behavior Russell J. Dalton, Hans-Dieter Klingemann, 2007 Assembles the world s leading scholars on public opinion and political behaviour to describe the state of the art research on the beliefs values and behaviours of contemporary politics

Understanding Public Opinion Barbara Norrander, Clyde Wilcox, 2009-03-18 In this highly anticipated revision editors

Barbara Norrander and Clyde Wilcox expose students to the substance and process of public opinion research in an accessible way Capturing the diversity of this research with 12 essays 10 new to this edition and 2 fully updated well respected contributors highlight the many approaches social scientists use to explore public opinion while citing actual research and teasing out the political implications of their findings Understanding Public Opinion expands on important ideas that basic textbooks cover only briefly such as public views of those on trial for terrorist acts public attitudes in the aftermath of Hurricane Katrina and the rise and fall of public support for George W Bush Part introductions provide important thematic context and a statistics primer in the appendix offers students a handy reference More relevant and thought provoking than ever Understanding Public Opinion is the ideal supplement for any public opinion course

Religion and Politics in the United States Kenneth D. Wald, Allison Calhoun-Brown, 2007 Religion and Politics in the United States Fifth Edition offers a comprehensive account of the role of religious ideas institutions and communities in American public life While maintaining that religion is too politically potent to be left out or consigned to the margins in accounts of American politics Wald and Calhoun Brown also argue against the common tendency to treat religion as the dominant force in politics today Early topics include the nature and persistence of religion in the United States its contribution to the Founding and the continuing debate over the role of religion in government and law Following a discussion of how religious factors encourage political action the book concludes by discussing basic political attitudes and behavior among members of mainstream American religious traditions and minority religious communities defined by ethnicity race gender and sexual orientation The new edition greatly expands coverage of various religious minorities with a new chapter on politics and religion among African Americans Latinos Muslim Americans Latter Day Saints Mormons and other faith traditions There is larger focus on how religion influences the politics of local communities

Religion, Politics, and Polarization William V. D'Antonio, Steven A. Tuch, Josiah R. Baker, 2013-06-20 Do the religious affiliations of elected officials shape the way they vote on such key issues as abortion homosexuality defense spending taxes and welfare spending In Religion Politics and Polarization How Religiopolitical Conflict is Changing Congress and American Democracy William D Antonio Steven A Tuch and Josiah R Baker trace the influence of religion and party in the U S Congress over time For almost four decades these key issues have competed for public attention with health care war terrorism and the growing inequity between the incomes of the middle classes and those of corporate America The authors examine several contemporary issues and trace the increasing polarization in Congress They examine whether abortion defense and welfare spending and taxes are uniquely polarizing or rather models of a more general pattern of increasing ideological division in the U S Congress By examining the impact of religion on these key issues the authors effectively address the question of how the various religious denominations have shaped the House and Senate Throughout the book they draw on key roll call votes survey data and extensive background research to argue that the political ideologies of both parties have become grounded in distinctive religious visions of the good society in turn

influencing the voting patterns of elected officials **Religion and Political Behavior in the United States** Lauren Elizabeth Butler, 2007 **The Religious Dimension of Political Behavior** Laura Olson, Ted G. Jelen, 1998-11-19 The dramatic increase in religiously motivated political activity in the United States since the early 1980s has spawned an increased scholarly awareness of the relationship between religion and politics The rise of such groups as the Moral Majority the Christian Coalition and the Family Research Council attests to this growing intersection between politics and religion Correspondingly the amount of scholarly writing in this field has increased significantly This volume compiles overviews of the existing research in religion and political behavior Designed as a research and reference tool this work includes over four hundred annotated bibliographic entries for books and journal articles by political scientists and sociologists These sources encompass a wide variety of aspects concerning the relationship between religion and political behavior The entries provide information on the theoretical basis methodology and result of each study Entries are indexed by author subject and title
