Staffordshire, Romantic Transfer Patterns Petra Williams, 1978 *Ceramics and Globalization* Neil Ewins, 2017-05-04
Neil Ewins study of the Staffordshire potteries in a period of great global change traces how ceramics production has been affected by globalisation in both familiar and unexpected ways Although many manufacturers such as Wedgwood initially moved production to cheaper labour markets in East Asia others remained in or returned to England once it became clear that outsourcing manufacturing was affecting the brand value and customer perception of their products Neil Ewins explores the complex behaviour of the UK ceramics industry using a combination of evidence from the press trade journals ceramic objects and primary interview evidence of manufacturers retailers and a ceramic designer Ewins suggests that although the surface designs of UK ceramics invariably reflect diverse cultural and stylistic influences a notion of authenticity often still resides in the place and context in which the ceramic product was originally made Overall the book argues that UK ceramics remain culturally complex because of issues of supply and demand and ties to heritage imagined or otherwise Within a context of globalization the book highlights compelling issues which have huge ramifications on UK manufacturing futures

Byron's Romantic Politics Peter Cochran, 2011-08-08 Byron exists in two incompatible dimensions as fully documented history and as romantic myth Often the myth predominates describing him as a passionate lover a staunch friend a great romantic poet a champion of

the working man a loyal author to his publisher and a fighter for democracy who sacrificed his life for the Freedom of Greece This book attempts to prove that the verifiable truth often proves him to be the opposite Using letters from Byron s family friends and associates which have never been transcribed collected and sequenced before Peter Cochran argues that the poet was an unscrupulous sponger on his relatives and friends that he harboured a horror at the idea of empowering the working man had no time for democracy and despised his publisher His contempt for the Greeks is clear from everything he writes about them and his motives for going to Greece at the end of his life which Cochran analyses in more depth than they have ever been analysed before were a disturbing mixture of self indulgent fantasy and death wish Using large amounts of manuscript evidence Cochran further argues that almost all editions of Byron s writing do his style very poor service constituting not contributions to knowledge of him but additions to the obfuscating myth **Staffordshire Romantic**
