Canada from the Outside in / Le Canada Vu D'ailleurs Pierre Anctil, Zilá Bernd, 2006 Selected papers presented at the International Council for Canadian Studies biennial conference held May 25-27 2005 **Fathers, Daughters, and Slaves** Doris Kadish, 2012-10-17 This new study brings to life the unique contribution of French women during the early nineteenth century a key period in the history of colonialism and slavery It offers in depth readings of works by five antislavery writers Germaine de Staël Claire Duras Marceline Desbordes Valmore Charlotte Dard and Sophie Doin ,

The Curse of Eve, the Wound of the Hero Peggy McCracken, 2010-11-24 In *The Curse of Eve the Wound of the Hero* Peggy McCracken explores the role of blood symbolism in establishing and maintaining the sex gender systems of medieval culture Reading a variety of literary texts in relation to historical medical and religious discourses about blood and in the context of anthropological and religious studies McCracken offers a provocative examination of the ways gendered cultural values were mapped onto blood in the Middle Ages As McCracken demonstrates blood is gendered when that of men is prized in stories about battle and that of women is excluded from the public arena in which social and political hierarchies are contested and defined through chivalric contest In her examination of the conceptualization of familial relationships she uncovers the privileges that are grounded in gendered definitions of blood relationships She shows that in narratives about sacrifice a father's relationship to his son is described as a shared blood whereas texts about women accused of giving birth to monstrous children define the mother's contribution to conception in terms of corrupted often menstrual blood Turning to fictional representations of bloody martyrdom and of eucharistic ritual McCracken juxtaposes the blood of the wounded guardian of the grail with that of Christ and suggests that the blood from the grail king's wound is characterized in opposition to that of women and Jewish men Drawing on a range of French and other literary texts McCracken shows how the dominant ideas about blood in medieval culture point to ways of seeing modern values associated with blood in a new light and how modern representations in turn suggest new perspectives on medieval perceptions **Doing Double Dutch** Elke Brems, Orsolya Réthelyi, Ton van Kalmthout, 2017-05-22 The importance of a minor language in the field of world literature Dutch literature is increasingly understood as a network of texts and poetics connected to other languages and literatures through translations and adaptations In this book a team of international researchers explores how Dutch literary texts cross linguistic historical geophysical political religious and disciplinary borders and reflects on a wide range of methods for studying these myriad border crossings As a result this volume provides insight into the international dissemination of Dutch literature and the position of a smaller less translated language within the field of world literature The title *Doing Double Dutch* evokes a popular rope skipping game in which two people turn two long jump ropes in opposite directions while a third person jumps them A fitting metaphor for how literature circulates internationally two dynamic spheres the source culture and the target culture engage one another in a complex pattern of movement resulting in a new

Transforming Tales Miranda Griffin, 2015 *Transforming Tales* argues that the study of transformation is crucial for understanding a wide range of canonical work in medieval French literature From the *lais* and Arthurian romances of the twelfth and thirteenth centuries through the *Roman de la Rose* and its widespread influence to the fourteenth century *Ovide moralise* and the vast prose cycles of the late Middle Ages metamorphosis is a recurrent theme resulting in some of the best known and most powerful literature of the era *Transforming Tales* is the first book in English to explore in detail the importance of ideas of metamorphosis in French literature from the twelfth to the fifteenth centuries This book s purpose is twofold it traces a series of figures the werewolf the snake woman the nymph the magician amongst others as they are transformed within individual texts and it also examines the way in which the stories of transformation themselves become rewritten during the course of the Middle Ages Griffin s approach combines close readings and comparisons of literary texts with readings informed by modern critical theories which are grounded in many of the ideas raised by medieval metamorphosis the body gender identity and categories of life Literary depictions and reworkings of transformation raise questions about medieval understandings of the differences between human and animal man and woman God and man life and death these are the questions explored in *Transforming Tales*

Love Cures Laine E. Doggett,2012-04-30 What is love Popular culture bombards us with notions of the intoxicating capacities of love or of beguiling women who can bewitch or heal to the point that it is easy to believe that such images are timeless and universal Not so argues Laine Doggett in Love Cures Aspects of love that are expressed in popular music such as love is a drug sexual healing and love potion number nine trace deep roots to Old French romance of the high Middle Ages A young woman heals a poisoned knight A mother prepares a love potion for a daughter who will marry a stranger in a faraway land How can readers interpret such events In contrast to scholars who have dismissed these women as fantasy figures or labeled them witches Doggett looks at them in the light of medical and magical practices of the high Middle Ages Love Cures argues that these practitioners as represented in romance have shaped modern notions of love Love Cures seeks to engage scholars of love marriage and magic in disciplines as diverse as literature history anthropology and philosophy

Local Societies and Peasantry Agencies in Medieval Iberia Juan Antonio Quirós Castillo,2025-01-26 Despite the significant attention medieval scholarship has devoted to the study of peasant societies these groups have traditionally been depicted as passive and homogeneous merely able of resisting pressures from the state or powerful individuals However in recent years the availability of new records the widespread adoption of microhistorical analyses and the renewal of conceptual frameworks have enabled scholars to undertake more detailed and nuanced investigations This collective volume aims to explore the political economic and social practices of Iberian medieval peasant societies A key finding of this multivocal analysis is the revelation of the relative subalternity of medieval ruling groups and the constraints on peasant actions across various geographical and chronological contexts

The Female Voice in The Assembly of Ladies Simone Celine Marshall,2009-05-27 The Assembly of Ladies is a fifteenth century secular love poem in Middle English that adheres closely to conventional poetic structures but throws these conventions into relief as it presents the narrative from a woman s point of view a rare occurrence for poetry of this period Who wrote it for whom and why are questions about which we can speculate but never ultimately answer the poem itself

gives us few clues Yet the poem has had a remarkable shelf life in subsequent centuries the poem has continued to be noticed read and debated as a small but significant artefact from fifteenth century England This book examines how fifteenth century English social conventions impact upon gender relations in *The Assembly of Ladies* By drawing on contemporary and clearly influential texts from the fifteenth century as a comparison Marshall shows how *The Assembly of Ladies* has integrated social conventions into its themes and structure elevating for the reader the ways that social and literary conventions impact on women in the production and consumption of literature **Book Bulletin** ,1920
