The Romantics to Rodin The Romantics to Rodin ,1980 **Romantics to Rodin** H. W. Janson, 1980-03-01 Gerald Ackerman, Los Angeles County Museum of Art, Horst Woldemar Janson, Judith Applegate, Glenn Benge, Marie Busco, Peter Fusco, Ruth Butler, Alan Darr, June E. Hargrove, James Holderbaum, John M. Hunisak, Fred Licht, Charles W. Millard, Gail Stavitsky, Anne M. Wagner, 1980 **The Romantics to Rodin** Peter Fusco, 1980 The Romantics to Rodin "French Sculpture Following the Franco-Prussian War, 1870?0" Michael Dorsch, 2017-07-05 French Peter Fucso.1980 Sculpture Following the Franco Prussian War 1870 80 investigates the role played by the trope of the strong woman fallen man in re establishing morale among the French people following the Franco Prussian War The study explores how certain French sculptors including Falgui Merci Barrias and Rodin presented this recent history of defeat in commemorative monuments that increasingly dominated public space across France during the final decades of the nineteenth century Though it focuses on French nationalism and the commemoration of war or as is the case with the French following the Franco Prussian War the commemoration of defeat this volume also examines shifts in gender roles in the latter half of the nineteenth century and the impact of military defeat on relations between the sexes The book probes the aesthetic discourse of the period concerning the merits of traditional allegorical sculpture versus new fangled realist sculpture in depicting modern life Drawing on extensive archival research Michael Dorsch gives a voice to the sculptures he discusses restoring these often ignored works to their proper place in history The Encyclopedia of Indianapolis David J. Bodenhamer, Robert G. Barrows, 1994-11-22 A work of this magnitude and high quality will obviously be indispensable to anyone studying the history of Indianapolis and its region The Journal of American History absorbing and accurate Although it is a monument to Indianapolis do not be fooled into thinking this tome is impersonal or boring It's not It's about people interesting people The Encyclopedia of Indianapolis is as engaging as a biography Arts Indiana comprehensive and detailed might well become the model for other such efforts Library Journal With more than 1 600 separate entries and 300 illustrations The Encyclopedia of Indianapolis is a model of what a modern city encyclopedia should be From the city s inception through its remarkable transformation into a leading urban center the history and people of Indianapolis are detailed in factual and interpretive articles on major topics including business education religion social services politics French Master Drawings from the Collection of Muriel Butkin Carter E. Foster, Sylvain ethnicity sports and culture Bellenger, Patrick Shaw Cable, Cleveland Museum of Art, 2001 Accompanying an exhibition at the Cleveland Museum of Art last fall and now at the Dahesh Museum in New York this catalog focuses upon the French drawings in Muriel Butkin's highly specialized collection which she has promised to the Cleveland Museum To assemble her diverse yet nicely integrated set of drawings Butkin started buying 18th century French drawings when they were affordable In the mid 1970s with the guidance of art historian Gabriel Weisberg she expanded her collection to include 19th century French drawings These drawings were

counter to the mainstream impressionist and postimpressionist taste of the time and focused more on academic French subject matter such as life drawings portraits or compositional studies In the preface Butkin herself reinforces her taste by saying that drawings are much more personal and spontaneous than paintings often demonstrating the artistic process Foster curator of drawings at the Cleveland Museum and other scholars present a well researched volume that contributes new information to a very specialized field of art history It is greatly disappointing however that the bulk of the reproductions are in black and white often missing the subtly colored tones in many of the drawings Nonetheless this is recommended for museum and academic libraries that support graduate programs in art history 183 b w illustrations of Romantic Art and Architecture Allison Lee Palmer, 2019-07-26 Romanticism is multifaceted and a wide range of nostalgic emotional and exotic concerns were expressed in such styles and movements as the Gothic Revival Classical Revival Orientalism and the Pre Raphaelite Brotherhood Some movements were regional and subject specific such as the Hudson River School of landscape painting in the United States and the German Nazarene movement which focused primarily on religious art in Rome The movements range across Western Europe and include the United States This dictionary will provide a fuller historical context for Romanticism and enable the reader to identify major trends and explore artists of the period This second edition of Historical Dictionary of Romantic Art and