Shia Islam and Politics Jon Armajani, 2020-05-20 This book argues that ever since Iran's Islamic Revolution in 1979 which established a Shia Islamic government in Iran that country's religious and political leaders have used Shia Islam as a crucial way of expanding Iran's objectives in the Middle East and beyond Since 1979 Iran's religious and political leaders have been concerned about Iran's security in the face of the hostility and expansionism of the United States and other western countries and the threats from powerful neighboring Sunni leaders and countries While Iran's government has attempted to align itself with Shia Muslims in various countries such as Iraq and Lebanon against American and Sunni expansionism the Iranian government has attempted to religiously nourish and politically mobilize those Shias as a matter of principle not only because of the Iranian government's desires to protect Iran from external threats The book analyzes Shia Islam and politics in Iran Iraq and Lebanon which have among the largest proportional Shia populations in the Middle East and are vibrant centers of Shia intellectual life The book's clear and jargon free approach make it especially accessible for students and general readers who would like an introduction to the book's topics

The Catholic Church and the World Religions Gavin D'Costa, 2011-04-28 There is no single standard textbook that outlines the official Roman Catholic theological position in relation to other religions which then explicates this orientation theologically and phenomenologically in relation to the four main religions of the world and

the flowering of new religious movements in the west The present project will cover this serious gap in the literature After outlining the teaching of Vatican II and the magisterium since then chapter one each subsequent chapter will be divided equally between a an exposition of the history and features of the religion or movement being studied and b a serious theological analysis of these features showing how these religions do have elements in common as well as how they differ in fundamental ways from Catholicism

The Islamic Council of Norway and the Challenge of Representing Islam in Europe Olav Elgvin,2025-07-24 Governments all across Europe have attempted to govern the Muslim population by working with representative Muslim councils These councils however have often been plagued by conflicts and splits Why This book is the first attempt to answer this question in full It does so by zooming in on the history of The Islamic Council of Norway For many years this organization functioned well But after a prolonged conflict the organization split in two in 2017 Based on a thorough study of the organization the author claims that pressure from society at large has made it more difficult for such organizations to fulfil their role as Muslim representatives

Islam Robert Crotty, Terence Lovat,2016-06-30 Terrorism is the threat of the age or so we are told and inevitably associated with it is the word Islam The notion of the Muslim terrorist has become a colloquialism in Western media Interestingly in all the history books about the Second World War the phrase Christian fascist is rarely seen in spite of the fact that skewed Christian theologies were used liberally by the Nazis to further their hatred This points to a blind spot in Western understanding about the ways in which religious and non religious ideology can be mutilated to serve hateful ends We think we see it in Islam but we can't see it in ourselves This book is dedicated to uncovering the many understandings of Islam we lack and the many misunderstandings we need to overcome

Force and Fanaticism Simon Ross Valentine,2015-01-09 Wahhabism is an Islamic reform movement found mainly in Saudi Arabia Closely linked to the Saudi monarchy it enforces a strict code of morality and conduct monitored by mutawa religious police and governs every facet of Saudi life according to its own strict interpretation of Shariah including gender segregation Wahhabism also prohibits the practice of any other faith even other forms of Islam in Saudi Arabia which is also the only country that forbids women from driving But what exactly is Wahhabism This question had long occupied Valentine so he lived in the Kingdom for three years familiarizing himself with its distinct interpretation of Islam His book defines Wahhabism and Wahhabi beliefs and considers the life and teaching of Muham mad ibn Abd al Wahhab and the later expansion of his sect Also discussed are the rejection of later developments in Islam such as bid'ah harmful innovations among them celebrating the prophet's birthday and visiting the tombs of saints the destruction of holy sites due to the fear of idolatry Wahhabi law which imposes the death sentence for crimes as archaic as witchcraft and sorcery and the connection of Wahhabism with militant Islam globally Drawing on interviews with Saudis from all walks of life including members of the feared mutawa this book appraises one of the most significant movements in contemporary

