Christian Culture and Society in Later Catholic England ,2024-08-05 This book in memory of F Donald Logan explores different aspects of Christian culture and society in England from the twelfth to the sixteenth century Although this period has traditionally been interpreted in terms of decline and decay this excessively gloomy picture has slowly given way over the last eighty years or so to a more positive view of Christian civilization during these centuries The twenty two studies brought together here seek to build on this ongoing reassessment of Later Catholic England especially in those areas in which Professor Logan himself had done so much to deepen our understanding of Christian English society Contributors are Travis Baker Caroline Barron Nicholas Bennett Barbara Bombi Paul Brand Janet Burton James G Clark Karen Corsano Virginia Davis Charles Donahue Jr Anne J Duggan Joan Greatrex Diana Greenway Michael Haren R H Helmholz Philippa Hoskin Henry Ansgar Kelly Frederik Pedersen Seymour Phillips Michael J P Robson Jens R hrkasten Jane Sayers R N Swanson Daniel Williman and Patrick Zutshi

The Dependent Pories of Medieval English Monasteries Martin Heale,2004 This study charts for the first time the history of the 140 or so daughter houses of English monasteries which have always been overshadowed by the French cells in England the so called alien priories The first part of the book examines the reasons for the foundation of these monasteries and the relations between dependent priories and their mother houses bishops and patrons The second part investigates everyday life in cells the priories interaction with their neighbours and their economic viability The unusual pattern of dissolution of these houses is also revealed Because of the tremendous bulk of material to survive for English dependencies this is the most detailed account of a group of small monasteries yet written Although daughter houses are in many ways unrepresentative of other lesser monasteries their experience sheds a great deal of light on the world of the small religious house and suggests that these shadowy institutions were far more central to medieval religion and society than has been appreciated

Bishops, Clerks, and Diocesan Governance in Thirteenth-Century England Michael Burger, 2012-10-22 This book investigates how bishops deployed reward and punishment to control their administrative subordinates in thirteenth century England Bishops had few effective avenues available to them for disciplining their clerks and rarely pursued them preferring to secure their service and loyalty through rewards The chief reward was the benefice often granted for life Episcopal administrators security of tenure in these benefices however made them free agents allowing them to transfer from diocese to diocese or even leave administration altogether they did not constitute a standing episcopal civil service This tenuous bureaucratic relationship made the personal relationship between bishop and clerk more important Ultimately many bishops communicated in terms of friendship with their administrators who responded with expressions of devotion Michael Burger's study brings together ecclesiastical social legal and cultural history producing the first synoptic study of thirteenth century English diocesan administration in decades His research provides an ecclesiastical counterpoint to numerous studies of bastard feudalism in secular contexts

The Making of the Neville Family in England, 1166-1400 Charles R. Young, 1996 A study of power in the middle ages the Nevilles of Raby who included among their members Warwick the Kingmaker was one of the major baronial families in England The story of the Neville family is a fascinating one From their inconspicuous beginnings in Lincolnshire after the Norman Conquest by the fourteenth century the Nevilles of Raby

were among the most influential groups in the north of England virtually ruling the area by means of the royal offices they held and their political power reached its zenith in the fifteenth century with Richard de Neville earl of Warwick the so called Kingmaker This new study aims to answer the question of how a family of knightly status but with no special prominence was able to rise to such heights tracing its growth and development through a careful examination of surviving documents it also illustrates how the governance of medieval England worked with the cooperation of baronial families in a pragmatic manner quite apart from any abstract legal or constitutional principles CHARLES R YOUNG is Professor Emeritus of History at Duke University *The Will in Medieval England* Michael McMahon Sheehan, 1963 **Three Eleventh-century Anglo-Latin Saints' Lives** Rosalind C.
