

ABOUT THE AUTHOR

Merle Eugene Curti has achieved an eminent position as one of the country's most distinguished scholars in the field of American history. Descended on his maternal side from American Revolutionists and on his paternal side from an old Swiss family of colonized scholars which emigrated to the United States in 1833, he was

accident-born early in his career. A graduate of Harvard summa cum laude, he has held a Rhodes Traveling Fellowship and Guggenheim Fellowship. Until 1927 he was Dwight Morrow Professor of History at Smith College and from then until 1940 Professor of History, Columbia University. Since that time he has been Professor of History at the University of Wisconsin. He has had visiting professorships at a number of leading American universities and is the first Visiting Professor on the National Foundation for the Study of the Social Science Research Council and on the Board of Advisors of the American Council of Learned Societies.

Professor Curti has long been a contributor to historical and literary magazines, as well as to the Dictionary of American Biography and the Encyclopedia of the Social Sciences. Among his books are *The American Renaissance, 1825-1860*, *The Social Vision of American Educators, 1820-1860*, *The American Struggle, 1830-1870*, *The Growth of American Thought* and *The Federal Union* (1933) and has been translated into French, Spanish, Czech, German, and Russian.

Roots Of American Loyalty:

The Roots of American Loyalty Merle Curti,1967 The Roots of American Loyalty Merle Eugene Curti,1946

Immigrant Minds, American Identities Orm Øverland,2000 Devised by individual ethnic leaders and spread through ethnic media banquets and rallies these myths were a response to being marginalized by the dominant group and a way of laying claim to a legitimate home in America BOOK JACKET Roots of American Culture and Identity Chédli Zargouni Hamouda,2007

Legacy of Hate: A Short History of Ethnic, Religious and Racial Prejudice in America Philip Perlmuter,2015-07-17 For all its foundation on the principles of religious freedom and human equality American history contains numerous examples of bigotry and persecution of minorities Now author Philip Perlmuter lays out the history of prejudice in America in a brief compact and readable volume Perlmuter begins with the arrival of white Europeans moves through the eighteenth and industrially expanding nineteenth centuries the explosion of immigration and its attendant problems in the twentieth century and a fifth chapter explores how prejudice racial religious and ethnic has been institutionalized in the educational systems and laws His final chapter covers the future of minority progress *The 50% American* Stanley A. Renshon,2005-11-01 The United States is the only nation in the world that allows its citizens to hold one or more foreign citizenships vote in another nation s elections run for or be appointed to office in another country and join the armed forces even of a nation with interests hostile to those of the U S while retaining their citizenship These policies reinforce the often already strong emotional political and economic ties today s immigrants retain to their home countries Yet few studies have addressed what dual citizenship means for the United States as a nation and the integration of immigrants into the American national community Is it possible to reconcile two different nationalities cultures and psychologies How can we honor immigrants sense of identity without threatening American national identity What do Americans have a right to expect of immigrants and what do they have a right to expect of Americans In *The 50% American* political psychologist Stanley Renshon offers unique insight into the political and national ramifications of personal loyalties Arguing that the glue that binds this country together is a psychological force patriotism he explains why powerful emotional attachments are critical to American civic process and how they make possible united action in times of crisis In an age of terrorism the idea that we are all Americans regardless of our differences is more than a credo it is essential to our national security Comprehensive in scope this book examines recent immigration trends tracing the assimilation process that immigrants to the United States undergo and describing how federal state and local governments have dealt with volatile issues such as language requirements voting rights and schooling Renshon turns a critical eye to the challenges posed over the past four decades by multiculturalism cultural conflict and global citizenship and puts forth a comprehensive proposal for reforming dual citizenship and helping immigrants and citizens alike become more integrated into the American national community

John L. Sullivan and His America Michael T. Isenberg,1994-01-15 A knockout biography of John L Sullivan that puts

