Edward Wang, Franz L. Fillafer, Georg G. Iggers, 2007 Born in Germany Georg Iggers escaped from Nazism to the United States in his adolescence where he became one of the most distinguished scholars of European intellectual history and the history of historiography In his lectures delivered all over the world and in his numerous books translated into many languages Georg Iggers has reshaped historiography and indefatigably promoted cross cultural dialogue This volume reflects the profound impact of his oeuvre Among the contributors are leading intellectual historians but also younger scholars who explore the various cultural contexts of modern historiography focusing on changes of European and American scholarship as well as non Western historical writing in relation to developments in the West Addressing these changes from a transnational perspective this well rounded volume offers an excellent introduction to the field which will be of interest to both established historians and graduate students Chikamatsu C.

Andrew Gerstle, Chikamatsu, 2002-09-04 Chikamatsu Monzaemon 1653 1725 often referred to as Japan's Shakespeare and a god of writers was arguably the most famous playwright in Japanese history and wrote more than 100 plays for the kabuki and bunraku theaters Today the plays of this major literary figure are performed on kabuki and bunraku stages as well as in the modern theater and forty nine films of his plays have been made thirty one of them from the silent era Translations of Chikamatsu's plays are available but we have few examples of his late work in which he increasingly incorporated stylistic elements of his shorter contemporary dramas into his longer period pieces Translator C Andrew Gerstle argues that in these mature history plays Chikamatsu depicted the tension between the private and public spheres of society by combining the rich character development of his contemporary pieces with the larger political themes of his period pieces In this volume Gerstle translates five plays four histories and one contemporary piece never before available in English that complement other collections of Chikamatsu's work revealing new dimensions to the work of this great Japanese playwright and artist

The Three Sui Quash the Demons' Revolt, 2010-08-04 The twenty chapter novel The Three Sui Quash the Demons Revolt is traditionally attributed to Luo Guanzhong d after 1364 the alleged author of two of China's most famous and beloved works of fiction The Romance of the Three Kingdoms and The Water Margin The Three Sui tells the story of the uprising of adherents of the Maitreya Buddha led by Wang Ze in 1047 1048 Wang Ze was eventually executed and all future heterodox activity outlawed Paradoxically The Three Sui treats the rebellion as an occasion for slapstick baggy pants humor in which facts are distorted and wildly mixed with fiction Wang Ze's real life lieutenants show up as a comical peddler and a mysterious Daoist priest A celebrated warrior takes part in the rebellion despite having died seventeen years earlier Although the novel is divided into chapters and otherwise follows the traditional format for such extended narratives a careful examination reveals The Three Sui is an arrangement of self contained vernacular stories No story bears an intrinsic relationship to any other story And because the integrity of the various stories has been so remarkably preserved The Three Sui is a vernacular novel in which the vernacular story reigns supreme Although the Wang Ze rebellion took place during the Northern Song dynasty 960 1127 ultimately The Three Sui is the story of the Ming dynasty 1368 1644 in Song masquerade It calls attention to the social unrest even anarchy caused by the rising power and influence of movements like The White Lotus Society and warns of the Ming's downfall unless such groups are contained In this the novel proved to be a prescient voice The Ming collapsed as the result of a central authority weakened by mass sectarian uprisings The Three Sui has been little known and sadly overlooked by scholars of Chinese literature and history Now this vibrant translation and insightful interpretive essay make this early example of Chinese vernacular fiction available to a broad audience interested in comparative literature and fiction

awaited complement to Michael Loewe's acclaimed Biographical Dictionary of the Qin Former Han and Xin Periods 2000. With more than 8 000 entries based upon historical records and surviving inscriptions the comprehensive Biographical Dictionary of Later Han to the Three Kingdoms 23-220 AD now provides information on men and women of the Chinese world who lived at the time of Later or Eastern Han from Liu Xiu founding Emperor Guangwu reg. 24-57 to the celebrated warlord Cao Cao 155-220 at the end of the dynasty. The entries including surnames personal names styles and dates are accompanied by maps genealogical tables and indexes with lists of books and special accounts of women. These features together with the convenient surveys of the history and the administrative structure of the dynasty will make Rafe de Crespigny's work an indispensable tool for any further serious study of a significant but comparatively neglected period of imperial China.

Manga and the Representation of Japanese History Roman Rosenbaum, 2013. This edited collection explores how graphic art and in particular Japanese manga represent Japanese history. The articles explore the representation of history in manga from disciplines that include such diverse fields as literary studies politics history cultural studies linguistics narratology and semiotics. Despite this diversity of approaches all academics from these respective fields of study agree that manga pose a peculiarly contemporary appeal that transcends the limitation imposed by traditional approaches to the study and teaching of history. The representation of history via manga in Japan has a long and controversial historiographical dimension. Thereby manga and by extension graphic art in Japanese culture has become one of the world's most powerful modes of expressing contemporary historical verisimilitude. The contributors to this volume elaborate how manga and by extension graphic art rewrites reinvents and reimagines the historicity and dialectic of bygone epochs in postwar and contemporary Japan. *Manga and the Representation of Japanese History* will be of interest to students and scholars of Asian studies Asian history Japanese culture and society as well as art and visual culture.

Sharing the Light Lisa Raphals, 1998-07-30. *Sharing the Light* explores historical and philosophical shifts in the depiction of women and virtue in the early centuries of the Chinese state. These changes had far reaching effects on both the treatment of women in Chinese society and on the formation of Chinese philosophical discourse on ethics cosmology epistemology and self cultivation. Warring States and Han dynasty narratives frequently represented women as intellectually adroit politically astute and ethically virtuous. These histories discourses and life stories portray women as active participants within their own society not inert victims of it. The women depicted resembled sages ministers and generals as the mainstays and destroyers of dynasties. These stories emphasized that sagacity intellect strategy and statecraft were virtues proper to women an emphasis that effectively disappeared from later collections and instruction texts by and for women. During the same period there were also important changes in the understanding of two polarities that delineated what now is called gender. Han correlative cosmology included a range of hierarchical analogies between yin and yang and men and women and the understanding of yin and yang shifted from complementarity toward hierarchy. Similarly the doctrine of separate spheres inner and outer *nei wai* shifted from a notion of

appropriate distinction between men and women toward physical social and intellectual separation and isolation
