Root Causes Of Sudans Civil Wars African Issues:

The Root Causes of Sudan's Civil Wars Douglas Hamilton Johnson,2011 Sudan s post independence history has been dominated by political and civil strife Most commentators have attributed the country s recurring civil war either to an age old racial divide between Arabs and Africans or to recent colonially constructed inequalities This book attempts a more complex analysis briefly examining the historical political economic and social factors which have contributed to periodic outbreaks of violence between the state and its peripheries In tracing historical continuities it outlines the essential differences between the modern Sudan s first civil war in the 1960s and the current war It also looks at the series of minor civil wars generated by and contained within the major conflict as well as the regional and international factors including humanitarian aid which have exacerbated civil violence This introduction is aimed at students of North East Africa and of conflict and ethnicity It should be useful for people in aid and international organizations who need a straightforward analytical survey which will help them assess the prospects for a lasting peace in Sudan Douglas H Johnson is an independent scholar and former international expert on the Abyei Boundaries Commission

missions with the power structures and local conflict dynamics that shape individual mission settings and the challenges these pose for mediation protection of civilians and other tasks It also offers a critical assessment of the various ways in which the UN system from its headquarters in New York to the field has confronted the policy challenges posed by political economies of conflict affected states societies and regions It advances a pragmatic set of policy recommendations aimed at improving the UN's ability to confront predatory and exploitative war economies At the same time the volume makes it clear that political and institutional obstacles to more effective UN action are certain to remain profound and are unlikely ever to be fully overcome let alone eradicated Despite making some progress since the 1990s to better understand the political economy of civil wars the UN has struggled with how to tackle informal networks of power and their consequences for efforts to end wars The book will be of special interest to students of war and conflict studies statebuilding political economy of conflict UN interventionism and peacebuilding and IR Security in general *Close to the Sources* Abebe Zegeye, Maurice Vambe, 2011-03-28 European and African works have found it difficult to move past the image of Africa as a place of exotica and relentless brutality This book explores the status and critical relationship between politics culture literary creativity criticism education and publishing in the context of promoting Africa's indigenous knowledge and seeks to recover some of the sites where Africans continue to elaborate conflicting politics of self affirmations It both acknowledges and steps outside the protocols of analysis informed by nationalism differentiating the forms that postcolonial theories have taken and arguing for a selective appropriation of theory that emerges from Africa's lived experiences **Political Dynamics of Grassroots Democracy in Vietnam** Hai Hong Nguyen, 2017-07-20 In *Political Dynamics of Grassroots Democracy in Vietnam* Hai Hong Nguyen investigates the correlation between independent variables and grassroots democracy to demonstrate that grassroots democracy has created a mutually empowering mechanism for both the party state and the peasantry *Small Arms Survey 2007* Small Arms Survey, Graduate Institute of International Studies (Geneva, Switzerland), 2007-09-06 The *Small Arms Survey 2007* features a special focus on the complex issue of urban violence Sudan's "Southern Problem" Sebatso C. Manoeli, 2019-12-04 The book offers a history of the discourses and diplomacies of Sudan's civil wars It explores the battle for legitimacy between the Sudanese state and Southern rebels In particular it examines how racial thought and rhetoric were used in international debates about the political destiny of the South By placing the state and rebels within the same frame the book uncovers the competition for Sudan's reputation It reveals the discursive techniques both sides employed to elicit support from diverse audiences amidst the intellectual ferment of Pan Africanism the Cold War and Black liberation politics It maintains that the interplay of silences and articulations in both the rebels and the state's texts concealed and complicated aspects of the country's political conflict In sum the book demonstrates that the war of words waged abroad represents a strategic but often overlooked aspect of the Sudanese civil wars War, Peace and Progress in the 21st Century Mark Berger, Heloise Weber, 2013-09-13 The history of development is one marked by

insecurities violence and persistent conflict It is not surprising therefore that development is now thought of as one of the central challenges of world politics However its complexities are often overlooked in scholarly analysis and among policy practitioners who tend to adopt a technocratic approach to the crisis of development and violence This book brings together a wide range of contributions aimed at investigating different aspects of the history of development and violence and its implications for contemporary efforts to consolidate the development security nexus From environmental concerns through vigilante citizenship to the legacies of armed conflicts during and after decolonization the different chapters reconstruct the contradictory history of development and critically engage contemporary responses and their implications for social and political analyses In examining violence and insecurity in relation to core organising principles of world politics the contributors engage the problems associated with the nation state and the inter state system and underlying assumptions of the promises of progress The book offers a range of perspectives on the contradictions of development and on how domination violence and resistance have been conceived At the same time it exemplifies the relevance of alternative methodological and conceptual approaches to contemporary challenges of development This book was published as a special issue of Third World Quarterly

Civil Wars in Africa Kelechi A. Kalu, George Klay Kieh Jr., 2022-05-05 Civil Wars in Africa edited by Kelechi A Kalu and George Klay Kieh Jr examines civil conflicts throughout various African countries They argue that civil wars in Africa are by products of the contradictions and crises engendered by the post colonial state building and nation building projects in Africa With few exceptions the post colonial states in Africa have failed to build societies that invest in the material well being of their citizens protect their political civil and other rights promote accountability transparency the rule of law judicial independence and the holding of free and fair elections and promote ethnic pluralism tolerance mutual respect and peaceful co existence among others In addition the contributors show that the post colonial states in Africa have been ruled by corrupt

and autocratic leaders who are obsessed with the maintenance of state power as the pathway to ensuring the private accumulation of wealth through sundry illegal means including bribery extortion and theft of public funds In sum this volume addresses how the failure of the post colonial African state to shepherd the process of building democratic societies based on the centrality of human security has led to the erosion of the legitimacy of the state and its custodians Thus once the contradictions and crises reached their crescendo these post colonial societies than implode into civil wars even at the micro level
