The Roman Empire Peter Garnsey, Richard Saller, 2014-11-24 During the Principate roughly 27 BCE to 235 CE when the empire reached its maximum extent Roman society and culture were radically transformed But how was the vast territory of the empire controlled Did the demands of central government stimulate economic growth or endanger survival What forces of cohesion operated to balance the social and economic inequalities and high mortality rates How did the official religion react in the face of the diffusion of alien cults and the emergence of Christianity These are some of the many questions posed here in the new expanded edition of Garnsey and Saller's pathbreaking account of the economy society and culture of the Roman Empire This second edition includes a new introduction that explores the consequences for government and the governing classes of the replacement of the Republic by the rule of emperors Addenda to the original chapters offer up to date discussions of issues and point to new evidence and approaches that have enlivened the study of Roman history in recent decades A completely new chapter assesses how far Rome's subjects resisted her hegemony The bibliography has also been thoroughly updated and a new color plate section has been added *Cicero's Speech Pro Rabirio Postumo* Marcus Tullius Cicero, 2001 Cicero's speech delivered in the mid 50s BC in defence of Gaius Rabirius Postumus was the last of a series of trials which followed the restoration of the Egyptian king Ptolemy XII Auletes to his throne This had been secured through the services of a Roman army which had acted on the promise of a huge illegal bribe Rabirius Postumus a leading financier had travelled to Egypt to collect the promised money acting on behalf of himself and other creditors of the king including Caesar and Pompey On his return political opponents placed him amongst others on trial This book provides a new

translation the speech and the first commentary in English of a work which is a major source for Roman and Egyptian history at the time of the late Republic The extensive introduction furnishes a comprehensive review of the events surrounding the trial as well as a significant reappraisal of the career of Rabirius Postumus who is shown to be a major actor on the Roman political stage The detailed commentary discusses historical and legal points and also includes a number of important textual emendations

Encyclopedia of the Roman Empire Matthew Bunson, 2014-05-14 Not much has happened in the Roman Empire since 1994 that required the first edition to be updated but Bunson a prolific reference and history author has revised it incorporated new findings and thinking and changed the dating style to C E Common Era and B C E Before Common Era For the 500 years from Julius Caesar and the Gallic Wars in 59 51 B C E to the fall of the empire in the west in 476 C E he discusses personalities terms sites and events There is very little cross referencing

Ancient Greece and Rome Keith Hopwood, 1995 Sir Thomas Fairfax not Oliver Cromwell was creator and commander of Parliament's New Model Army from 1645 to 1650 Although Fairfax emerged as England's most successful commander of the 1640s this book challenges the orthodoxy that he was purely a military figure showing how he was not apolitical or disinterested in politics The book combines narrative and thematic approaches to explore the wider issues of popular allegiance puritan religion concepts of honour image reputation memory gender literature and Fairfax's relationship with Cromwell Black Tom delivers a groundbreaking examination of the transformative experience of the English revolution from the viewpoint of one of its leading yet most neglected participants It is the first modern academic study of Fairfax making it essential reading for university students as well as historians of the seventeenth century Its accessible style will appeal to a wider audience of

those interested in the civil wars and interregnum more generally **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office,1979 Christians at Rome in the First Two Centuries Peter Lampe,2006-06-01 A groundbreaking work broad in scope and closely detailed study of the true nature of early Christianity in Rome *The Cult of Imperial Honor in British India* S. Patterson,2009-03-30 What was imperial honor and how did it sustain the British Raj If No man may harm me with impunity was an ancient theme of the European aristocracy British imperialists of almost all classes in India possessed a similar vision of themselves as overlords belonging to an honorable race so that ideals of honor condoned and sanctified their rituals connecting them with status power and authority Honor most broadly legitimated imperial rule since imperialists ostensibly kept India safe from outside threats Yet at the individual level honor kept the white herd together providing the protocols and etiquette for the imperialist who had to conform to the strict notions of proper and improper behavior in a society that was always obsessed with maintaining its dominance over India and Indians Examining imperial society through the prism of honor therefore opens up a new methodology for the study of British India *Pliny the Elder on Science and Technology* John F. Healy,1999 The Elder Pliny's Natural History is essentially a work of reference providing a wide ranging account of human mores and achievement in the arts and sciences in the first century AD It influenced the content and character of subsequent technical literature but errors in transmission of the manuscripts led to undeserved criticism from the time of Niccolo Leoniceo the late fifteenth century Italian humanist Pliny's work is here re examined for the first time since the 1920s Modern experiments simulating the techniques described by Pliny and an in depth study of his development of a technical language confirm his unique contribution to our knowledge of science in early imperial Rome Pliny does not in general understand the principles underlying the phenomena he observes but makes a significant input especially in the fields of crystallography chemistry and physics as well as of the applied sciences from which beginnings those scientific disciplines would evolve many centuries later Ironically Pliny's scientific curiosity led to his death in AD 79 while observing the eruption of Vesuvius at close quarters **From Paul to Valentinus** Peter Lampe,2003 In this pathbreaking study of the rise and shape of the earliest churches in Rome Lampe integrates history archaeology theology and social analysis He also takes a close look at inscriptional evidence to complement the reading of the great literary texts from Paul's Letter to the Romans to the writings of Clement of Rome Justin Martyr Montanus and Valentinus Thoroughly reworked and updated by the author for this English language edition this study is a groundbreaking work broad in scope and closely detailed Lampe deals with the shape of leadership and the Christians relation to the Judeans living in Rome In six parts comprised of fifty one chapters and four appendices Lampe greatly advances our knowledge of the shape of leadership and the Christians relation to the Judeans living in Rome **Encyclopedia of Historians and Historical Writing** Kelly Boyd,2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from

around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate. Additionally, the Encyclopedia includes some 200 essays treating the development of national, regional, and topical historiographies from the Ancient Near East to the history of sexuality. In addition to the Western tradition, it includes substantial assessments of African, Asian, and Latin American historians and debates on gender and subaltern studies.