the fabled boxing champ squarely in the context of his rough and tumble times Drawing on a wealth of contemporary sources including the scandalous National Police Gazette Isenberg History Annapolis recounts how Sullivan brawled his way from a working class background in Boston s Irish ghetto to the top of the prizefighting world Schoolbook Nation Joseph Moreau,2004-11-23 DIVAn unbiased examination of the century and a half long culture wars fought in the pages of our country s history texts div *Bonds of Affection* John Bodnar,2020-10-06 During the Civil War Walt Whitman described his admiration for the Union soldiers loyalty to the ideal of democracy His argument that this faith bonded Americans to their nation has received little critical attention yet today it raises increasingly relevant questions about American patriotism in the face of growing nationalist sentiment worldwide Here a group of scholars explores the manner in which Americans have discussed and practiced their patriotism over the past two hundred years Their essays investigate for example the extent to which the promise of democracy has explained citizen loyalty what other factors such as devotion to home and family have influenced patriotism and how patriotism has often served as a tool to maintain the power of a dominant group and to obscure internal social ills This volume examines the use of patriotic language and symbols in building unity in the early republic rebuilding the nation after the Civil War and sustaining loyalty in an increasingly diverse society Continuing through the World Wars to the Clinton presidency the essay topics range from multiculturalism to reactions toward masculine power In addition to the editor the contributors include Cynthia M Koch Cecilia Elizabeth O Leary Andrew Neather Stuart McConnell Gaines M Foster Kimberly Jensen David Glassberg and J Michael Moore Lawrence R Samuel Robert B Westbrook Wendy Kozol George Lipsitz Barbara Truesdell Robin Wagner Pacifici and William B Cohen The Irish and the Origins of American Popular Culture Christopher Dowd,2018-02-15 This book focuses on the intersection between the assimilation of the Irish into American life and the emergence of an American popular culture which took place at the same historical moment in the late 19th and early 20th centuries During this period the Irish in America underwent a period of radical change Initially existing as a marginalized urban dwelling immigrant community largely comprised of survivors of the Great Famine and those escaping its aftermath Irish Americans became an increasingly assimilated group with new social political economic and cultural opportunities open to them Within just a few generations Irish American life transformed so significantly that grandchildren hardly recognized the world in which their grandparents had lived This pivotal period of transformation for Irish Americans was heavily shaped and influenced by emerging popular culture and in turn the Irish American experience helped shape the foundations of American popular culture in such a way that the effects are still noticeable today Dowd investigates the primary segments of early American popular culture circuses stage shows professional sports pulp fiction celebrity culture and comic strips and uncovers the entanglements these segments had with the development of Irish American identity **Henry Ford** John Cunningham Wood,Michael C. Wood,2003 Records and Briefs of the United States Supreme Court ,1832 Star-Spangled Banner Marc Ferris,2014-09-13 The first comprehensive

history of America's controversial national anthem and how it evolved from an English barroom ballad into a patriotic hit. Nearly every American knows The Star Spangled Banner, the national anthem of the United States of America. Yet many people dislike the song, contend that it glorifies militarism, and question its suitability as the musical embodiment of nationhood. Even professional vocalists have trouble singing the multi-octave melody and remembering the words. So why in 1931 did Congress designate it as the official national anthem more than a century after Francis Scott Key put pen to paper? Filled with fascinating little-known facts drawn from a variety of primary sources, *Star Spangled Banner* provides the first narrative history of this controversial song, which turns 200 years old in 2014. Marc Ferris's lively account, which traces the evolution of the song's instant popularity as well as its use and abuse by Americans of different political stripes, also explains the changing rituals surrounding the song, including the practice of standing with hats removed and hands held over the heart during public performances. This entertaining book will appeal to patriots of all persuasions, along with sports fans, musicians, veterans, history buffs, and anyone who has ever struggled to hit the high notes in "The Land of the Free and the Home of the Brave."

Patriot Fires Melinda Lawson, 2002-11-27. The Civil War is often credited with giving birth to the modern American state. The demands of warfare led to the centralization of business and industry and to an unprecedented expansion of federal power. But the Civil War did more than that, as Melinda Lawson shows: it brought about a change in American national identity, redefining the relationship between the individual and the government. Though much has been written about the Civil War and the making of the political and economic American nation, this is the first comprehensive study of the role that the war played in the shaping of the cultural and ideological nation-state. In *Patriot Fires*, Lawson explains how, when threatened by the rebellious South, the North came together as a nation and mobilized its populace for war. With no formal government office to rally citizens, the job of defining the war in patriotic terms fell largely to private individuals or associations, each with their own motives and methods. Lawson explores how these interpreters of the war helped instill in Americans a new understanding of loyalty to country. Through efforts such as sanitary fairs to promote the welfare of soldiers, the war bond drives of Jay Cooke, and the establishment of Union Leagues, Northerners cultivated a new sense of patriotism rooted not just in the subjective American idea but in existing religious, political, and cultural values. Moreover, Democrats and Republicans, Abolitionists, and Abraham Lincoln created their own understandings of American patriotism and national identity, raising debates over the meaning of the American idea to new heights. Examining speeches, pamphlets, pageants, sermons, and assemblies, Lawson shows how citizens and organizations constructed a new kind of nationalism based on a nation of Americans rather than a union of states, a European-styled nationalism grounded in history and tradition and celebrating the preeminence of the nation-state. Original in its insights and innovative in its approach, *Patriot Fires* is an impressive work of cultural and intellectual history. As America engages in new conflicts around the globe, Lawson shows us that issues addressed by nation builders of the nineteenth century are relevant once again as the meaning of patriotism

