Givens, 2022-01-25 Racism has deep roots in both the United States and Europe This important book examines the past present and future of racist ideas and politics It describes how policies have developed over a long history of European and White American dominance of political institutions that maintain White supremacy Givens examines the connections between immigration policy and racism that have contributed to the rise of anti immigrant radical right parties in Europe the rise of Trumpism in the US and the Brexit vote in the UK This book provides a vital springboard for people organizations and politicians who want to dismantle structural racism and discrimination Racism George M. Fredrickson, 2015-09-15 A concise history of racism from its emergence in the late Middle Ages to today Are antisemitism and white supremacy manifestations of a general phenomenon Why didn't racism appear in Europe before the fourteenth century and why did it flourish as never before in the eighteenth and nineteenth centuries Why did the twentieth century see institutionalized racism in its most extreme forms Why are egalitarian societies particularly susceptible to virulent racism What do apartheid South Africa Nazi Germany and the American South under Jim Crow have in common How did the Holocaust advance civil rights in the United States With a rare blend of learning economy and cutting insight George Fredrickson surveys the history of Western racism from its emergence in the late Middle Ages to the present Beginning with the medieval antisemitism that put Jews beyond the pale of humanity he traces the spread of racist thinking in the wake of European expansionism and the beginnings of the African slave trade And he examines how the Enlightenment and nineteenth century romantic nationalism created a new intellectual context for debates over slavery and Jewish emancipation Fredrickson then makes the first sustained comparison between the color coded racism of nineteenth century America and the antisemitic racism that appeared in Germany around the same time He finds similarity enough to justify the common label but also major differences in the nature and functions of the stereotypes invoked The book concludes with a provocative account of the rise and decline of the twentieth century's overtly racist regimes the Jim Crow South Nazi Germany and apartheid South Africa in the context of world historical developments This illuminating work is the first to treat racism across such a sweep of history and geography It is distinguished not only by its original comparison of modern racism's two most significant varieties white supremacy and antisemitism but also by its eminent readability Roots of Racism, 1982

Roots of American Racism Alden T. Vaughan, 1995. Equally important to understanding the racial dynamics of early America are essays on early English paradigmatic views of Native Americans, the changing Anglo-American perceptions of Indian color and character, and frontier violence in pre-Revolutionary Pennsylvania. An extensive expose of slaveholder ideology in seventeenth-century Barbados is published here for the first time, as well as the second half of an essay on Puritan judicial policies concerning Indians. All previously published pieces have been revised to reflect recent scholarship or to address recent debates, and new headnotes have been added to the essays. A general introduction written for this volume links the essays together thematically.

The Anatomy of Prejudices Elisabeth Young-Bruehl, 1996. Among the many forms of prejudice, Young-Bruehl pays particular attention to four: antisemitism, racism, sexism, and homophobia, which she exposes in their distinctiveness and their similarities.

Shattering the Denial Karen B. Donaldson, 2001-05-30. This book has gone to great lengths to reveal, through research and practice, the possibilities of addressing and reducing racist practices in our schools. It features an Antiracist Education Teacher Study that assisted in providing baseline figures of teacher perceptions of racism and demonstrated how teachers can successfully implement antiracist concepts in their classrooms. Findings further indicate that such teacher involvement makes a difference in student acceptance and attitude. As teachers display enthusiasm for teaching their subject areas multiculturally and having an intolerance for racist behavior, many students have shown greater respect and appreciation for their teachers who are willing to expose life's realities. Educators in the Teacher Study became role models for their students. This role modeling empowered students in positive ways to address issues of racism from the student perspective. Dr. Donaldson also focuses on shattering the denial of teachers who doubt the existence of racism in schools and who question how student learning is adversely affected by racism. She uncovers the difficulty teachers have with coming to grips with the realities of racism. In light of these difficulties, those who endured became empowered to become better teachers.

The Fortney Encyclical Black History Albert Fortney Jr., 2016-01-15. The Encyclical Black History has been created for the critical and lack of vital Afro-Centric Multi-Curriculum text in urban school systems and is a necessity for African Americans. This book was created with careful and serious attention to biographical names that identify history, culture, as well as biblical characters. The reason why of this encyclical history can be explained with the facts and proof evidence of the following: The point that has socio-psychological implications

at the unconscious as well as the conscious level is the great little white racist lie seen long enough becomes the truth like portraying a white Jesus Christ who was a black man Dr Alvin Poussaint a Black psychiatrist associated with Harvard University and others have observed and explained the most tragic part of all of this is that the African American has come to form his self image and self concept on the basis of what white racists have laid down as a guide or prescribed Therefore black men and women learn quickly to hate themselves and each other more than their white oppressor There is almost infinite evidence that racism has left almost irreparable scars on the psyche of Afro Americans that burden with an unrelenting painful anxiety that drives the psyche to reach out for a sense of identity and self esteem Poussaint and others say that black children especially learn to hate themselves at very early ages Studies reveal their preference for white dolls over black ones One study reported that black children in their drawings tend to show blacks as small incomplete people and whites as strong and powerful To conclude in western color symbolism white is positive and black negative Many people might ask why the contributions of Africa should be included in American curriculum Is because they bleach and still rob black history and culture with black pictured as white that lie leaves us mentally dead angry and without purpose of where we are going Human culture is the product of all humanity not the possession of a single racial or ethnic group Afro centric Multicultural educations major aim is to close the gap between Western ideals of equality justice and practices that contradict these ideas Stereotype people of color and people who are poor have just about no opportunities to become free of perspectives that are monoculture that devalue African culture victimize them mostly having an inability to fully function effectively in society Many of these problems could be miraculously remedied with astonishing results if explained of black scientific achievements which occurred in black Africa There are also white African Americans living in the U S A besides black African Americans should make the distinction Carl Sandburg 1979 related a dialogue between a white American and an American Indian which illustrates the need for multicultural education The white man drew a small circle in the sand and told the red man This is what the Indian knows and drawing a big circle around the small one this is what is what the white man knows The Indian then took the stick and swept an immensely big ring around both circles and said this is where the white man and the red man knows nothing
