Rome Time And Eternity:

Rome Anthony Woodward, 1995 **Jews and Christians on Time and Eternity** Annette Aronowicz, 1998 This book grapples with a wide range of contemporary ethical and religious issues through the lens of the reflections of Charles P. Guy on his friend and mentor Bernard Lazare. Both P. Guy, a leading French Catholic poet and philosopher, and Bernard Lazare, an iconoclastic Jewish intellectual, were passionately involved in the Dreyfus Affair which forms the background of these reflections. The book is in four parts. The first sets P. Guy's portrait of Bernard Lazare in a series of contexts analyzing it against the background of the rampant antisemitism of its time, situating it in relation to present-day discussions about the Other and especially placing it within various twentieth-century attempts to rethink religion. P. Guy's great contribution in this area lies in redirecting our attention to the ways human beings respond to defeat and to the ways the intellect is oriented by something outside itself as keys to the discovery of the transcendent. His work reformulates the meaning of hope and incarnation. The second part of the book presents P. Guy's portrait of Bernard Lazare in a complete English translation. In the third part, the author shows the affinity of P. Guy's thought to that of two Jewish thinkers, Franz Rosenzweig and Emmanuel Levinas. All three, in rethinking the religious dimension, located it amidst the daily interactions between people. The final part explores the implications of this notion of transcendence for the task of interpretation in the social sciences and the humanities.

Time in the Eternal City, 2020-10-12 *Time in the Eternal City: Perceiving and Controlling Time in Late Medieval and Renaissance Rome* is a major contribution to the study of time and its numerous aspects in late medieval and Renaissance Rome. The authors offer a versatile view on the variety of ways time could be perceived. Individual chapters concentrate on the grass root levels of everyday life, on various uses of the past in the present as well as on the control of time by the ecclesiastical authorities. These studies reveal a wealth of new information that demonstrates the almost endlessly fluid manner in which time could be perceived as well as the innovative ways in which time could be used by individuals and authorities alike. Contributors are members of Tuomas Heikkilä's research group at the Finnish Institute in Rome: Holger Kaasik, Urpo Kantola, Marko Halonen, Jasmin Lukkari, and Saku Pihko.

Covers the original and lasting insights of evolutionary biologist Charles Darwin, physicist Albert Einstein, philosopher Alfred North Whitehead, and theologian Pierre Teilhard de Chardin. concept in Confessions XI is not Platonic but in schematic terms Epicurean Identifying new influences on the Confessions from Aristoxenus to Lucretius while keeping Augustine's phenomenological interpreters in view The Space of Time is a path breaking work on Confessions X to XII and a ranging contribution to the history of the concept of time **Time and**

Uncertainty Paul André Harris, Michael Crawford, 2004-05-01 The essays in this volume all originated at the 2001 conference of the International Society for the Study of Time The theme Time and Uncertainty sounds redundant but the contributions try to come to terms with the irreducible openness of time and the impermanence of life The essays from various disciplines have been grouped around fracture and rupture grappling with time and uncertainty as a breach and rapture and structure solving uncertainty into pattern The Philosophy of Literature Condé Benoist Pallen, 1897

Eternity and Eternal Life Tibor Horvath, 2006-01-01 The Newtonian concept of time has been changed by Einsteinian insight Yet the Einsteinian world view might make it difficult to appreciate traditional concepts of eschatology like heaven and hell death and immortality life after death and resurrection last day and final judgments because these expressions presuppose a pre Einsteinian view of the universe Since theology cannot remain unaffected by the new research in concepts of time Eternity and Eternal Life tries to express the eschatological faith of the Church by using the time language of our age To achieve this it provides an overview on the research in the nature of time done in geology cosmology physics biology psychology sociology history and philosophy and proposes a notion of time for timely Christology and for timely eschatology By using the singularity event as literary form Horvath scrutinizes how Christ's time can lead to the times of all existing realities through death to eternity This is a pioneering work one that needs to be tested in the community of interested readers It is a communal search for an understanding of life death and eternal life not only in the light of abstract ideas and cultural linguistic doctrines in the world of religions but also in the light of science and especially of a person as the horizon of understanding for both time and eternity Christ as the eschatological union of time and eternity becomes the work's unifying focus and its paradigm which solves recognized problems and opens our minds to new ones *Bede and Time* Máirín MacCarron, 2019-09-19 Awarded the Irish Historical Research Prize 2021 The Venerable Bede c 673 735 was the leading intellectual figure of the early Anglo Saxon Church and his extensive corpus of writings encompassed themes of exegesis computus dating of Easter and construction of calendars history and hagiography Rather than look at these works in isolation Máirín MacCarron argues that Bede's work in different genres needs to be read together to be properly understood This book provides the first integrated analysis of Bede's thought on time and demonstrates that such a comprehensive examination allows a greater understanding of Bede's writings on time and illuminates the place of time and chronology in his other works Bede was an outstanding intellect whose creativity and ingenuity were apparent in various genres of writing This book argues that in innovatively combining computus theology and history Bede transformed his contemporaries understanding of time and chronology **Walking Tours of Ancient Rome: A Secular Guidebook to the Eternal City**

