

The structure of the present literature review partly mirrors chronological flow of events because it attempts to unfold the moving forces behind its inception, prominence, and subsequent international impact. This is best accomplished when studying a phenomenon in accordance with chronological order; moreover, most studies follow this structure as well.

## Harlem's Historical Roots and Sociopolitical Climate

The point of departure of the discussion is set in the times of Emancipation Proclamation and proceeds by carefully examining the tendencies that shaped the nature of black people of the era. "Measuring Harlem" by Michael Soto serves as a comprehensive guide into the jazz age, with the author elucidating societal changes along with the historical events that stimulated them. The method that is employed in this work is highly analytical; with step-by-step evaluations of a wide array of aspects that led or directly pertained to the cultural phenomenon that is known as the Harlem Renaissance. The term itself is analyzed in retrospective of a several authors' works, such as Brent Hayes Edwards or John L. Jackson Jr - and deemed "overburdened" (Soto 15). The author touches upon economical reasons for the inception of Harlem, which are explained in detail along with the present-day concepts of black self-identification and its origins in the Jazz Age.

The work is fantastic in a sense that it gives a unique perspective into the Harlem Renaissance by tying it to U.S. census and the black experience. In a strict chronological order, the author reviews core examples of literature of Harlem Renaissance, identifying quintessential concepts expressed in these works and viewing them from the perspective of contemporaries. Via structured analysis that covers the subject from multiple points of perspective, Soto manages to get unbiased view on not only the cultural, but also sociological aspects of the era.

A compelling work of another author, "the Harlem Renaissance" by Nathan Irvin Huggins, is qualified for both an accurate historical account of the core events and a well-written piece of literature. Perhaps, in this work, the reader sees the historical figures of Harlem Renaissance from a more one-sided, strongly opinionated perspective rather than in the previous title. W. E. B. DuBois is compared with James Weldon Johnson, who were a part of the first wave of black intellectuals that came to Harlem to be heard. In contrast to DuBois, Marcus Garvey was known for his simplistic rendering of ideas that nevertheless captured the public's attention, making him "a spirit moving the men's souls to a dream" (Huggins 45). This analytical strategy employed by Huggins in which he observes the phenomenon of black leaders from different points of view,