Islam **Islam for Nerds** Gerald Drissner, 2016-11-30 500 QUESTIONS AND ANSWERS ON THE WORLD S MOST MISINTERPRETED RELIGION Fully revised first edition Islamic history and anecdotes are part of everyday conversation in the Arab world This book provides a fascinating journey into one of the biggest and probably most misinterpreted religions via anecdotes and facts about Islam and its history the Qur an the prophet Muhammad and his traditions the Dos and Don ts for Muslims and how Islam spread around the world summarised in 500 questions and answers which the author has derived from his own experiences The author has lived in North Africa and the Middle East for ten years and immersed himself in Islamic culture and society He gradually learned the things kids in the Arab world already know but most people in other parts of the world never heard of by talking to his neighbours teachers scholars and ordinary people in the street This book explains Islam in its complexity The author also addresses current topics Islam in the West women s issues and Jihad It can be read without knowing Arabic However the author provides the fully vocalised Arabic source in addition to the English translation which may be beneficial for Arabic speaking readers *The Enemy At Home* Dinesh D'Souza, 2008-02-12 From THE ENEMY AT HOME In this book I make a claim that will seem startling at the outset The cultural left in this country is responsible for causing 9 11 In faulting the cultural left I am not making the absurd accusation that this group blew up the World Trade Center and the Pentagon I am saying that the cultural left and its allies in Congress the media Hollywood the nonprofit sector and the universities are the primary cause of the volcano of anger toward America that is erupting from the Islamic world The Muslims who carried out the 9 11 attacks were the product of this visceral rage some of it based on legitimate concerns some of it based on wrongful prejudice but all of it fueled and encouraged by the cultural left Thus without the cultural left 9 11 would not have happened I realize that this is a strong charge one that no one has made before But it is a neglected aspect of the 9 11 debate and it is critical to understanding the current controversy over the war against terrorism I intend to show that the left has actively fostered the intense hatred of America that has led to numerous attacks such as 9 11 If I am right then no war against terrorism can be effectively fought using the left wing premises that are now accepted doctrine among mainstream liberals and Democrats Whenever Muslims charge that the war on terror is really a war against Islam Americans hasten to assure them they are wrong Yet as Dinesh D Souza argues in this powerful and timely polemic there really is a war against Islam Only this war is not being waged by Christian conservatives bent on a moral crusade to impose democracy abroad but by the American cultural left which for years has been vigorously exporting its domestic war against religion and traditional morality to the rest of the world D Souza contends that the cultural left is responsible for 9 11 in two ways by fostering a decadent and depraved American culture that angers and repulses other societies especially traditional and religious ones and by promoting at home and abroad an anti American attitude that blames America for all the problems of the world Islamic anti Americanism is not merely a reaction to U S foreign policy but is also rooted in a revulsion against what Muslims perceive to be the atheism and moral depravity of American popular

culture Muslims and other traditional people around the world allege that secular American values are being imposed on their societies and that these values undermine religious belief weaken the traditional family and corrupt the innocence of children But it is not America that is doing this to them it is the American cultural left What traditional societies consider repulsive and immoral the cultural left considers progressive and liberating Taking issue with those on the right who speak of a clash of civilizations D Souza argues that the war on terror is really a war for the hearts and minds of traditional Muslims and traditional peoples everywhere The only way to win the struggle with radical Islam is to convince traditional Muslims that America is on their side We are accustomed to thinking of the war on terror and the culture war as two distinct and separate struggles D Souza shows that they are really one and the same Conservatives must recognize that the left is now allied with the Islamic radicals in a combined effort to defeat Bush s war on terror A whole new strategy is therefore needed to fight both wars In order to defeat the Islamic radicals abroad D Souza writes we must defeat the enemy at home

Encountering Islam Richard Sudworth, 2017-03-31 What do Christian Churches say Islam is What does the Church of England say Islam is And in the end what space is there for genuine engagement with Islam Richard Sudworth s unique study takes as its cue the question of political theology and brings this burgeoning area of debate into dialogue with Christian Muslim relations and Anglican ecclesiology The vexed subject of Christian Muslim Relations provides the presenting arena to explore what political theologies enable the Church of England to engage with the diverse public square of the twenty first century Each chapter concludes with an Anecdotes from the Field section setting themes from the chapter in the context of Richard Sudworth s own ministry within a Muslim majority parish *A Companion to Muslim Cultures* Aryn Sajoo, 2011-11-22 I B Tauris in association with the Institute of Ismaili Studies Culture shapes every aspect of the relationship between God and the believer in Islam as well as among believers and with those beyond the fold Fasts prayers and pilgrimages are attuned to social rhythms old and new no less than the designs of mosques and public gardens the making of religious music and ways of thinking about technology and wellbeing Ancient deserts and modern urban landscapes may echo with the same call for transcendence but in voices that emerge from very different everyday realities Scripture itself as the Prophet Muhammad knew is ever seen through a cultural lens both language and what it communicates are intimately tied to context And the cosmopolitanism that runs through Muslim history from the outset recalls T S Eliot s remark that culture is that which makes life worth living It frames how the deepest religious values are understood and practiced from modesty in adornment and solidarity with the underprivileged to integrity and accountability in political life Muslims have never been content with a passive separation of faith from their daily lives whether public or private What are the implications of this holistic view in a diverse world of Muslims and non Muslims How do core ethical values interface with the particulars of local cultures in all their complexity especially when it comes to matters like the status of women and the scope of individual religious freedom The answers at a time when secular and Muslim identities appear to be locked in conflict are

explored in this Companion by some of today's finest scholars