(Mercury Guides) Gary M. Devore, 2008-04-12 This guidebook is designed for tourists and scholars who are interested in exploring first hand the grandeur and magnificence that was ancient Rome through a Humanist secular and freethinking lens Twelve walking tours are designed around districts of the city Two appendices also describe day trips that are possible from the city center the ruins of Rome's port city of Ostia and the remains of the emperor Hadrian's splendid villa at Tivoli

Time, Eternity, and the Trinity Eunsoo Kim, 2010-03-01 One of the vital issues in contemporary Christian theology is the problem of a renewed understanding of God's eternity and its relation to time This is not merely a peripheral doctrinal issue but lies at the heart of our understanding of God and humanity and contributes to our entire worldview This study focuses on a long standing debate between two competing views on God's eternity one focused on God's absolute timelessness in classical theism and the other on God's temporal everlastingness in contemporary panentheism In contrast to both of these well worn options this book presents an alternative Trinitarian analogical understanding of God's eternity and its relation to time especially through a critical reflection on Karl Barth's and Hans Urs von Balthasar's engagement of the issue This analogical approach based on the dynamic and dramatic concepts of God's being in relation and of the Triune God's communicative action in eternity and time has the potential to resolve the debate between absolute timeless eternity and temporal everlasting duration

The Contest for Time and Space in the Roman Imperial Cults and 1 Peter Wei Hsien Wan, 2019-10-17 Wei Hsien Wan builds on the work of David Horrell and Travis Williams for his argument that the letter of 1 Peter engages in a subtle calculated form of resistance to Rome that has often gone undetected Whilst previous discussion of the topic has remained largely focused on the letter's stance toward specific Roman institutions such as the emperor household structures and the imperial cults Wan takes the conversation beyond these confines and examines 1 Peter's critique of the Roman Empire in terms of its ideology or worldview Using the work of James Scott to conceptualize ideological resistance against domination Wan considers how the imperial cults of Anatolia and 1 Peter offered distinct constructions of time and space that is how they envisioned reality differently Insofar as these differences led to divergent ways of conceiving the social order they acquired political power and generated potential for conflict Wan thus argues that 1 Peter confronts Rome on a cosmic scale with its alternative construal of time and space and examines the evidence that the Petrine author consciously if cautiously interrogated the imperial imagination at its most foundational levels and set forth in its place a theocentric Christological understanding of the world

Rome Eternal Guy Lanoue, 2017-07-05 What does Roman mean How does the mythical city touch people's identities values and attitudes In the long established and official imaginary of the West Rome is the citta dell'arte the city of faith an heirloom city inspired by the traces of ancient Empire by the brooding aura of the Church by Hollywood fairy tale romance and by the spicy tang of veiled decadence But what of its contemporary residents Are they now merely guides and waiters servicing throngs of tourists indifferent to the city's contemporary charms Guy Lanoue a former resident of Rome explores how Romans live the modern myth of Rome Eternal Since the 19th century it has defined an important community the fatherland a home spun society where the rules of everyday life become tradition ways of eating dressing making and

keeping friends and acquaintances proper ways of speaking and a hard to define but nonetheless tangible air of composure

On Roman Time Michele Renee Salzman, 1991-03-25 Because they list all the public holidays and pagan festivals of the age calendars provide unique insights into the culture and everyday life of ancient Rome The Codex Calendar of 354 miraculously survived the Fall of Rome Although it was subsequently lost the copies made in the Renaissance remain invaluable documents of Roman society and religion in the years between Constantine's conversion and the fall of the Western Empire In this richly illustrated book Michele Renee Salzman establishes that the traditions of Roman art and literature were still very much alive in the mid fourth century Going beyond this analysis of precedents and genre Salzman also studies the Calendar of 354 as a reflection of the world that produced and used it Her work reveals the continuing importance of pagan festivals and cults in the Christian era and highlights the rise of a respectable aristocratic Christianity that combined pagan and Christian practices Salzman stresses the key role of the Christian emperors and imperial institutions in supporting pagan rituals Such policies of accommodation and assimilation resulted in a gradual and relatively peaceful transformation of Rome from a pagan to a Christian capital

Time in Ancient Stories of Origin Anke Walter, 2020-06-29 Greek and Roman stories of origin or aetia provide a fascinating window onto ancient conceptions of time Aetia pervade ancient literature at all its stages and connect the past with the present by telling us which aspects of the past survive even now or ever since then Yet while the standard aetiological formulae remain surprisingly stable over time the understanding of time that lies behind stories of origin undergoes profound changes By studying a broad range of texts and by closely examining select stories of origin from archaic Greece Hellenistic Greece Augustan Rome and early Christian literature Time in Ancient Stories of Origin traces the changing forms of stories of origin and the underlying changing attitudes to time to the interaction of the time of gods and men to historical time to change and continuity as well as to a time beyond the present one Walter provides a model of how to analyse the temporal construction of aetia by combining close attention to detail with a view towards the larger temporal agenda of each work In the process new insights are provided both into some of the best known aetiological works of antiquity e.g. by Hesiod Callimachus Vergil Ovid and lesser known works e.g. Ephorus Prudentius Orosius This volume shows that aetia do not merely convey factual information about the continuity of the past but implicate the present in ever new complex messages about time