Architecture contains a chronology an introduction and an extensive bibliography The dictionary section has over 300 cross referenced entries on major artists of the romantic era as well as entries on related art movements styles aesthetic philosophies and philosophers This book is an excellent resource for students researchers and anyone wanting to know more about Romantic art The Invention of the Model Susan Waller, 2017-07-05 Although mastery of the representation of the human figure was central to art making as early as the fifteenth century in Europe in the nineteenth century French imagination the artist's model became identified as a distinct social type and cultural trope This study of the artist s model in Paris between 1830 and 1870 incorporates three histories a social history of professional models a cultural history of models as social types and an art history of representations of the model in elite and popular visual culture It takes as its starting point the artist model transaction demonstrating that stereotypes of the model that figured in the public imagination were framed both by gender and ethnicity the book develops a nuanced typology of different types of models Interwoven with the analysis of the constructed identities of models are accounts of the lives of particular models and the histories of the urban population groups from which they emerged The Invention of the Model Artists and Models in Paris 1830 1870 is an adept exploration of a major issue in nineteenth century art which will be of interest not only to art historians but also to social and French cultural historians Pavie in the **Borderlands** Betje Black Klier, 2000-11-01 Pavie in the Borderlands describes the cultural forces that shaped the trans Mississippi West between 1765 and 1838 by focusing on the extraordinary Pavie family From their settlement on the Louisiana frontier three generations of Pavies witnessed the creation of the U S and its territorial expansion through the

Louisiana Purchase Betje Black Klier relates the experiences of the Pavies through the adventures of their kinsman Th odore an enterprising eighteen year old who left provincial France to visit Louisiana and Texas in 1829 and 1830 Th odore kept a journal and published his exploits in a volume entitled Souvenirs atlantiques In the first of its two parts Pavie in the Borderlands provides the story of the family s early experiences in North America a biographical study of Th odore translations of some of his colorful letters from the borderlands and an analysis of how his travels transformed him The second part of the volume presents the first English translation of a substantial portion of Th odore s journal including reproductions of his sketches of Louisiana and Texas environs Klier unveils the young scholar and artist as the most significant nineteenth century travel writer to journey west of the Mississippi By intertwining Louisiana and Texas history with French history Pavie in the Borderlands provides important new insights on the region's environmental social economic cultural and intellectual history **Drapery** Gen Doy, 2001-12-21 Gen Doy investigates the hitherto neglected meanings of drapery and the draped body in visual culture The baroque and the classical are her subjects as are Freud's Gravida Clerambault's writings and photographs of draped figures the fetishistic play between veiling and revealing and the meanings of drapery in recent art from Christo's wrapped Reichstag to the impact of the modern women's movement on fine art practice Yet she also finds and focuses on the draped body now in places like Algeria and Kosovo where drapery s connotations are no longer those of purity and civilized elegance but of barbarism poverty and savage death **History of Dress and Fashion in the Age of Empire** Denise Amy Baxter, 2018-11-01 During the nineteenth and early twentieth centuries the production of dress shifted dramatically from being predominantly hand crafted in small quantities to machine manufactured in bulk The increasing democratization of appearances made new fashions more widely available but at the same time made the need to differentiate social rank seem more pressing In this age of empire the coding of class gender and race was frequently negotiated through dress in complex ways from fashionable dress which restricted or exaggerated the female body to liberating reform dress from self defining black dandies to the oppressions and resistances of slave dress Richly illustrated with over 100 images and drawing on a plethora of visual textual and object sources A Cultural History of Dress and Fashion in the Age of Empire presents essays on textiles production and distribution the body belief gender and sexuality status ethnicity and visual and literary representations to illustrate the diversity and cultural significance of dress and fashion in the period **Broken Tablets** Jonathan P. Ribner, 2023-12-22 In this first study of art law and the legislator Jonathan Ribner provides a revealing look at French art from 1789 to 1848 the period in which constitutional law was established in France Drawing on several disciplines he discusses how each of the early constitutional regimes in France used imagery suggesting the divine origin and sacred character of its laws Primarily a study of art and politics Broken Tablets discusses painting sculpture prints and medals many reproduced here for the first time as well as contemporary literature including the poetry of Alfred de Vigny Alphonse de Lamartine and Victor Hugo Ribner assesses the

