Romantic Imagination:

The Romantic Imagination Frederick Burwick, Jürgen Klein, 1996 **Poetic Madness and the Romantic Imagination** Frederick Burwick, 2010-11-01 **The Romantic Imagination** Cecil Maurice Bowra, 1976 **English Romantic Poetry** Harold Bloom, Sterling Professor of Humanities Harold Bloom, Henry W. Albert A. Berg, 2009 Examines the Romantic period in poetry that includes the works of Byron Shelley Keats and others **The Romantic Imagination**, 1977 **Real and Imagined Women in British Romanticism** Gaura Shankar Narayan, 2010 Real and Imagined Women in British Romanticism uses feminist ideology and deconstructive criticism to reconstruct the cultural context embedded in Romantic canonical texts To achieve this end the book undertakes a close textual study of these texts and places them in the intellectual context of Mary Wollstonecraft's critique of culture As a result of intellectual contextualizing as well as theoretical applications the Romantic imagination as represented by William Wordsworth and John Keats emerges as the place where gender division and gender certitude break down This book intervenes in the traditional critical debates about the Romantic imagination to show that the Romantic imagination as set forth in these texts registers the vigorous cultural politics of gender and aesthetics that defined the 1790s and continued to exert influence for decades Book Jacket **Key Concepts in Romantic Literature** Jane Moore, John Strachan, 2010-09-10 Key Concepts in Romantic Literature is an accessible and easy to use scholarly guide to the literature criticism and history of the culturally rich and politically turbulent Romantic era 1789-1832 The book offers a comprehensive and critically up to date account of the fascinating poetry novels and drama which characterized the Romantic period alongside an historically informed account of the important social political and aesthetic contexts which shaped that body of writing The epochal poetry of William Wordsworth William Blake Mary Robinson S. T. Coleridge Charlotte Smith P. B. Shelley Lord Byron John Keats Felicia Hemans and Letitia Elizabeth Landon the drama of Joanna Baillie and Charles Robert Maturin the novels of Jane Austen and Mary Shelley all of these figures and many more are insightfully discussed here together with clear and helpful accounts of the key contexts of the age's literature including the French Revolution slavery industrialisation empire and the rise of feminism as well as accounts of perhaps less familiar aspects of late Georgian culture such as visionary spirituality atheism gambling fashion music and sport This is the broadest guide available to late eighteenth and early 19th century British and Irish literature history and culture

Romanticism and Visuality Sophie Thomas, 2007-12-12 This book investigates the productive crosscurrents between visual culture and literary texts in the Romantic period focusing on the construction and manipulation of the visual the impact of new visual media on the literary and historical imagination and on fragments and ruins as occupying the shifting border between the visible and the invisible It examines a broad selection of instances that reflect debates over how seeing should itself be viewed instances from Daguerre's Diorama to the staging of Coleridge's play *Remorse* to the figure of the Medusa in Shelley's poetry and at the Phantasmagoria in which the very act of seeing is represented or dramatized In

reconsidering literary engagements with the expanding visual field this study argues that the popular culture of Regency Britain reflected not just emergent and highly capitalized forms of mass entertainment but also a lively interest in the aesthetic and conceptual dimensions of looking What is commonly thought to be the Romantic resistance to the visible gives way to a generative fascination with the visual and its imaginative even spectacular possibilities

romanticism Irving Babbitt,1919 The Romantic Life D. Andrew Yost,2022-08-24 The world is disenchanted

Rationalization intellectualization and scientism rule the day We used to see the world as a magical place but now it s just a material space How did we get here The shift comes in part from the rise of a certain kind of secularism one that reduces human experiences to whatever is explainable through observation Love It s just a biological drive Joy a rush of adrenaline Beauty an influx of dopamine If you can t test it it isn t true or so the thinking goes The Romantic Life draws upon eighteenth and nineteenth century Romanticism to provide five strategies to re enchant the world five ways to imbue the world with meaning truth and beauty According to the Romantics far from being useless encounters with impractical things like the imagination nature symbolism sincerity and the sublime give our lives a richness and depth that cannot be attained on a purely material account of the world By learning from their example we can come to see into the life of things as William Wordsworth called it We can be re enchanted **The Romanticism Handbook** Sue Chaplin,Joel Faflak,2011-03-10 A one

Sciences Scott Masson,2017-11-28 The human sciences established and developed in the nineteenth century have slowly disintegrated It is an ironic end It was in the name of the greater legitimacy of more universal psychological criteria that its architects disavowed the traditional theological standard for valuing and evaluating human words and deeds With hindsight we can see that universality was indeed gained but only at the cost of alienating any sense of common legitimacy Harold Bloom defending the canon largely in the humanising moral sense convention of critics operating since Matthew Arnold has resolutely maintained the common legitimacy of aesthetic value against the claims of particular interest groups But the very universality attached to aesthetic value is at odds with the world of common sense and thus lies at the root of the problem To complicate matters this universality has been understood as a traditional criterion A more radical treatment of the subject is needed This study begins by surveying the field of modern hermeneutics Noting its repeated crises of self legitimisation it

traces these to circular beliefs bequeathed by Romanticism that human nature is self begetting and can thus be known intimately and autonomously After providing a historical overview of how human nature had been understood the focus shifts to the attack in Coleridge s *Biographia Literaria* on Wordsworth s 1802 Preface to *Lyrical Ballads* and to a reading of some key Romantic texts It reads Coleridge s famous definition of the imagination as an attack on Romantic hermeneutics rooted in the traditional view that man has been created in *Imago Dei*
