The Rolls and Register of Bishop Oliver Sutton, 1280-1299 Catholic Church. Diocese of Lincoln (England). Bishop (1280-1299 : Sutton),1948 **Power, Politics and Episcopal Authority** Angelo Silvestri,2014-11-24 It is impossible to completely understand the history of the medieval church without understanding how bishops control was exercised in the diocese and in the city This book assesses the differences shifts and changes in the power of the bishop in the cities and the dioceses of Lincoln and Cremona from the middle of the 11th century to the mid 14th century Lincoln with the biggest medieval diocese in England and with its unique series of bishops such as Hugh of Wells Hugh of Avalon Ro **The Nobility and Ecclesiastical Patronage in Thirteenth-century England** Elizabeth Gemmill,2013 While there has been work on the nobility as patrons of monasteries this is the first real study of them as patrons of parish churches and is thus the first study to tackle the subject as a whole Illustrated with a wealth of detail it will become an indispensable work of reference for those interested in lay patronage and the Church more generally in the middle ages Professor David Carpenter Department of History King s College London This book provides the first full length integrated study of the ecclesiastical patronage rights of the nobility in medieval England It examines the nature and extent of these rights how they were used why and for whom they were valuable what challenges lay patrons faced and how they looked to the future in making gifts to the Church It takes as its focus the thirteenth century a critical period for the survival and development of these rights being a time of ambitious Church reform of great change in patterns of land ownership in the ranks of the higher nobility and of bold assertion by the English Crown of its claims to control Church property The thirteenth century also saw a proliferation of record keeping on the part of kings bishops and nobility and the author uses new evidence from a range of documentary sources to explore the nature of the relationships between the English nobility the Church and its clergy a relationship in which patronage was the essential feature Dr Elizabeth Gemmill is University Lecturer in Local History and Fellow of Kellogg College University of Oxford *Joan de Valence* Linda E. Mitchell,2016-01-26 Heir to an earldom and wife and widow of William de Valence half brother of King Henry III Joan de Valence was an important actor in the volatile political world of thirteenth century England Wales Scotland and Ireland Yet astonishingly her story of survival perseverance and influence has never been told until now Joan de Valence The Life and Influence of a Thirteenth Century Noblewoman draws on archival research as well as tools of historical analysis and gender studies to peel back the layers of this remarkable noblewoman s life From her survival of the wars between king and baronage at mid century to her life as a widow and magnate of the realm the story of Joan de Valence as Mitchell argues exemplifies the range of experiences of noblewomen during the middle ages
The Knights Templars in England Thomas W. Parker,2021-09-14 ,2021-12-01 **Bishops, Clerks, and Diocesan Governance in Thirteenth-Century England** Michael Burger,2012-10-22 This book investigates how bishops deployed reward and punishment to control their administrative subordinates in thirteenth century England

Bishops had few effective avenues available to them for disciplining their clerks and rarely pursued them preferring to secure their service and loyalty through rewards The chief reward was the benefice often granted for life Episcopal administrators security of tenure in these benefices however made them free agents allowing them to transfer from diocese to diocese or even leave administration altogether they did not constitute a standing episcopal civil service This tenuous bureaucratic relationship made the personal relationship between bishop and clerk more important Ultimately many bishops communicated in terms of friendship with their administrators who responded with expressions of devotion Michael Burger s study brings together ecclesiastical social legal and cultural history producing the first synoptic study of thirteenth century English diocesan administration in decades His research provides an ecclesiastical counterpoint to numerous studies of bastard feudalism in secular contexts **The Franciscans in the Medieval Custody of York** Michael J. P. Robson,1997