continues to be explored *The West* Georgios Varouxakis,2025-07-08 A comprehensive intellectual history of the idea of the West How did the West come to be used as a collective self designation signaling political and cultural commonality When did Westerners begin to refer to themselves in this way Was the idea handed down from the ancient Greeks or coined by nineteenth century imperialists Neither writes Georgios Varouxakis in *The West* his ambitious and fascinating genealogy of the idea The West was not used by Plato Cicero Locke Mill or other canonized figures of what we today call the Western tradition It was not first wielded by empire builders It gradually emerged as of the 1820s and was then Varouxakis shows decisively promoted in the 1840s by the French philosopher Auguste Comte whose political project incidentally was passionately anti imperialist The need for the use of the term the West emerged to avoid the confusing or unwanted consequences of the use of Europe The two overlapped but were not identical with the West used to differentiate from certain others within Europe as well as to include the Americas After examining the origins Varouxakis traces the many and often astonishingly surprising changes in the ways in which the West has been understood and the different intentions and consequences related to a series of these contested definitions While other theories of the West consider only particular aspects of the concept and its history if only in order to take aim at its reputation Varouxakis s analysis offers a comprehensive account that reaches to the present day exploring the multiplicity of current and not least prospective future meanings He concludes with an examination of how since 2022 definitions and membership of the West have been reworked to consider Ukraine as the evolution and redefinitions continue *Catalog of Copyright Entries. Third Series* Library of Congress. Copyright Office,1975 **Immigrant Nations** Paul Scheffer,2011-06-20 A defence of the meaning and function of borders and their necessity in the face of authoritarian attitudes to multiculturalism *The Origins of the American Civil War* Brian Holden Reid,2014-09-25 The American Civil War 1861 65 was the bloodiest war of the nineteenth century and its impact continues to be felt today It and its origins have been studied more intensively than any other period in American history yet it remains profoundly controversial Brian Holden Reid s formidable volume is a major contribution to this ongoing historical debate Based on a wealth of primary research it examines every aspect of the origins of the conflict and addresses key questions such as was it an avoidable tragedy or a necessary catharsis for a divided nation How far was slavery the central issue Why should the conflict have erupted into violence and why did it not escalate into world war **Reader's Guide to American History** Peter J. Parish,2013-06-17 There are so many books on so many aspects of the history of the United States offering such a wide variety of interpretations that students teachers scholars and librarians often need help and advice on how to find what they want The Reader s Guide to American History is designed to meet that need by adopting a new and constructive approach to the appreciation of this rich historiography Each of the 600 entries on topics in political social and economic history describes and evaluates some 6 to 12 books on the topic providing guidance to the reader on everything from broad surveys and interpretive works to specialized monographs The entries are devoted to events and

individuals as well as broader themes and are written by a team of well over 200 contributors all scholars of American history

The Red Scare: Roots and Hysteria Pasquale De Marco, 2025-07-25 The Red Scare was a period of anti communist hysteria in the United States that began in the early 20th century and reached its peak during the Cold War This book examines the origins impact and legacy of the Red Scare shedding light on one of the darkest chapters in American history The Red Scare was fueled by a variety of factors including the Cold War rivalry between the United States and the Soviet Union the rise of communist movements in other parts of the world and the perceived threat of espionage and sabotage It led to the creation of loyalty oaths security screenings and other measures designed to root out communists and their sympathizers It also resulted in the blacklisting of individuals and organizations suspected of communist ties The most notorious example of the Red Scare was the McCarthy hearings which were conducted by Senator Joseph McCarthy in the early 1950s McCarthy made unsubstantiated accusations of communist infiltration at all levels of American society including the government the military and the entertainment industry His hearings led to the destruction of many lives and careers The Red Scare eventually subsided in the late 1950s but its legacy continues to resonate today The fear of communism and the measures taken to combat it left a lasting impact on American democracy and civil liberties This book provides a comprehensive overview of the Red Scare drawing on a wide range of sources including government documents congressional hearings and personal accounts It is a valuable resource for anyone interested in American history the Cold War or the history of civil liberties If you like this book write a review

As recognized, adventure as skillfully as experience roughly lesson, amusement, as without difficulty as understanding can be gotten by just checking out a book **Roots Of American Loyalty** as a consequence it is not directly done, you could agree to even more approaching this life, vis--vis the world.

We come up with the money for you this proper as with ease as simple habit to get those all.
