streets surrounding London's Savile Row. Crowds gathered at ground level and above. People climbed onto roofs and postboxes skipped lunch to gather and listen. For the first time in more than two years, The Beatles were playing live. Ringing from the rooftops, disturbing the well-to-do ears of the tailors below, they upset the establishment and bewildered the police. It was filmed by director Michael Lindsay Hogg, who hoped the footage would act as the finale to a celebratory TV special. When it finally surfaced, it was in the bleak, tumultuous documentary *Let It Be*. And The Beatles would never play live again. Tony Barrell examines the concert within the context of its time. He speaks to those who were there: the fans, film makers, roadies, Apple Corps staff and police. He explores the politics of 1968 when peace gave way to protest and how music promotion began to collide with cinema and reality TV. *The Beatles on the Roof* makes essential reading for anyone interested in the band's reinventions and relationships, revealing why the rooftop concert happened at all, why it happened the way that it did, and why it would never happen again.

*Where Fires Are To Burn* Mark L. Watson, 2019-10-07 Long after the evacuation, Ryan and Kiara are fighting to keep their family alive in a world where everything fights back against them. But when their son is taken, they must set out across apocalypse-ravaged Mexico to search for him, risking absolutely everything to do so. Beautiful and brutal, this is the story of an undying love and the lengths one must go to to protect it in the most unforgiving world.

*Learning from Delhi* Maurice Mitchell, 2010 An invaluable theoretical and practical guide to thinking global and acting local. The book is based on a ground-breaking course run by the London Metropolitan University School of Architecture in which students produce schemes from research undertaken during field trips to India. It provides a comprehensive review of the course and of the schemes produced since 2002 and argues the value of linking practical projects with education in the studio.