ways in which legislation imagery became an instrument of political propaganda and he clearly illuminates the cult of the law as it became personalized under Napoleon monarchist under the Restoration and defensive under Louis Phillipe In this first study of art law and the legislator Jonathan Ribner provides a revealing look at French art from 1789 to 1848 the period in which constitutional law was established in France Drawing on several disciplines he discusses how each of the Sculpture in the Metropolitan Museum of Art: A catalogue of works by artists born before 1865 Metropolitan Museum of Art (New York, N.Y.), Lauretta Dimmick, Donna J. Hassler, 1999 Volume One This volume catalogues the distinguished and comprehensive collection of approximately 400 works of American sculpture by artists born before 1865 This publication includes an introduction on the history of the collection's formation particularly in the context of the Museum's early years of acquisitions and discusses the outstanding personalities involved Metropolitan Museum of Art website Harris, 2008-09-04 Lourdes was at the very centre of nineteenth century debates on religion science and medicine Both the Church and secularists championed the miracle town as crucial in shaping how society should think about the mind body and spirit Since the visions of Bernadette Soubirous in 1858 transformed the quiet Pyrenean town into an international tourist and pilgrimage destination it has been a site for controversy In her well crafted and carefully researched book Harris deftly places Lourdes and its attendant spiritual movement firmly at the centre of French history and shows its significance in the country s development The Shock of Recognition Lewis Pyenson, 2020-10-12 In The Shock of Recognition Lewis Pyenson uses a method called Historical Complementarity to identify the motif of non figurative abstraction in modern art and science He identifies the motif in Picasso's and Einstein's educational environments He shows how this motif in domestic furnishing and in urban lighting set the stage for Picasso's and Einstein's professional success before 1914 He applies his method to intellectual life in Argentina using it to address that nation s focus on an inventory of the natural world until the 1940s its adoption of non figurative art and nuclear physics in the middle of the twentieth century and attention to landscape painting and the wonder of nature at the end of the century Ethno-symbolism and Nationalism Anthony D. Smith, 2009-02-02 Provides a concise explanation of an ethno symbolic approach to the study of nations and nationalism and simultaneously embodies a general statement of Anthony D Smith's contribution to this approach and its application to the central issues of nations and nationalism Funerary Arts and Tomb Cult SuzanneGlover Lindsay, 2017-07-05 Even before the upheaval of the Revolution France sought a new formal language for a regenerated nation Nowhere is this clearer than in its tombs some among its most famous modern sculpture rarely discussed as funerary projects Unlike other art historical studies of tombs this one frames sculptural examples within the full spectrum of the material funerary arts of the period along with architecture and landscape This book further widens the standard scope to shed new and needed light on the interplay of the funerary arts tomb cult and the mentalities that shaped them in France over a period famous for profound and often violent change Suzanne Glover Lindsay also brings the abundant recent work on the body to the funerary arts and tomb cult for the

first time confronting cultural and aesthetic issues through her examination of a celebrated sculptural type the recumbent effigy of the deceased in death Using many unfamiliar period sources this study reinterprets several famous tombs and funerals and introduces significant enterprises that are little known today to suggest the prominent place held by tomb cult in nineteenth century France Images of the tombs complement the text to underline sculpture s unique formal power in funerary mode The Woman of Ideas in French Art, 1830-1848 Janis Bergman-Carton,1995-01-01 Women in 19th century French art were represented as victims of a harsh urban working class life This book offers the argument that this representation obscured the model woman of ideas a prominent figure in the narratives of French national and sexual politics
